Percy Bourne Injured.

Percy Bourne, son of Capt. Bourne, Town Treasurer, has for the past four years been an employee in the freight department at the C. P. R. station here. Last Wednesday afternoon he was seriously injured by being crushed between a box car and the freight shed. He was standing in the shed waiting for a car to be backed down. As the car came along he caught the door and tried to open it and was drawn between the car and the shed in a very narrow space and carried along a distance of about nine feet. As the train pulled ahead again to bring the car into exact position he was carried back again and was only released when the car door came opposite the door of the shed.

Although the first reports were rather exaggerated yet Mr. Bourne was badly hurt. No bones were broken, but some of his ribs were started and his head was badly bruised. It can not be said yet whether he received any internal injuries. He is suffering severely.

The Ladies Play Hockey.

The hockey match between the ladies hockey club of Fredericton and the Woodstock ladies on Friday evening last, was attended by one of the largest audiences ever seen in the rink. The line up of the teams was as follows:

| FREDERICTON. | WOODSTOCK. |
|--------------------|------------------|
| Minnie Parker, | G. McQuarrie, |
| Annie Wilson, | B. K. Dibblee, |
| Stella McCatherin, | F. Camber, |
| Eva Staples, | Georgie Balmain, |
| Trixie Lane, | Ethel Brewer, |
| Beatrice Payson, | Bessie McLean, |
| Beatrice Payson, | Mable Nicholson |

The team was accompanied by Mrs. E. J. Payson and Mrs. H. Walker as chaperons.

During the first half of the game the play was snappy and interesting, and was greatly enjoyed by the large number of ladies present. When the bell rang for half time neither side had scored although there were several very close calls. When time was called for the second half both teams started in at a rapid pace. The home team seemed to have the advantage in this half, and came very close to the net several times. The fast pace finally began to tell and it was evident the girls were getting tired, but the crowd kept urging them on until the bell rang, neither side having scored.

After a short consultation between the players, it was decided to play another five minutes at the end of which the result stood 0 to 0.

Guy H. Payson Badly Injured.

Guy H. Payson, son of H. N. Payson of Woodstock was riding on an electric trolley last week near Onawa, Me., when the car was struck by a rapidly moving train. The young man was thrown a considerable distance and received severe injuries. His legs, arms and back were badly bruised and cut. He is now lying under the doctor's care at Ottawa and will be brought home as soon as he can be moved, which may be next week.

Grand Falls To Plaster Rock.

The Government has asked for tenders for the opening of a road from Grand Falls to Plaster Rock. This need of a road has been urged for years, but has been opposed by the lower part of the County. The distance from Andover to Plaster Rock is upwards of twenty-nine miles, while the distance from here is only 13 miles. The opening of the road will result in making Grand Falls the market for Plaster Rock and the upper Tobique, instead of Perth and Andover, as at present. Besides, sportsmen visiting the upper Tobique will henceforth outfit at Grand Falls and proceed by the shorter route from here. Much credit is due Jas. Burgess, M. P. P., for his successful efforts in inducing the executive to complete the project.—Grand Falls Cor., St. John Times.

Child Burned to Death at Centreville.

James Hartley who lives near Tracy Mills went away from his home on Monday last to help a neighbor, leaving his wife and children and home as usual, little thinking what a sad change a few short hours would bring to the heads of that household. Mrs. Hartley went to the house of a neighbor a few rods away about nine o'clock leaving in the house her two children aged five and two years. In a short time the oldest child came running to the neighbors house saying the house was on fire and the baby was burning in it. Mrs. Hartley and her neighbors ran as fast as they could, but when they got there the whole inside of the house was one mass of flames and no sound of the child could be heard but only that of the roaring cruel flames. It was with difficulty that Mrs. Hartley was prevented from entering the burning building to a certain death, in the hope to secure the child.

Nothing whatever was saved from the buildings and though a thorough search has been kept up no trace of any remains of the child has been found.

The cause of the fire as far as can be learned from the elder child was that the younger child had got a can containing kerosine oil and attempted to pour some in a cylinder stove, the oil being spilt on the stove and mats and the child's clothing and all were soon in flames.
