A serious accident occurred near the village Monday morning by which Mr. Fred White, of Centreville, was seriously injured. He was driving a span of horses and stopped at a watering trough between here and Bristol. In the carriage with him were a lady and gentleman. After watering his team, when he attempted to start them up, they began to back. The lady and gentleman jumped out but Mr. White stuck to his post. The horses backed clear over the bank which at that point is very steep. Mr. White was very badly injured and was carried to the office of the nearest physician. The wagon was smashed to splinters and the horses did not escape without some injury.

Cabano, Quebec.

Not having seen any news from the "Lake City" for a long time I will try and write some to let the readers of THE DISPATCH know that we are still here doing business at the same old stand.

The intense heat of the past few weeks apparently has passed and we are now enjoying most perfect weather. The summer has brought us an unusually large number of summer visitors, in fact far in excess of previous seasons.

Year by year people are becoming more interested in Lake Temiscouata and better acquainted with its beauty and comfort as a summer resort. Cabano especially has many and varied attractions for either the health or pleasure seeker;—good hunting, perfect fishing and ideal boating and bathing.

Among those who have spent their vacation here this summer have been quite a number of prominent Woodstock people.

D. Fraser & Sons large mills here are doing a rushing business this summer; about two hundred and eighty men being employed around the mills alone. The shingle mill has been running night and day all summer.

They have put in three new tracks the whole length of their yard and are filling in and raising their yard level about eight feet. The three new sidings put in have a combined length of nearly a mile and will greatly facilitate the work of loading. Wages have been exceptionally good here this summer and there has been no scarcity of men, but good men can always secure work at any time and once here they generally stay. This company's motto has always been "Canadian mills for Canadian workmen," and their policy "good pay and fair usage" to their employees, and as a result they have been able to secure and hold a large crew of steady, quiet and industrious workmen.

The engine of the regular lumber train left the mills at St. Louis on Saturday forenoon delaying No. 3 mixed southbound and No. 4 northbound each about four hours.

Miss Mary Morgan, of Providence, R. I., who has been visiting her friend Mrs. Jas. Coker has gone to Kincardine to spend the rest of her vacation, Mrs. Coker and son, Douglas, accompanying her.

The Rev. Mr. Scott, of Toronto, who has been the guest of Mr. Archie Fraser for the past few weeks has gone down to the "Colony" accompanied by Mr. Donald Fraser, sr.

Mrs. J. Ansley Rogers and baby are visiting relatives in Woodstock and Bangor.

Mrs. V. P. Jackson and children are visiting children in their former home in Woodstock and vicinity.

Mr. Jas. Boyd has returned from a trip to his home at Stanley, N. B.

Mr. Harry Boyd, cashier for D. Fraser & Sons, has resigned his position and accepted another in McLeod, Alberta, also as a benedict.

Mrs. Archie Fraser and Miss Dunbar made a flying trip to Woodstock Friday returning Saturday and bringing Master Fraser with them.

Miss Aggie Ringette who has been spending a few weeks at her home, Metis, returned Saturday to spend the next few months with her sister, Mrs. A. Mann.

Mrs. St. George Gray is spending a few days at Riviere du Loup Point.

Mrs. A. W. Brebner is visiting at her former home Kincardine. Mr. Brebner is also away for a few days.

Mrs. McNeil and baby, of St. John, are visiting the form's sister, Mrs. John Cowie.

Mr. Walter Shaw was in town Friday in the interest of The Baird Company. Walter seems to do a good business here.

Trout are biting well this last few days, and the small boy and a three pound trout are making frequent connections. If you are a fisherman or the son or daughter of a fisherman, lay aside your work or cares of business and come to Cabano for a few days of sport, and such sport as you never even dreamed of unless you have fished on "Beautiful Temiscouata" Lake.

The Water Works Company are pushing their work along rapidly and expect to have connections with most of the houses in town by the last of September.

A building activity at Tsingtau, China, is reported by a German writer, who says that in 1905 there were erected 28 new European residences, 26 other houses, 2 mercantile buildings (including a soap factory and 3 steam kilns), 12 new godawan (warehouses) and 11 Chinese residential and business houses.
