All I wish to say is that the statement is false in every particular. I never sold those men or any person else any liquor that day. Thanking you for your space, I remain Yours respectfully

Teeth-Retaining Combs.

It's not always the finest finished combs that have the wearing qualities. Fine workmanship adds to the cost, but does not add strength to poor material which is often used even for combs designed to be high grade.

When we select combs we pay as much attention to the strength of material as we do to finish; therefore the combs found in our stock are as good or better than they look. No matter what you pay you'll get a comb that will retain its teeth if used as combs should be used. All prices from 5c to 75c.
