## Without Counting.

Archbishop Temple was noted for his mathematical ability. A peculiarity of his power, not in computation or analysis, but in the ability to see a definite number of objects without actually counting them, in the ordinary sense, is mentioned in Mr. Sandford's memoirs of the archbishop.

Everybody sees three objects, not as one, and one, and one, but as three; most people can see four; some see five, and even six. Many of those who think they simply see six would discover, if they observed the process carefully, that they really make a quick count. But Doctor Temple certainly saw higher numbers. I tested him quite suddenly more than once. "How many sheep in that field?"

Instantly came the answer, "Nine." Once he saw thirteen. I think these were birds flying in a group. It was the same process with him to see nine or ten volumes in a book-shelf as it was with me to see even five. Given time, without counting, he saw large numbers.

## Such Culture.

The cable despatches dwelt lovingly on the young Queen of Spain's nerve displayed in the calm interest she took in a bull fight on the last day of the wedding celebrations.

It is customary at bull-fights in Spain to blindfold several old horses and permit the bulls to tear them to pieces—merely that the bulls may be made more ferocious by their easy victories and the smell of blood.

One of these old horses was ripped into bloody fragments and tossed about the arena on the horns of the maddened bull, "right in front of the Royal box that contained the young Queen"—and yet her Majesty "displayed no emotion!"

Charming! How proud her grandmother—Queen Victoria of Great Britain—would have been to read this description!

Think of the womanly qualities the young Queen must possess!

A girl of eighteen beholds a helpless old horse torn to pieces within a few yards of her—and displays "no emotion!"

Superb!—Winnipeg Tribune.

## Her Namesake.

When Mrs. Lombard heard that the baby of her former cook had been named for her, she bought a suitable rattle with many jingling bells, and went to see her namesake.

"Why Bridget," she said to the late Miss Leahy, now Mrs. O'Sullivan, "I thought you said the baby was named for me. My name is Hannah, and you are calling the baby 'Celestine.'"

"'Celestine L.,' ma'am," said Mrs. O'Sullivan, hastily. "'The 'L' is for Lombard, and 'Celestine' is just a kind of a name to describe you ma'am. There ain't anny 'Hannah' to your looks, Mrs. Lombard; anny wan would tell you that."

## Cherry Ice.

Crush in a mortar a quart of tart cherries, with a handful of the stones cracked. Add two cupfuls of cold water and squeeze hard in a stout bag. To this liquid add the strained juice of a lemon and two cupfuls of granulated sugar. When the sugar has dissolved freeze the mixture.

## Pineapple Ice.

Peel one large pineapple, extract the eyes and cut out bits. Put into a bowl and strew over it two cups of sugar. Let all stand for an hour before stirring in the juice of a large lemon. Squeeze and strain out all the syrup; mix with it two cups of cold water and freeze.

## SUMMER FAG.

Dr. Williams' Pink Pills the Best Tonic for Summer.

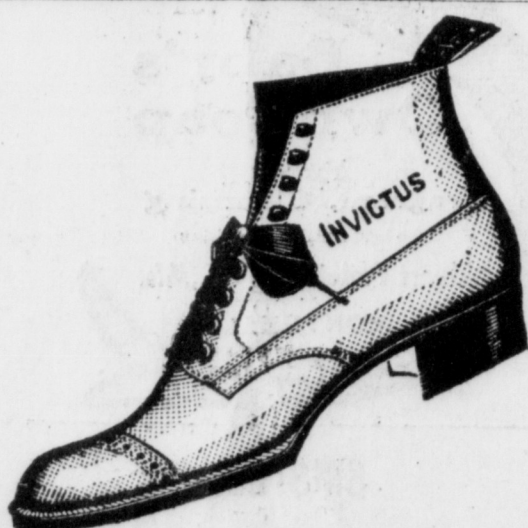

The long hot summer thins the blood, and leaves you weary, worn and wretched. Nothing can cure that summer fag except Dr. Williams' Pink Pills—because they actually make new blood and thus strengthen every organ and every tissue in the body. Every dose fills you with new strength, new energy, new life. Purgative pills only weaken you more. Common tonics only stimulate for the moment. But Dr. Williams' Pink Pills actually make new blood, and nothing but good, pure rich red blood can brace you to stand the summer. That is why you should take Dr. Williams' Pink Pills now. Mr. W. J. Norfolk, White Horse, Yukon Territory, says: "I am thirty-nine years of age and have been an athlete who scarcely knew the meaning of illness. Last year, however, my health gave way. I became nervous, did not sleep well and grew as weak as a kitten. It seemed as though I was completely worn out. I tried several so-called tonics, but it was only a waste of money, for they did me no good. Finally I began using Dr. Williams' Pink Pills, and they put me on my feet again, and gave me new health and strength."

Every weak and easily tired man and woman will find new health, new strength and new energy through a fair use of Dr. Williams' Pink Pills. They cure all blood and nerve diseases like anaemia, nervous exhaustion, headaches and backaches, indigestion, neuralgia, rheumatism and the special ailments that afflict most growing girls and women of mature years. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Co., Brockville, Ont.

## A Vitally Stricken City.

San Francisco, through its official representatives, is petitioning the President to recommend to Congress the loan of \$10,000,000 to the Red Cross Society for the purpose of rebuilding the homes of the workmen of the afflicted city. The request is further made that measures be taken to enable the city to sell at par \$12,000,000 worth of bonds authorized to be issued by a vote of the citizens immediately before the disaster. The terms of the petition bring vividly before the mind the position of extraordinary difficulty in which the city is placed. The loss is stated at \$350,000,000, the insurance at \$175,000,000. The settlement of claims, however, will be slow, as no claim can be adjusted until the amount of loss is determined, and until that is settled reconstruction cannot begin. The commercial and savings banks are in good condition, but the former cannot loan on real estate security, and the latter can only carry on their ordinary business on a limited scale for the present. Owing to constitutional limitations the State cannot come effectually to the city's assistance. The city is constitutionally debarred from selling its securities at less than par, and it is feared that in the present state of affairs the bonds would not bring par. The city must, as soon as possible to get a vote of the citizens, float a further loan for \$40,000,000 to reconstruct public buildings and rehabilitate the sewerage system. The inhabitants are reduced in number from 500,000 to 300,000. Of this number 40,000 are living in tents and 100,000 are quartered in neighboring towns.

The people of San Francisco have shown a brave front in the presence of this terrible calamity, but between the lines of this petition may be read the poignant cry of the stricken city. It is easy to talk of a greater and more stable San Francisco, but it is evident that the first consideration is the procuring of speedy shelter for the homeless and immediate places of business for the merchants.—Toronto Globes.
