Mews of Hartland and Vicinity

FRED. H. STEVENS, Reporter, and Manager Hartland Branch Office.

WOODSTOCK, N. B., DEC. 20, 1905.

The Train Service.

As a result of vigorous agitation through the newspapers and the efforts of the Woodstock Board of Trade the C. P. R has put on a train to run between Woodstock and Perth, giving the public an opportunity of going to Woodstock or coming down to Hartland and return the same day. But alas! this week. It is up to the people to keep "kicking," and above all not to be satisfied with a half loaf. One station agent told The this arrangement is only to continue through DISPATCH reporter that the passenger receipts had fallen off so since the discontinuance of the "hobo" that he was ashamed to send in his reports. Another striking incident in connection with the train arrangement is that a man of Bath who wished to attend the funeral of a prominent citizen of Woodstock lost three days in doing so, it requiring that time to get to town, attend the funeral, and return by train.

Gibraltar is Crumbling.

The public is not aware that the great rock of Gibraltar is tumbling down-that its crumbling, rotting masses must be continually bound together with huge patches of masonry and cement.

Yet they who sail past Gibraltar cannot fail to notice on the eastern slope of the fortress enormous silver-colored patches gleaming in the sun. These patches, in some cases thirty or forty feet or more, are the proof of Gibraltar's disintegration. Of thick, strong cement they keep huge spurs of

Sea captains cruising in the Mediterranean say that Gibraltar has been rotting and crumbling for many years, but that of late the disintegration has gone on at a faster rate than heretofore

They say that the stone forming this imposing cliff is routen stone, and that in a is again in evidence. Of course many take little while the phrase "the strength of Gibr-
