More Fresh Air and Sunshine and less medicine, the leading Doctors say, especially for the baby.

Few farmers, lumbermen and out-door workers have weak lungs or are sickly. Its the indoor workers or their children that are going to the Sanitariums, etc. This idea is all right but they begin at the wrong time, too late. Begin with the baby and give it a chance to build up a strong body. Get it out in the sunshine and fresh air which will benefit its mother too. Small folders are very cheap and convenient. The larger ones are very nice and can be fitted with Parasol. We also have a very fine line of upholstered Go-Carts and Carriages latest improvements and prices right.
