

Anyone can build a flour mill

and equip it with what is ordinarily known as modern milling machinery, and perhaps, if they have the experience and the millers, they can make as good a flour as ROYAL HOUSEHOLD, up to the point where ROYAL HOUSEHOLD reaches the electrical process. Beyond this, no Canadian miller, at present, can go, and the result is that in ROYAL HOUSEHOLD we have flour distinctly different from any other in Canada; one which any good miller or practical flour man could tell the difference in and note the superiority of, without a moment's hesitation.

A MOTHER'S PRAISE.

In every part of Canada you will find mothers who speak in the highest praise of Baby's Own Tablets. Among these is Mrs. Jas. H. Konkle, Beamsville, Ontario, who says:—"I have used Baby's Own Tablets for over three years and I would not be without them. They have done more for my children than any medicine I have ever used. My little girl, now four years old was always troubled with indigestion and constipation, and although other medicines helped her temporarily, Baby's Own Tablets were the thing needed to cure her. I also gave the Tablets to my baby from time to time since she was two days old, and they always worked like a charm. She is now two years old and a more healthy child would be hard to find. The Tablets are certainly a life-saver." These Tablets cure all minor ailments of infants and young children. They contain no poisoning soothing stuff, and there is no danger of giving an over-dose as there is with liquid medicine. Sold by all druggists or sent by mail at 25 cents a box by writing The Dr. Williams Medicine Co., Brockville, Ont.

THE trustees of the Carleton County Hospital wish to thank Messrs. Gallagher Bros. for the use of the Park on Victoria Day and for their efforts in making the celebration a success. They also wish to thank the members of the 67th Regt. Band for the excellent music rendered during the afternoon.

On this page of today's issue appears an advertisement of The Amherst Motor Co. To this young Company belongs the honor, we believe, of introducing the gasoline engine in the Maritime Provinces, having nearly five years ago placed a few sample engines in different parts of the country, and as these engines more than filled their highest expectations regarding cost of fuel, reliability and durability, they began about two years ago to push business and now have in N. B. and N. S. nearly one hundred engines, which are giving highly satisfactory results. There can be no doubt that the gasoline power is destined to revolutionize, to a certain degree at least, the mode of operating threshers and almost any other machinery requiring a light portable or stationary power from 1 to 20 or 30 horsepower. The cost of operating a gasoline engine is much less than steam and we understand for instance that a thresher turning out four hundred bushels of oats daily can be run at a cost of eighty cents per day on an average.

You Have a Gold Mine in Your Farm if You Will Use a

SPRAMOTOR.

What is the Spramotor? It is a machine that has demonstrated to the satisfaction of the Department of Agriculture that over 80% of the possible fruit crop of the Dominion of Canada is going to waste and all through a lack of appreciation of proper means of saving it.

The Spramotor is a practical machine for practical purposes. It can be put to a number of uses, saving its cost a dozen times over in the course of a season.

Used for spraying fruit trees, shrubs and vines it increases the yield over 80%.

Under its influence, raw crops are rid of grubs, worms, bugs and other pests.

For killing wild mustard in the growing grain its value is beyond computation.

From relieving live stock from the annoyance of the horn fly it demonstrate its usefulness many times over and assures a greater yield of milk and butter.

For disinfecting its effectiveness is unquestioned.

For painting and white washing out houses, barns, fences, etc., it is a money maker, because it is a money saver. It covers a given area in 15 the time required by hand labor. Used with Spramotor Cold Water Paint it reduces the expense of painting fully 60%.

We are sole agents for the Spramotor. Call at our store or write us for prices.
