

Most Lonely Monarch in Europe.

It has generally been an accepted fact that the principal trait in the character of the Sultan of Turkey is cowardice. As a youth he was courageous to recklessness, and if he now suspects all those who come near him it is only because the lonely life he leads, often speaking to no one but those who bring him food for days together, has made him dread his own shadow.

No monarch in Europe works harder than he, for he rises at four in the morning, winter and summer, and goes in his white-tiled bathroom for his bath, after which he sips a cup of coffee brewed by the *cafedji-bachi*, or chief coffee-maker, and then, with a cigarette between his lips he goes straight to his desk. He works till mid-day, when he adjourns for prayers; then more coffee and an entree, an hour's siesta, and work again till dinner, which is served at four in the afternoon. During these hours he signs some hundreds of documents, for, in addition to governing affairs at home, he is practically his own foreign minister.

The Sultan is chiefly afraid of the darkness and it costs him dearly every night to have his bedroom guarded. Two generals take the long watch every night outside the door, and receive \$200 apiece for it; beneath them is a colonel who is paid \$150 a night, and a guard receiving smaller amounts. All they have to do to earn their princely salaries is to tramp up and down the corridor with their eyes on the beautiful satinwood door inlaid with mother-of-pearl which took an expert two years to inlay.

The few hours' leisure the Sultan takes every day is spent in various ways. He is passionately fond of revolver-shooting, and it is doubtful if there is a better shot with this weapon in Europe. Then Abdul Hamid is very fond of animals. He has over 200 horses in his stable; one of them, a magnificent cream Arab, was the gift of the Czar. He has, too, an aviary in which he spends much time, and a number of deer which he frequently has brought to his apartments.

The Sultan is very fond of music and likes to play the piano, though he possesses but poor talent as a musician. The Sultan reads a great deal but his taste in literature is curious. He will never read anything but fiction, and fiction of the most sensational order. He loves French literature, and has read the novels of Gaboriau several times, and he prefers to read to himself rather than be read to. In spite of his love for fiction he has found time to learn to speak five languages perfectly since he came to the throne; for as a youth he never imagined that he would become Sultan and so did not study. It was only after he had declined the crown several times that he allowed himself to be invested with the Sword of Osman when his brother's lunacy had been proved. He has always hated sovereignty, but as a ruler he is headstrong and courageous and a master of diplomacy.

A Daring Distribution

The undersigned Druggist at the earnest solicitation of the Ferrol Co., Limited, of Toronto, has made a thorough and searching investigation into the merits of FERROL, and of the methods of that Company, and he finds that: Every cure claimed by the Company is absolutely genuine; that FERROL is manufactured from the best quality of Munn's Celebrated Cod Liver Oil (the whole of the oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorous, it is so scientifically prepared, that not one in a thousand finds any trouble in taking it; that the medicine has accomplished the most amazing results in its own city; that its sales in the Home City have been phenomenal; that it is endorsed by all druggists without hesitation or qualification; that it is, in short, all the Company claims for FERROL, and more.

The more I investigated the more enthusiastic I became. It is no longer a question of my willingness to handle the preparation—FERROL—but how can I bring it to the immediate suffering of this city?

It is a heavy responsibility, but I have faith in the honesty and fairness of the Ferrol Company, Limited, of Toronto, and the unequalled merits of their preparation, FERROL.

(Signed) **EDGAR W. MAIR**

I find also that the druggists in other cities have taken upon themselves the solemn responsibility of standing behind this medicine; and that these druggists have made in each city a daring and remarkable distribution of full-sized bottles.

Impressed by the action of our fellow-druggists, and convinced that they would not have given this remedy such unqualified approval without positive knowledge of its merits, I have decided to follow their example and distribute free of charge

100 Large Bottles of FERROL Free to the Sick on SATURDAY, Nov. 10th. EDGAR W. MAIR, Druggist, Cor. Main and King Sts., Woodstock, N. B.

Maintaining a first-class Drug Store, the above named Druggist occupies a commanding position in the retail drug trade of this city, and almost every remedy that is offered to the public seeks an outlet through his store. But with an eye single to the interests of his many patrons he is careful to handle the most reliable preparations. Consequently when a medicine is recommended and endorsed by this Druggist, that medicine must have merit.

The above Druggist, after a rigid investigation, described elsewhere in this announcement, has decided to make, upon his own responsibility, the most remarkable distribution of medicine ever attempted in this city. Convinced by personal experience of the extraordinary merits of

FERROL

He has purchased from the Ferrol Co., Limited, of Toronto, a large number of bottles of this remedy, for free distribution, and he hereby invites every person suffering from any form of blood trouble; any person who is run down, discouraged and in need of a powerful tonic; any person suffering from Coughs, Colds, Bronchitis, Croup and all Bronchial or Lung Trouble, Chronic Rheumatism, Neuralgia, Insomnia, Loss of Weight and all wasting diseases; any person who has sought relief in any other remedy or Cod Liver Oil preparation, and failed to find it, cut out the certificate printed herewith, fill out the blank lines, present it at the store on the dates given, and get a bottle of this wonderful preparation, FERROL, Free.

It was necessary for me to purchase a large quantity in order to have the privilege of making this free distribution, and the responsibility assumed by me in this matter, I am positive will be appreciated by the public, and the immense sales that are sure to follow will more than compensate me for the expenditure involved.

There is absolutely no sentiment in this endorsement of FERROL. It is merely a business recognition of a preparation that possesses positive merit, and a keen desire on the part of a progressive concern to always supply the best goods at the lowest possible price.

No other distribution will be made, and it will be necessary for you to come early in order to be sure of securing a large size bottle of FERROL ABSOLUTELY FREE

REMEMBER, only ONE bottle will be given to each family. Tell your friends of this Wonderful Offer for fear they will not see this advertisement.

FERROL WHAT IT IS AND WHY YOU SHOULD TAKE IT

THE FERROL CO., LIMITED
CITY

May 24th, 1906

GENTLEMEN,

The bottle of FERROL I secured from you, I have found to do great good. My son used it for a bad cold, and it cured him. I know it to be an excellent remedy for a bad cold and for building a person up after sickness. I might say that it was a prominent doctor friend of mine in the city, who used it for his son, and spoke to me of it. I have since recommended it to a great many of my friends to try.

Yours truly,
J. B. TINSING
T. R. AD'Z

WHAT FERROL DOES—A careful perusal of the foregoing will readily suggest to the reader what FERROL does.
It builds up the run down constitution as no other preparation can.
It cures Anemia, no matter how chronic, by supplying the blood with just what it requires in the only form in which impoverished blood can be so supplied.
It prevents Consumption by fortifying the constitution against its attacks.
It restores Nervous Vitality in a manner little short of marvellous.
It cures Coughs, Colds, Bronchitis and kindred diseases by building up the constitution so that the system will throw off the disease by NATURAL PROCESS—a very different thing from the usual method of treatment by administering cough medicines and other drugs which are sure to impair digestion and are always debilitating in their effects. FERROL, on the other hand, while removing the disease, at the same time INCREASES THE WEIGHT, ENRICHES THE BLOOD and improves the patient in every respect.
It assists in the development of delicate infants and children, and it is particularly valuable for boys and girls at the period of transition into manhood and womanhood, when they are so likely to outgrow their

strength and the system is rendered peculiarly susceptible to the attacks of disease.
It strengthens the muscles, tones up the nerves, improves the vitality, strengthens the action of the heart, and builds up the whole system so that the germs of disease can obtain no foothold.
It has a wonderful recuperative effect on the Brain—bringing to it in proper form Phosphorus, the Brain's chief constituent; attacks of depression and morbidness, "brain fog," etc., are dispelled—the cure is basal, constructive and complete.
WHAT IT IS NOT—It is not a "Patent Medicine"—the ingredients are freely made known, only the method of manufacture being secret.
REMEMBER—There is only one Emulsion of Cod Liver Oil, Iron and Phosphorus, and that one is FERROL.
If you feel the need of a Restorative see that you get FERROL and do not be put off with something "just as good"—there is nothing half so good—nothing "just the same." *Protect yourself!*
Cod Liver Oil, Iron and Phosphorus are not new remedial agents; for ages their merits have been known and recognized, and for many years physicians have indulged the hope that some day a satisfactory combination of these remedies would be perfected and the full

benefit of their life-giving properties made available.
In "FERROL" that hope has at last been fully realized, and the practical benefits resulting from its use have far exceeded the most sanguine expectations.
These agents are combined in a scientifically prepared Emulsion so palatable that even a nursing infant can and will take it readily, even greedily; so easily assimilated that the most delicate digestive organs will dispose of it with less difficulty than they would experience in the digestion of the plainest food.
WHAT IT IS—FERROL, as its name implies, is composed mainly of Oil and Iron—it is, in short, a PERFECT EMULSION of COD LIVER OIL AND IRON, with a medium of Phosphorus added, and is positively the only preparation combining these ingredients.
The apparently extravagant claim that it has no equal in its peculiar sphere is based on the following common sense reasons:
It combines in palatable form Cod Liver Oil, the greatest tissue-builder and flesh-producer known to medical science, with Iron, the one and only agent which will supply impoverished Blood with the red corpuscles which it must have in order to insure a healthy condition. Phosphorus, which has no equal as a Nervetonic.
