Semple guessed what was in the cake. In the sports F. C. Squires cleared 5 feet 9 inches in the running high jump. In the pole vault Mr. Marr jumped 10 feet 3 inches. Mr. Mesgher, Inspector of schools, was present at the meeting and explained to the ratepayers the requirements of the Board of Education in regard to superior schools. Many of the ratepayers think that the present school house is too valuable a building to throw away altogether as would have to be done in case of building a new one, unless a new site was obtained, in which case the old building and the land on which it stands could be sold for some three or four hundred dollars.

Fit-Reform

Originators = Perfecters

Fit Reform originated hand-tailored garments, completely finished, in Canada. The Fit-Reform idea is the most widely copied tailoring innovation ever launched on the continent. That is why men should be on their guard and make sure that they get genuine Fit-Reform garments in a Fit-Reform Wardrobe. There is one here.

Fit-Reform not only originated, but perfected, these matchless garments. To-day, there are no Suits and Overcoats in the Dominion to compare with them. The specialized tailoring—the matchless workmanship—the exclusive styles—the inimitable quality of the cloths—put Fit-Reform garments in a class by themselves. New fall styles are ready.

Every genuine Fit-Reform garment has the Fit-Reform label, with price attached. Look for it—always.
