HEALTH AND BEAUTY

Come from the Rich, Red Blood made by Dr. Williams' Pink Pills.

Beauty is more than skin deep—it is blood deep. There is no real beauty, no good health without rich red blood. Every graceful curve, every sparkle of the eye, every rosy blush, comes from rich, red blood. Dr. Williams' Pink Pills are the greatest blood builder and beauty maker in the world. Every dose actually makes new, pure, rich blood. By making new blood Dr. Williams' Pink Pills sharpen the appetite, soothe the worried nerves, regulate the health. They banish paleness, clear the complexion, bring rosy cheeks and sparkling eyes. They give plenty of strong blood for all the delicate functions of womanhood. Miss Mary Jackson, Normandale, Ont., says: "For upwards of three years I suffered from anaemia. I grew so weak I could scarcely walk about the house. I had no color in my face, my lips and gums were bloodless, I suffered from headaches and dizziness, and fell away in weight until I weighed only 94 pounds. No treatment gave me the least benefit until I began the use of Dr. Williams' Pink Pills. Inside of a few weeks after beginning the pills I began to grow better, and they soon restored my health, and while using them I gained fourteen pounds in weight. I can strongly recommend Dr. Williams' Pink Pills to all pale and feeble girls."

There are thousands of pale anaemic girls and women throughout Canada who should follow the example of Miss Jackson and give Dr. Williams' Pink Pills a fair trial. Bright eyes, rosy cheeks and perfect health would soon follow. When you buy the pills see that the full name, "Dr. Williams' Pink Pills for Pale People," is printed on the wrapper around each box. Sold by medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

CALVES AND BABY BEEF

Baby beef is the highly finished product that sells for the highest figure because the muscles, tendons and tissues are not hardened by age and use.

It is tender and juicy, like a sappy, young tree. It costs, on the average, about 3c to make 1 lb. of gain at one year, and about 7c. at two years, and so on, because the digestive powers are more energetic in younger than in older stock.

There should be no let up in feeding the 365 days of the year.

Clydesdale Stock Food

can be fed with the greatest benefit to calves, especially with Separator Milk, as it takes the place of the extracted butter fats.

It prevents "scours," therefore, there is no "let up" in growth. It has the bone and muscle producing ingredients that helps to build a frame on which to put the tender flesh quickly, and, at a profit.

Nothing injurious in it, and can stop feeding it without harmful effects. Human beings can take it with benefit. We take it every day.

Your money cheerfully refunded by the dealer if any Clydesdale Preparations do not give satisfaction.
