## A Word to the Farmers.

We wish to draw your attention to a new line of goods we are introducing. This line of goods is new to the farmers in this section of the country, but in the United States and Upper Canada it has been used by the farmers very extensively, and has given the very best results. This line consists of:—

### COWS' RELIEF.

The great twelve hours' cure for udder troubles. It is the original specific for all troubles of the cow's udder and teats.

### COW TONE.

The only scientific, constitutional disinfectant and milk producer that acts as a destroyer of germs by constitutional process and acts harmoniously upon the food elements and digestive organs to convert the largest possible proportion of foodstuffs into milk.

### ARABIAN SCRATCHES AND GALL CURE.

As the name signifies, is a very superior article for all kinds of soreness and skin diseases of the horse.

### CALVES CORDIAL

Is a scientific combination of ingredients for the cure of scours in cows and calves caused by the unnatural condition of the stomach and bowels.

### COMMON SENSE CALF FEEDER

Is a combination of scientific principles and practical ideas in the rearing of better calves at less cost with less vexation.

We would like the farmers to give these goods a trial, and if not satisfactory money will be refunded. Write us for circulars.

## After the Doctor.

After the physician has made a careful study of a case and has decided upon the remedies necessary to cure, then the responsibility of the pharmacist begins. The remedies prescribed must be pure, of standard strength, and must be accurately compounded.

Our appreciation of this responsibility is shown by the rare stock of prescription drugs we carry and by the modern, scientific methods employed in our prescription department. Your physician will be pleased if we fill his prescriptions.
