

Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE Chemists Toronto, Ont. 50 cents and \$1.00 All druggists

Some Whiskey Legislation in the Legislature.

Last Wednesday in the legislature Hon. Mr. Tweedie introduced a bill in further amendment of the liquor license act. He said the bill was the result of a conference between the government and the delegation of the temperance men. The attention of the government has been called by them to the fact that the express companies have been carrying liquors c. o. d. into Scott Act counties where cases were opened and bottles taken out, thus practically making them vendors. The government has been asked to deal with this matter and it has done so in this bill.

The first section declares that it shall be unlawful for any person holding either a wholesale or retail license to send liquor for any person in the county, city, or town in which the Canada Temperance Act is in force or into any locality where the sale of liquor is prohibited where such licensed person has reason to believe that the person to whom the liquor is sent is engaged in the sale of liquor and upon the board of license commissioners being satisfied that the offence has been committed the license of the person so offending shall be cancelled.

The second section provides that it shall be unlawful for any person holding a license to send liquor through the agency of any express company for any person in the county, city or town in which the Canada Temperance Act is in force or where the sale of liquor is prohibited to be paid for on delivery and on any licensee so offending his license shall be cancelled.

The third section provides an additional penalty of not less than \$40 or more than \$100 against any persons guilty of an offence under the preceding sections and a similar penalty against the manager or agent of any express company carrying liquor to be paid for on delivery into any county in which the Canada Temperance Act is in force.

This bill seems to meet the views that have been presented to us by the temperance people. I furnished A. A. Stockton, their legal adviser, with a copy of the bill and he has written to me to express his satisfaction with it and has made some suggestions which will be considered when the bill is in committee.

With regard to the attitude of the government on the temperance question there should be no doubt, yet I see a report in the papers that a clergyman recently in a public address stated that the government was standing in with the liquor men and that the premier was working hand in hand with them. Now the members of the house know that this statement is wholly unwarranted. Wherever it has been shown to this government that any parish or district in a county, not under the Canada Temperance Act, was ready for prohibition, we have given it to

them and Beresford and some other parishes have taken advantage of this enactment.

Some three or four years a large delegation came to us with a petition said to be signed by 10,000 persons and asked us for a general prohibitory law. This was during the meeting of the legislature. We pointed out to them that the time was inopportune as the house was in session and there was no opportunity of giving due consideration to the question, but that when the session was over we would deal with it. We did deal with it and declined to pass prohibition, because we felt that in a province where nine counties were under the Canada Temperance Act and that act was not preventing the sale of liquor, a general prohibitory liquor law would not be likely to be effective.

The government are desirous of placing this province on the highest moral plane and while it is easy to say that such an act should be passed, we must deal with the question of this kind in a logical way. Our experience is that while the Canada Temperance Act prevents the sale of liquor in the country districts, it is not a success in cities and towns. We cannot shut our eyes to this fact and are not to be driven into a position which is illogical and from which no good can result. The government is not working with any party in this question and if we should pass a prohibitory liquor law it will only be when there is some hope of its success.

Gleaned From the Agricultural Report.

In Carleton County we raised 64,173 bushels of wheat the third largest amount raised by any county in the province, Kent standing first with 83,631 bushels and Westmorland second with 73,452. But Carleton had the largest production per acre of any county except Charlotte, which just equalled it, namely 22.6 bushel per acre. Kent while raising the largest amount of wheat had a yield of only 17 bushels per acre.

In the matter of oats Carleton put all the other counties in the shade, raising 1,378,023 bushels over a quarter of the whole quantity raised in the province. The second county in the production of oats was York, which raised less than half the amount produced in Carleton, namely, 606,062. The yield per acre in Carleton was 31.1 bushel per acre, which was second only to that in Charlotte County, where it was 32.8.

Carleton was second in quantity of barley and the yield per acre was larger than that in any other county.

Carleton raised the largest amount of buckwheat, 203,165 bushels, but here the yield was only 20 bushels per acre while in Charlotte it was 23 bushels.

The potato crop in Carleton was 641,919 bushels the third largest amount produced in any county in the province both Kent and Gloucester producing slightly larger quantities. The yield in Carleton was 154.4 bushel per acre, Westmorland alone beating it with 167.5.

The dairy business has been declining in Carleton steadily for some years. Our production of creamery butter and cheese from 1901, for example, has been as follows:—

	BUTTER.	CHEESE.
1901.....	294,297	124,229
1902.....	177,225	72,721
1903.....	167,035	81,216
1904.....	102,238	56,151
1905.....	66,197	37,280

As our output of dairy products have decreased the prices have steadily increased. Last year the average price of butter manufactured in the province was 21.84 cents and of cheese 10.61 cents.

We Give You

one full sized 25c. package of Celery King free of cost with each purchase of Solution of Ozone (the coupon kind). We do this because Ozone is a slightly astringent preparation and requires to be accompanied by a laxative tonic to produce the best results—the results that make the cure of germ diseases a certainty—germ diseases such as Malaria, Eczema, Rheumatism, Kidney Troubles, and all stomach troubles. We also give you nearly twice as much Ozone for your money as you would obtain were you to purchase any other make, so always ask for Ozone (the coupon kind), otherwise you will not receive a free package of Celery King because we alone have the right to give away Celery King with Ozone.

THE PUBLIC DRUG CO., BRIDGEBURG, ONT.

How She Keeps Young.

She eats three warm meals a day at regular hours.

She sleeps eight hours, and as often as possible two of them before midnight.

She takes fifteen quiet minutes in a darkened room after luncheon.

She begins each day with a cold bath, followed by a glass of cold or hot water.

She is careful to spend at least half an hour every day in the open air.

She never rides where she can walk the distance comfortably.

She doesn't waste her vitality in superfluous and energetic talking.

She is neither self-centered nor family-centered, but has a few fresh outside interests to keep her "alive" and thoughtful.

She never lets herself moan over the past nor worry about the future, but makes the best of the present and keeps sweet and cheerful.

"Maple Leaf Rubbers" are made of pure Para rubber, are wet-proof, neat, perfect-fitting and lasting.

Every rubber has a Maple Leaf branded on the sole, and this brand is our guarantee that the rubber is perfect in every way.

Insist on your dealer giving you

"Maple Leaf Rubbers"

Made for every purpose and to fit every shape and style of ladies', men's and children's shoes.

AS A WORKING TOOL

for the student and the writer, as an authoritative reference book for schools, teachers, families, business and professional men, there is one book which offers superior advantages in the solid value of its information, and the ease with which it is obtained.

One's admiration for Webster's International Dictionary increases daily as it comes to be better known. It never refuses the information sought and it never overwhelms one with a mass of misinformation illogically arranged.

The St. James Gazette of London, England, says: For the teacher, the pupil, the student and the litterateur, there is nothing better: it covers everything.

The New and Enlarged Edition recently issued has 25,000 new words and phrases, a revised Biographical Dictionary and a revised Gazetteer of the World, 2350 pages and 5000 illustrations.

Our name is on the copyright page of all authentic dictionaries of the Webster series.

FREE—"A Test in Pronunciation," instructive and entertaining for the whole family. Also illustrated pamphlet.

G. & C. MERRIAM CO., PUBLISHERS, SPRINGFIELD, MASS.

NOTICE.

The annual meeting of the shareholders of "THE TOBIQUE MANUFACTURING COMPANY, LIMITED," will be held at the office of the Secretary in the Town of Woodstock on Wednesday, the fourteenth day of March, next at the hour of two of the clock in the afternoon, for the election of Directors of the Company, and for the transaction of such other business as may come before the meeting.

Dated the twenty fourth day of February, A. D. 1906.

A. B. CONNELL, Secretary.

Feb. 28-31.

"The Best Picture I Ever Had Taken."

Is a remark made daily in our studio by those receiving photos.

It does not matter whether you ever "took a good picture" or not. Try us.

If we fail to please you it will cost you nothing. But our guarantee of satisfaction insures that you will be pleased.

Carleton County Seed Fair a Success.

The fourth annual seed fair under the auspices of the Carleton County Agricultural Society, held in the Opera House, Monday and Tuesday, Feb. 26th and 27th. Prizes in the seed competition were awarded as follows:

Ernest Hale, wheat, red life, 2nd; oats, any white variety, 1st; peas, 3rd; beans, 3rd; buckwheat, 1st.

Byron Bull, wheat, red life, 1st; beans, 1st; beans, 1st; corn, 1st.

Allan Bull, barley, 2nd.

Donald Innis, wheat, white Russian, 1st; barley, 2nd; two rowed, 1st; oats, white, 3rd; oats, black, 1st; peas, 1st.

C. P. Bull, apples, 1st, on wealthy, famous golden russett, peewaukee, Scotts, winter.

Judson Briggs, 2nd in Russian oats, black oats, peas and white Russian wheat. In apples, 1st in Gano Ben Davis, McIntosh red, and 1st in green mountain potatoes.

T. A. Thomas, oats, black, 3rd; oats, Russian 3rd; potatoes, green mountain, 2nd.

Alex. Brown, potatoes, early northern, 1st beans, 2nd.

A. Davidson, oats, white, 2nd.

The quality of the exhibits was all that could be expected but owing to the difficulty in getting them up the long flight of stairs in the Opera House many were kept at home and an effort should be made another year to have the show held on the ground floor in some building.

Classes on grain judging and weed seed identification were conducted by L. H. Newman, of the Canadian Seed Growers Association, Ottawa, and F. W. Broderick, of the seed branch, Truro. The classes were fairly well attended and much interest was taken in the grain scoring which was a new feature of the show. These classes will be continued, it is hoped, next year as it is very important that the value of good seed be brought more forcibly to the attention of the farmers.

Mr. Newman gave an address in the afternoon on purity of seed and uniformity of samples and Mr. Broderick's topic was the damage done by weeds. N. S. Dow, secretary of the seed society, made an efficient chairman.

Agricultural Politics.

A young farmer who had been elected to a Western state legislature, and instructed to follow the lead of the state central committee of his party, was recently taken to task by some of his constituents for voting against a "party" measure.

"My friends," he replied, "when I was a boy one of our neighbors got a new hired man—a chap from the city. One day he took him out to a pasture lot and set him to turning the sod under.

"You start in here," he said "and plow right to that old red cow."

"Then he went off about his work. Toward noon he came back to see how the fellow was getting along, and he found he had plowed a rambling furrow all over the field, and was still at it.

"Here!" he shouted. "What do you mean by that sort of work?"

"Why," said the man, "you told me to plow to the red cow, and I've been plowing toward her all morning, but she keeps walking all over the field."

"Now I'll admit, gentlemen, that you told me to plow to the red cow, but I should like to have you, as farmers, compare my furrows with that cow's trail."

Drs. Dickinson and Gibson's New Hospital.

The Aroostook Times contains a long and interesting description of a private hospital just completed in Houlton by Drs. Dickinson and Gibson, two Carleton County men who have been very successful in Houlton. The building is 28 x 56 ft and three stories high, with a large and airy basement with a cement floor.

Taken as a whole the building could not well be improved upon and Dr. Dickinson may justly feel an honest pride in the building as he, without assistance from an architect other than consultations with the carpenters, designed the building, drew the plans, made all specifications and received the bids and placed the contract for the building. There are, at present, seven cases of typhoid fever and three surgical cases in the wards. All the patients are in good condition and are comfortable in every respect.

Many so-called Webster Vest Pocket Dictionaries have been put upon the market, but until now there has been no authentic dictionary of this class, abridged directly from "Webster's International." Such a vest pocket manual has just been issued, entitled "Webster's Little Gem Dictionary." It is scholarly and strictly reliable, being the best, most concise, and most complete of its kind. The main vocabulary includes by actual count more words than are found in any other pronouncing dictionary of its scope, although some books make exorbitant claims to the contrary. The "Little Gem" also contains a very full and up-to-date Gazetteer of the World, many valuable tables and lists, and also twelve pages of colored maps, seldom published in a book of this size. It is just the guide you need to answer the many questions with accuracy. All copies are supplied with the marginal index and will be sent postpaid on receipt of price. Dark Green Cloth, 25c; Imitation Leather, 40c; Full Leather 50c; G. & C. Merriam Co., Publishers, Springfield, Mass. Get the best.
