BABY'S DANGER.

A mother cannot watch her little ones too carefully during the hot weather. Dysentery, diarrhoea, cholera infantum, and disorders of the stomach are alarmingly frequent during the summer months, and unless the mother has at hand an efficient remedy to check and cure the trouble a little life may go almost before you realize the case is serious. At the first sign of any of these ailments the wise mother will give her little one Baby's Own Tablets, which promptly cure all hot weather ailments. Mrs. John Lancaster, North Portal, N. W. T. says: "My baby was attacked with diarrhoea and vomiting. I at once gave Baby's Own Tablets and the next day she was as well as ever. I am never without the Tablets in the house as I find they are the only medicine a little one needs." Other wise mothers will follow Mrs. Lancaster's example and keep the Tablets always at hand—their prompt use may save a little life. Sold by all medicine dealers or sent by mail at 25 cents a box by writing the Dr. Williams' Medicine Co., Brockville, Ont.
