

WOODSTOCK, N. B., OCTOBER 4, 1905.

Viewing the Valley.

Woodstock, to which things came slowly but surely, was visited yesterday by the G. T. P. railway commission, which is composed of Mr. Parent, Quebec, chairman, and Messrs. Reid, Young and McIsaac. Accompanying these gentlemen were Senators Thompson, King and Demville, as well as Mr. Carvell, M. P., and W. T. Whitehead, M. P. P., and a very important member of the party was Mr. McPherson the assistant chief engineer. The party came by a special to Woodstock from Andover. They had been up to Plaster Rock, after coming via the Temiscouata from River du Loup. Certainly their eyes were opened—those of them who had never been along the valley before. Mr. McPherson accompanied by Messrs. Carvell and Whitehead drove to Fredericton, and the rest of the party proceeded there by train. Of course "mum's" the word, but hope still exists that the proper route will not be passed by again as it was when the Intercolonial was built.

On the Range October 2nd, 1905.

Rogers-Gibson.

One of the best conducted, and reverently quiet wedding ever seen in these parts was celebrated at the residence of the father of the bride, David Gibson, Esq., Northampton on Wednesday, 27th inst. at one o'clock in the afternoon, when Harrison Turner son of John James and Elizabeth Rogers and Emma Louise daughter of David and Augusta Gibson were united in holy matrimony by the impressive service of the Methodist church, rendered by the Rev. John C. Berrie. At the appointed hour Mrs. W. C. Berrie Good who presided at the piano, played "The Bridal Song" by Battiste, soon the bridegroom took his place accompanied by Mr. Robert Gibson brother of the bride, then four little girls held white ribbons to mark the path for the bride, who entered on the arm of her eldest brother, Arthur, preceded by the bride's maid Miss Augusta Rogers, sister of the bridegroom. The bride and bride's maid were attired in white and carried white bouquets. The ceremony being over congratulations were in order, and the seventy five or more guests entered heartily into this part of the function, whilst a march by Jensen and other selections were played. After the signing of the usual documents, a delicious supper was served, and by four o'clock the bridal party left for Woodstock to entrain for Boston. The bride's travelling suit was of brown color with becoming hat to match, and she certainly did look charming. The presents were costly, useful, ornamental and numerous. A Baby Changed.

"One could hardly believe the change Baby's Own Tablets have wrought in my child," says Mrs. Angus Morrison, Port Caldwell, Ont. "He suffered terribly while teething, vomited his food and was weak and puny. One box of Baby's Own Tablets made him a changed child. They eased the pain of teething, strengthened his stomach, and he is now a big, healthy child, growing finely and never sick a day." The experience of Mrs. Morrison is that of thousands of other mothers who have found healthy for their little ones and comfort for themselves in the use of Baby's Own Tablets. Mothers need not be afraid of this medicine, it is guaranteed not to contain an atom of opiate or strong drug. They could not harm a child of any age, and they are good for them at all ages. Ask your druggist for Baby's Own Tablets or send 25 cents to the Dr. Williams Medicine Co., Brockville, Ont., and get them by mail.

Produce Prices.

DeWitt Bros. have been getting most of the potatoes. The correct prices paid here this week are as follows:—

- Hay, loose, \$6.00.
- Oats, 30c.
- Buckwheat, 40c.
- Buckwheat Meal, \$2.00
- Butter in tubs, .19c.
- Butter in pound prints, .20c.
- Eggs, .18.
- Beans, yellow eye, \$1.75.
- Potatoes, .70c.

On Saturday C. E. Hayward shipped two carloads of sheep and lambs from this station to Houlton. There were something over four hundred head in all and the farmers were paid something like \$1300.00 for them.

Dr. MacIntosh was off on another hunting trip last week. Merton McKenzie of Glassville was his guide and they brought back a moose weighing something between 600 and 700 pounds with a spread of antlers of about 40 inches.

The new time table of the C. P. R. is bound to be dissatisfactory to the people along the line. It will not be possible for passengers from the north to go to Woodstock and return the same day. There will be only two regular trains each way a day—the morning freight and the express up and the freight and express down in the afternoon. Unless some change is made there will beyond doubt be much dissatisfaction among the upriver patrons of the line.
