

NEWS FROM THE COUNTY.

WOODSTOCK, N. B., DEC. 5, 1906.

Hartland.

The funeral took place here on Sunday November 25th of Daniel Birmingham, son of Rainsford Birmingham, who died in Calgary on November 16th. Daniel Birmingham, who was 23 years of age last February, had been ill for some time of tuberculosis and he left on October 1st for Calgary to stay with his brother F. Holland Birmingham, in hope that the change of air would be of benefit to his health. From Calgary he went out on a ranch with an old school friend, Willie Dickinson, but he became ill there and returned to the city and entered a hospital under the care of Dr. Estey. He gradually failed until he died on November 16th. A few days before his death he discussed his funeral arrangements with his brother and chose his pall bearers. His brother F. Holland Birmingham arrived with the body on Saturday after a journey of seven days and a half, and the funeral was held on Sunday. The services at the residence and grave were conducted by the Rev. M. Steeves. The pall bearers were Frank Aiton, Frank Day, Roy Cameron, Bertram Rideout, Robert Aiton and David Aiton. The bereaved family have the sincere sympathy of the community.

Florenceville.

During the recent high gales here while Howard Taylor was driving the empty school van, about in front of the Baptist church in East Florenceville, the wind caught the van and turned it over and over, horses and all, down the bank and almost into the river. The driver saved himself by jumping from his seat. The wind was so strong that even had the van been full of children it is a question if their weight would have prevented it from overturning, for the wind was so high at the time that the roofs were carried off a number of barns in the vicinity.

The New Tariff.

The new Canadian customs tariff is introduced by the Hon. W. S. Fielding in the house last Thursday along with his financial statement.

It is to be a three column tariff comprising "general tariff," "intermediate tariff," and "British preferential tariff."

The general tariff is applicable to all foreign countries and to British colonies and possessions not entitled to the benefit of the British preferential tariff.

The intermediate tariff for the present will not apply to any country. The government intend treating it as a standing offer for other countries to enter into negotiations for reciprocal concessions in trade. The British preferential applies to Great Britain and the British colonies and possessions to which it has hitherto been applied.

The flat rate of one-third reduction under the British preference has been abandoned and a separate preferential rate is established for each item in the tariff.

On the whole the preference in favor of British goods slightly exceeds that of one-third reduction from the general tariff. In some cases it is less and in some more, in some instances it was thought advisable in the interests of Canadian industries or of the revenue to give a lower preference than one-third. In a number of cases a preference is granted to Great Britain by placing a small duty against foreign countries on articles formerly free and retaining them on the free list when importing them from Britain. In other cases the ratio of preference is increased by an advance in the general tariff.

In establishing the new preferential tariff rates, an effort has been made to divert trade from foreign countries to Great Britain, particularly articles of metals.

The intermediate tariff rates are about ten per cent less than the general tariff rates—that is a general tariff rate of 25 per cent while the intermediate is 22½.

The surtax against Germany is continued and is in addition to the general tariff.

The dumping clause is also retained and

made applicable to free as with dutiable goods not made in Canada.

The changes in the general tariff rates are not numerous and in only a few instances has the maximum general tariff rate been increased over 35 per cent.

In regard to a mutual preference, Mr. Fielding, in effect, said that is Britain's business, not ours.

The anti-combine law has been strengthened and made more easily put in operation.

In regard to the financial statement Mr. Fielding showed that there was over a surplus of \$12,000,000 for the past current fiscal year and that for the nine months of the current fiscal period on which we were working the revenue, he predicted, will be about \$65,000,000 and the expenditure \$52,000,000, leaving a surplus of \$13,000,000. When all expenditures, capital and otherwise, are pro-

vided for there will be a surplus of \$1,500,000 to be deducted from the public dept.

The duty on agricultural implements has been decreased from 20 per cent to 17½, and on windmills from 25 to 20 per cent. The steel and iron bounties have been extended.
