## Florenceville.

On the morning of April 3rd the angel of death stole softly into the home of Rev. D. Fiske, Florenceville, N. B., and carried to the bosom of his God the youngest of the flock. For a few weeks Cosmo had been ill. A chill while out playing with the rest brought on rheumatism, but though this did not seem serious at first, it later touched his heart, until physician's skill and mother's loving care availed not. In the dawning of the morning, the little life, so bright so beautiful passed from its mother's arms into the arms of Him who loves and cares for the lambs of the fold. The father was absent from the home, far away in Providence Bay, Manitoulin Island, where he labours faithfully as a missionary, while the eldest brother, Kenneth, was in Fredericton a student at the Provincial Normal school. The remains were taken to Fredericton and buried in the family plot. Much sympathy is felt for the family, the mother, three brothers, one sister, at home, the father and eldest brother at present away. ## SPRING ADVICE.

Do not Dose with Purgatives and Weakening Medicines--What People Need at this Season is a Tonic.

Not exactly sick—but not feeling quite well. That's the spring feeling. You are easily tired, appetite variable, sometimes headaches and a feeling of depression. Or perhaps pimples and eruptions appear on the face, or you have twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order, that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble. Don't dose yourself with purgative medicines in the hope you can put the blood right. Purgatives gallop through the system, and weaken instead of giving strength. What you do need is a tonic medicine that will make new, rich, red blood, build up the weakened nerves and thus give you new health and strength. And one medicine to do this speedily and surely is Dr. Williams' Pink Pills. Every dose of this medicine makes new, rich blood which makes weak, easily tried and ailing men and women feel bright, active and strong. If you need a medicine this spring try Dr. Williams' Pink Pills and you will never regret it. This medicine has cured thousands in every part of the world and what it has done for others it can easily do for you.

Medicine dealers everywhere sell these pills or you can get them direct from the Dr. Williams Medicine Co., Brockville, Ont., at 50 cents a box or six boxes for \$2.50.

"Alf" as he was familiarly called by all was a great favourite and his place cannot soon be filled. ## W. F. DIBBLEE & SON,

WOODSTOCK AND CENTREVILLE.

The last issue of the Sentinel has in its advertising columns the startling information "The Magnet Wins," and then goes on to relate a "circumstance" which had happened out at Bloomfield, but did not give the prominent farmer's name, which makes it very evident that his statements are, at least in some respects, false. Now, we only know of one case which could possibly have given any foundation for the Magnet advertisement, and that was at the place of Havelock Black, and to prove that one more of the Magnet advertisement falsehoods has been added to their already large list, read the following:

Woodstock, March 26, 1906.

This is to certify that I used a Sharples Cream Separator for some time which was left at my place, and it gave entire satisfaction, but having PROMISED to purchase a Separator from John McDougall last fall I did so, but not because I found anything wrong with the Tubular.

Was he sick? He may have been sick of the Magnet, but he is an honorable man and had to keep his word. He also had a Magnet in all last fall or first part of the winter, which was taken out for not skimming clean, and while we did not sell Mr. Black a machine, we feel a greater respect for him than if he had bought from us when he had made a promise to another agent. We would not have interfered had we known he had promised, but we set the machine in when he was away from home, and are not very sorry we did so, for during the time since we have been able to sell three (3) of Mr. Black's brothers a Sharples Tubular each, and we think the good showing made by the Tubular against the Magnet had no small amount of influence in helping us to make the sales. We will be pleased to enter all such tests that will have a similar ending. We got three settlements to Mr. McDougall's one.

In the same issue the insinuation is made that 1000 Sharples Separators were not sold by the Sharples Company this year. But their maritime agent would be pleased to show any doubter the signed order copies which will prove the same. Five N. B. agents have bought over a carload each and the sale is all we could ask. Buy the "cheap tubular machines" which, by the way, are manufactured in Toronto, Canada, for it will perfectly satisfy you during the rest of your life. The Toronto factory is turning out 60 machines a day and are several weeks behind in their orders.
