BABY'S FRIEND.

Happiness is a sign of health in babies. Nearly all their troubles vanish when they digest food well and are free from teething pains. Baby's Own Tablets bring happiness to babies by curing stomach troubles, constipation, feverishness, diarrhoea and teething troubles. There's a smile in every dose, and the mother has a solemn guarantee that this medicine contains no opiate or harmful drug. Mrs. James Jewers, Beaver Harbor, N. S., says: "I have given my baby Baby's Own Tablets as occasion required since she was a day old. They have always helped her, and now at a year and a half old she is a fine healthy child. I think every mother should always keep these Tablets on hand." You can get Baby's Own Tablets from any medicine dealer or by mail at 25 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

"Yes," said the other; "that reminds me: I've got to buy some quinine."

"How does that remind you?"

"Oh, just the bad taste."
