## Editor Scott's Future.

When the announcement was made in the New Freeman of the sale of the Sun newspaper to B. F. Pearson, of Halifax, it intimated that the new owner had invited S. D. Scott to remain in the position of editor; and the opinion was then expressed that Mr. Scott would not accept the invitation. The writer is now in a position to state positively that Mr. Scott has notified the new owner of the Sun that he desires to be relieved from his present position within the next few weeks. For twenty years Mr. Scott has been editor in chief of the Sun newspaper, and during that time he has given to the Conservative party tireless industry, abilities that placed him in the foremost ranks of Canadian journalism, and a fairness towards political opponents that too many newspaper men lack, but which made Mr. Scott more powerful than the unfair writer can ever hope to be. While Mr. Scott has received many tempting suggestions with respect to the future, he has not definitely decided as to his future location. One thing he has decided upon, and that is that he will leave this city where he has spent so many active and valuable years of his life. He will probably go to Ottawa early in the parliamentary session next month, and will represent in the gallery a few of the influential papers of the dominion as well as, perhaps, some outside papers. After the session of parliament he will probably make a tour of the dominion, at least the western part of it, in order the better to judge which of the offers that he has received he should accept.

## A Rhyme of Long Ago.

To a hen said Henry Ward Beecher,

You are such a beautiful creature!

The hen, just for that,

Laid an egg in his hat,

And thus did the hen reward Beecher.

## SUFFERING WOMEN

Find Health and Strength in the Use of Dr. Williams' Pink Pills.

Every growing girl and every woman nearing middle life suffers from ailment peculiar to her sex. At these times the health and happiness of every girl and woman depend upon the richness and regularity of her blood.

Look at the young girl whose blood is weak and watery. Her face is pale, her lips and gums bloodless. Her head aches and her back aches. She has no energy, no life, a poor appetite and no desire for exercise. She complains that even to walk upstairs leaves her breathless. And the woman in middle life—she is nervous, irritable and depressed liable to sudden attacks of pain and distress that only a woman knows of. She turns from food; horrible dizziness, hot and cold flashes, make her life miserable. But Dr. Williams' Pink Pills banish all this misery, because they fill the veins with rich, strong, healthy blood which gives tone and strength to every delicate organ. The case of Mrs. Geo. Danby, of Tilbury, Ont., is one of the many that proves that no medicine can compare with Dr. Williams' Pills in curing the ill of woman-kind. Mrs. Danby says: "I think Dr. Williams' Pink Pills are a blessing to suffering women. For a long time I was a great sufferer from the ailments that affect so many of my sex. I was extremely nervous at all times, suffered a great deal with headaches and indigestion. In fact I was in a thoroughly miserable condition when I began the use of Dr. Williams' Pink Pills, but after taking them a short time I began to improve, and, through their further use, I am now feeling like a new woman. I am sure if all sick women would take Dr. Williams' Pink Pills they would be convinced of the great good they can do."

Dr. Williams' Pink Pills can make every ailing girl and suffering woman in the land strong and healthy if they are given a fair trial. But great care must be taken to see that you get the genuine pills with the full name, Dr. Williams' Pink Pills for Pale People, on the wrapper around each box. Sold by medicine dealers everywhere or sent by mail at 50c a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

## MARRIED.

SMITH-TOMPKINS.—At the Methodist parsonage, Florenceville, N. B., on February 14th, by Rev. J. Benson Young, Walter Alden Smith, and Miss Hattie Lena Tompkins, both of Summerfield, Carleton County.

The executive committee of the New Brunswick Teachers' Association have presented to the Lieut governor and Council a petition asking for legislation covering the following points:—

1st Compulsory Education.

2nd Abolition of Local Licenses and the cessation as soon as practicable, of the further issuance of licenses of the third class.

3rd Establishment of Parish School Boards and a provision that the rate of assessment for school purposes shall be not less than one half of one per cent of the assessable valuation of the parish.

4th Increase of the Country Fund for schools from \$30 to \$40.

5th A gradual increase of the Provincial Grant to 1st and 2nd class teachers after two years of service of 10 per cent per annum until a maximum is reached of

\$350 for Principals of Superior schools

200 do 1st class males

160 do 2nd do do

150 do 1st do females

120 do 2nd do do

6th The legislature to set the minimum salaries that may be paid to teachers by Local School Boards.

7th A system of pensions for teachers who have been long in the service.

The petition will probably be brought before the house for discussion.

The future of our country depends to a large degree on the efficiency of our school teachers, and it is an unfortunate fact that they are very poorly paid for very excellent work. Salaries are so low in the profession that the supply is considerably less than the demand, and many schools in the province are closed and probably a certain number always will be until teachers are given something like a fair day's pay for a good day's work.

## Go Quietly.

When the middle-aged lawyer of whom the Washington Post tells was a young man he had a position in the office of a man who has a great reputation for ability and integrity.

Naturally the young man felt his responsibility. It was so plain to him that the head of the firm had outlived his usefulness, and the youngster used to feel sorry to think what would happen to his employer if he ever left him.

The young man was not treated in that office with all the deference he thought due him, and one day, when somebody went too far, he entered his employer's private office and unburdened his mind.

Sheer magnanimity made him overlook a lot of things, but he did not neglect to say that he would not endure such treatment another day. He was going to leave, and at once. Then he paused to give the head of the firm a chance to apologize and beg him not to ruin him by leaving.

His employer did not look up from his desk. He simply said to the young man in a polite tone:

"Please don't slam the door when you go out."

## United States Silver.

The Finance Department has at last completed arrangements with the Canadian banks for depositing United States silver.

Under the arrangement the banks must ship fifty cent pieces and quarters in bags of \$1000 each and ten cent pieces in bags of \$500 each. THE DISPATCH is informed by local bankers that it would take so long a time for them to accumulate so large an amount of any one denomination that the arrangement will not be of much use to them unless all the banks in town pool their receipts of silver. A few weeks ago one of the local banks deposited \$800 of United States silver of all denominations at its own expense. Under the new arrangement with the government when a bank deposits silver the government pays the express charges, gives them an equal sum of Canadian silver and pays them a commission on the transportation of three-eighths of one per cent.

## In Farm and Factory.

According to statistics submitted to the tariff commission, there are in Canada over 1,000,000 people engaged in agricultural, as compared with 344,000 in manufacturing industries. The capital invested in agriculture is estimated at \$1,760,000,000 as against \$447,000,000 in manufacturing. These figures afford a striking demonstration of the basis of Canada's prosperity and development.
