SUFFERING WOMAN

Need Just the Rich Red Blood Dr. Williams' Pink Pills Actually Make.

From girlhood to middle life the health and happiness of every woman depends upon her blood. If her blood is poor and watery she becomes weak, languid, pale and nervous. If her blood supply is irregular she suffers from head aches and back aches, and unspeakable distress which only women know. At every stage of woman's life Dr. Williams' Pink Pills are her best friend, because they actually make the rich, red blood which gives help and strength and tone to every organ of the body. They help a woman just when nature makes the greatest demand upon her blood supply. Mrs. H. Gagon, who for twenty years has been one of the best known residents of St. Roche, Que., says: "Dr. Williams' Pink Pills have been a blessing to me. I was weak, worn out and scarcely able to drag myself about. I suffered from headaches and dizziness, my appetite was poor, and to attempt housework left me utterly worn out. I slept badly at night, and what sleep I got did not refresh me. For nearly three years I was in this condition, and was constantly taking medicine, but found no benefit from it. One of my neighbours who had used Dr. Williams' Pink Pills with much benefit, advised me to try them. I did so, and the whole story is told in the words 'I am well again.' There are times yet when I take the pills for they seem to me a guarantee against the troubles from which so many women suffer."

Dr. Williams' Pink Pills don't act on the bowels. They contain just the elements that actually make new blood and strength the nerves. That's why they cure anaemia, indigestion, neuralgia, rheumatism, lumbago, headaches, backaches and heart palpitation, and skin diseases like pimples and eczema. That is why they are the greatest help in the world for growing girls who need new blood and for women who are troubled with irregular health. Sold by all medicine dealers or by mail from The Dr. Williams' Medicine Co., Brockville, Ont., at 50cts. a box or six boxes for \$2 50.
