Canon Richardson of St. John Elected Coadjutor Bishop.

FREDERICTON, N. B., Oct. 3.—At 2.30 o'clock this morning, after the synod had been in session for twelve hours, Canon Richardson was elected co-adjutor bishop of the diocese of Fredericton. A decision was not reached until the eleventh ballot had been cast when thirty-five clergy and forty-five laity, making a total of seventy-seven, voted for the rector of Trinity church, St. John, and seventeen clergy and thirteen laity, numbering thirty in all, recorded their ballots for the archdeacon of Woodstock.

When the result was made known there was an outburst of applause in which a number of ladies, who were present joined. As soon as quiet was restored Archdeacon Neales extended his hearty congratulations to Canon Richardson and requested the members of the synod to make the vote unanimous.

Judge Hanington, having spoken appreciatively of Archdeacon Neales' action the members of the synod rose and by a standing vote made the election unanimous. The doxology was then sung.

A Lazy Poet.

(From the London 'Chronicle.')

Laziness does not always confer the long life claimed for it by Dr. Herbert Snow. Of proverbial laziness was Thomson, the poet, drowsing away the greater part of his life in his garden at Richmond, listening to nightingales, writing the interminable poems that everybody now admires and nobody reads. There he could often be seen standing eating the peaches off the trees, 'with his hands in his pockets.' Such an instance of indolence would be hard to beat and should, one would think have added at least ten years to his life. But Thomson died at 48.

Advertisements of apartment houses, or flats, in New York announce that 'magnificent housekeeping suites of eleven or twelve rooms and three baths' may be had for from thirty two hundred and fifty to six thousand dollars a year. This is enough in many parts of the country to buy a pretty good little farm with buildings. Those who have had the space and freedom of the farm would not be content in such a suite of rooms. It is too much like living in a box of pigeonholes.

SAVED BABY'S LIFE.

There are thousands of mothers throughout Canada who have no hesitation in saying that the good health enjoyed by their little ones is entirely due to the judicious use of Baby's Own Tablets. And there are many mothers who do not hesitate to say that at critical periods the Tablets have saved a baby's life. Mrs. Wm. Fortin, St. Genevieve, Que., says: "I feel sure that Baby's Own Tablets saved my baby's life. When I first began giving them to him he was so badly constipated that the bowels could only be moved by injection, and he suffered terribly. After the first day I saw a marked change, and in less than a week the trouble was entirely removed, and he has since enjoyed the best of health." You can get Baby's Own Tablets from your druggist or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

So intricate is the mechanism of the modern piano that only an expert can properly understand it. The average person therefore buys a piano on faith, that is, they rely on their faith in the word of the dealer and the reputation of the piano. There are two reasons why you should buy your piano from me. FIRST,—I am always here to stand back of every statement I make about a piano. SECOND,—I have control for this district for some of the best pianos on the market
