The Canadian Bible Society are sending out their eighty fifth report and it is much more complete in many ways than some of the former ones. Literature is also being forwarded to the Branch Societies showing its work at home and abroad and the special eds of the Canadian field. Rev. Mr. Turner is the treasurer of the Centreville

branch and it is to be hoped that the collectors will soon be at work and a better showing made this year than ever before. As the society is undenominational every one may reasonably expect to contribute something for the support of this great work. It is very likely that collectors will be appointed at Tracy Mills and Pioneer and Knoxford as well as other outlying districts.

Hallowe'en was observed here as usual only that a larger force of those of riper years turned out than usual. No serious objection would be taken to anything done, where no damage or inconvenience would result, but where property is wantonly destroyed it is high time to call a halt and no one should feel at liberty to do in the darkness what he would be ashamed or afraid to do in the light. One act so dastardly mean and of such criminal conception deserves special mention. That of breaking and entering the Primary school room and destroying the books and register of the teacher and the property of the District as well as that of the pupils. The parties are known to the trustees and it remains to be seen whether any action will be taken or whether by over looking the offense to encourage the naturally depraved to commit further acts from which the public are entitled to protection.

What was a very serious fire was discovered in the barn which is attached to the house of Jarvis R. Tracy, of this place Sunday morning about six o'clock. The alarm was given by the neighbors while Mr. Tracey was unaware of any danger. The fire brigade was soon on the scene and after several hours of fierce combat the flames were subdued, but not before the fine new barn was completely destroyed, except some portions of the walls which were left standing. The origin of the fire is supposed to be the work of tramps, as the building had not been entered for several days previous. Much credit is due Fire Chief Winslow Dyer and his brave lads. Mr and Mrs Tracey desire to thank the firemen and all who assisted in saving their house.

Mr. Johnson And the New Brunswick Apples.

George Johnson, of Ottawa dominion statistician, who has been granted, as recognition of his excellent services, a year's leave of absence at full pay, is at the Royal on his way to Nova Scotia, where he is the possessor of a large apple orchard. After spending a short time there he will leave for England, and from England go to the West Indies, where he will spend the remainder of his holiday.

Mr. Johnson, speaking yesterday concerning the civil service at Ottawa said that he thought that Canada was to be congratulated on the excellence and honesty of her civil servants. Mr. Johnson is the discoverer of the famous "New Brunswick" apple. While a boy living at Woodstock, he planted an apple seed and this in time grew into a tree, and when Mr. Johnson left Woodstock he presented this tree to the late L. P. Fisher, who in his turn handed it over to Mr. Sharpe, the horticulturist, of Woodstock. Mr. Sharpe cultivated this tree very carefully and it was the beginning of the New Brunswick apple.—St. John Telegraph.

DYING BY INCHES.

Bloodless Girls Saved by Dr. Williams' Pink Pills.

Dying by inches—that is the only way to describe hundred of bloodless girls who are slipping slowly but surely from simple anaemia into a decline. They drag themselves along with one foot in the grave through those years of youth that should be the happiest in their lives. And the whole trouble lies in the blood. Bad blood is the fountain-head of all the trouble that afflicts woman from maturity to middle life. Bad blood causes all the backaches and sideaches, all the painless, breathlessness and despondency; all the heart palpitation, sickly dizzy turns and deathly faintly spells. From fainting spells to consumption is only a step. In nine cases out of ten consumption starts from bloodlessness—and the only sure cure for bloodlessness is Dr. Williams' Pink Pills. They actually make new, rich, red blood, that brings the rosy glow of health to sallow cheeks, and strength to every part of the body. This has been proved in thousands of cases. Miss Frances Peach, Welland, Ont., says:—"A couple of years ago my condition of health was very serious. Doctors said that I had no blood—that it had turned to water. I was unfit to do anything for months and was little more than a living skeleton. I had no appetite; the least exertion would leave me breathless, and I had frequent severe headaches. I was treated by several doctors, but they failed to help me, and I was completely discouraged. Then I was urged to take Dr. Williams' Pink Pills, and in a few weeks found my health improving. I used eight boxes in all, and was by that time again well and strong. I gained twenty-two pounds in weight, and never felt better in my life."

What Dr. Williams' Pink Pills did for Miss Peach they can do for every other weak and ailing girl. They make new blood, and new blood brings health, strength and happiness. But you must be sure you have the genuine pills with the full name "Dr. Williams' Pink Pills for Pale People," printed on the wrapper around each box. All dealers sell these pills, or you can get them by mail at 50 cents a box or six boxes for \$2.50, by writing The Dr. Williams Medicine Co., Brockville, Ont.

FEEDING

The average horse, with the usual flow of saliva, eats one quart of oats in about fifteen minutes; with this flow partially stopped it takes thirty minutes.

This shows how important it is to have the proper quantity of saliva and digestive juices.

Clydesdale Stock Food

increases the saliva and digestive juices because the feed being made "tasty" it makes the animals "mouth water," the same as our own when we add butter or jam to our soda biscuit; it makes it more enjoyable to eat. The horse, therefore, eats its feed up clean.

The increased digestion and assimilation makes the blood circulate better, loosening the hide and making the coat glossy. Nothing injurious in it and can stop feeding it without harmful effects.

Our Heave Cure, Tar Foot Remedy, Colic Cure, Embrocation Liniment, Gall Cure, Balsam Pine Healing Oil, and Worm Powders are equally as good in their own way.

Money cheerfully refunded by the dealer if any Clydesdale Preparations do not give satisfaction.
