"THE INVICTUS,"

and have just opened out several lines for Ladies and Gentlemen in the most popular leather of to-day—Patent and Gun Metal Calf. Call and examine them.

WALLACE GIBSON,

Corner Main and Queen Streets,
Woodstock, N. B.

The Rate Payers of Wellington Ward Ask for Better School Facilities.

At the town council last Friday evening a delegation of rate payers from Wellington ward was heard.

J. T. A. Dibblee said the ratepayers of Wellington ward had a grievance against the school trustees. The council was elected by the people and he appealed to them to remedy the grievance. The school trustees advertised for tenders to build an annex to the Broadway school. They had now decided not to build the annex. A carpenter told him that the reason no tenders were received was that no plans had been furnished for the work. The Broadway school was overcrowded. In Mrs. Dakin's and Miss Mulherrin's rooms there were enrollments of sixty-five each. He suggested that the council instruct the school trustees to call a special meeting and again advertise for tenders. If the annex is not built, the Sloyd school will be done away with, for the school trustees have notified the owner of the building where the Sloyd school now is that it will not be needed in future, and the owner has rented the building. One trustee had told him that the Sloyd school was no good, but, unfortunately that man had no children; the ratepayers think the Sloyd school is an excellent institution. We should have better accommodation in the Broadway school, but the trustees think we can get along without the annex for another year. We are all willing to pay our taxes for keeping up the schools in a first class manner. If the children in Broadway school were divided in as many rooms as the children in the college building there would be no grievance. There was some talk of the ratepayers of Wellington ward holding an indignation meeting, and they would do so unless the trustees gave them a hearing, removed their grievance and built the annex.

John S. Eagles also addressed the board on the same subject.

On motion of Coun. Fields, seconded by Coun. Fisher, the clerk was asked to request the board of school trustees to call a special meeting so that school matters could be discussed with the ratepayers of Wellington ward.

On motion, W. B. Nicholson was appointed school trustee in room of W. Duppa Smith, whose term will expire June 30.

The Fire Ranger.

The Canadian fire ranger goes into the woods the first of May and stays till the first of October. Two men are always sent together as partners—usually a young man and one of middle age. Their duties are: First, to locate and "run" the boundary-lines of the domain, blazing the way on trees and opening trails, then they must "travel" the tract once so often, placing on conspicuous trees along the trails and portages the government signs, printed on linen, warning against the reckless building of fires and containing the definite rules to be observed. They are supposed to keep watch of camping parties and people journeying through the tract, to see that these rules are not transgressed. In dry weather, every part of the limit must be visited within a certain number of days. When the weather is wet, the duties are not arduous, for at such times the forest will take care of itself. Millions of dollars, by means of this supervision of forests have been saved to the Dominion of Canada, and to the individual owners of its vast stretches of timber. To the lover of nature, traveling through the "silent places," the fire-rangers' camp, or shack, is always a haven of welcome, for the lonely watchman of the forest never fails to bid you share the shelter of his roof and partake with him of his wholesome fare.

Soda Put to Good Uses.

A little observation has taught me that few housekeepers appreciate soda as they should. They use it for baking, and do not consider the many other instances when its use would be economy. Its cheapness no one will gainsay, particularly when bought in large quantities, says a writer in the New England "Homestead."

If keep a jar of it where it is accessible for dishwashing. A pinch in the water makes the dishes glisten and does away with the greasy formation on the pan.

Sometimes the kettles are stick or burned and loom up as a disagreeable task, but a little soda and hot water left in them works wonders. Nothing scours tins brighter and a wonderful transformation is wrought by rubbing silver in everyday use with a damp cloth dipped in soda, then polishing with a chamois skin. It is a useful agent when cleaning a smoky ceiling. Dissolve some in the water, but be cautious that the solution is not too strong or the paint will be injured. I have often used it for removing the disagreeable little spatters which we so often find on the window glass after the sash has been newly painted.

It has also a prominent place in the medicine chest, and a teaspoonful of it in half a glass of water is the first remedy tried for a disturbed stomach. When I spilled a cup of hot tea over my hand I quickly covered it with a paste of dampened soda and was soon relieved. It also proved a panacea for baby

when he was heated or suffered from a rash. A little was dissolved in the water used to bathe him.

Used in cooking it often saves time, fuel and flour. We all know how long it is necessary to cook string beans in order that they may be palatable, and sometimes we forego the pleasure of having them rather than have so much fire. Now, a generous pinch of soda put in the water in which the beans are to be boiled will render them perfectly tender in an hour's time and not injure their flavor in the least. The same is true of boiled onions, beets, green peas or other vegetables which have become too mature.

Soda will save sugar. Did you ever make a pieplant pie or stew plums, cranberries, etc., when you could hardly tell which ingredient was used most lavishly, the fruit or the sugar? No doubt your conscience troubled you as the sugar barrel lowered, but what were you to do? Just this: use a half teaspoonful of soda to every quart of fruit before the sugar is added and you will find that half the quantity will suffice.

WHAT WOMEN SUFFER.

At All Ages They Need the Rich, Red Blood That Dr. Williams' Pink Pills Actually Make.

A woman needs medicine more than a man. Her organism is more complex, her system more delicate. Her Health is disturbed regularly in the course of nature. If anything happens to interfere with that natural course she goes through unspeakable suffering. In fact the health of every function and the health of every moment in a woman's life depend upon the richness and regularity of her blood supply. That is the simple scientific reason why Dr. Williams' Pink Pills are worth their weight in gold to women of all ages from early girlhood up—they actually make the rich red blood all women need.

Mrs. Edwin Ward, Brookside, Ont., says: "For years I suffered from those ailments that make the lives of so many of my sex miserable. I would take weak spells and become so nervous that I could not go about. My stomach was out of order, and I frequently vomited the food I took. Headaches and backaches afflicted me nearly all the time. Then I took a severe cold which settled on my lungs, and I went to the hospital for treatment. I had the best of care, but the doctors gave me little hope of recovery. My face and limbs became swollen and my system racked with a harsh dry cough. As the doctors did not look hopefully upon my case I decided to try Dr. Williams' Pink Pills. By the time I had taken half a dozen boxes there was a great change for the better. I still continued to take the pills until I had used thirteen boxes, and I am now enjoying perfect health. I have no hesitation in saying that I believe Dr. Williams' Pink Pills saved my life."

Dr. Williams' Pink Pills cured Mrs. Ward by actually making the new blood her system needed. That is all Dr. Williams' Pink Pills do, but they do it well. They don't act on the bowels. They don't bother with mere symptoms. They go straight to the root of the trouble in the blood. That is why they cure all blood and nerve troubles like anaemia, female irregularities, indigestion, rheumatism, headaches and backaches, sciatica, nervous prostration and St. Vitus dance. Substitutes and imitations won't cure, purging medicines only make you worse, therefore you must get the genuine pills with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

County Council Meeting.

The regular June Meeting of the County Council of the Municipality of Carleton will be held at the Court House on Tuesday the Nineteenth Day of June next at 10 o'clock in the forenoon.

Dated the First Day of June, A. D. 1906.

J. C. HARTLEY, Secretary-Treasurer.

Tablets,
Foot Stones,
Head Stones,
Family Monuments.

We make every everything in this line of work, in either Black, Red or Grey Granite or White or Blue Marble.

We buy in car load lots for spot cash and our prices can't be beaten. Our materials and workmanship are the best and we guarantee satisfaction.

Those wishing to buy anything in this line would do well to call and examine the work we have in stock and ask for prices; or if they will write to the firm, Mr. Gallagher will be pleased to call on them with samples of materials, designs, and quote prices.

J. GALLAGHER & SON,
MONUMENT WORKS,
WOODSTOCK.

The Up-Town Store.

We do not claim

That we sell

The only goods on earth.

But we positively guarantee

That

You cannot buy poor goods

At the Up-Town Store.

THE GEO. W. GIBSON CO.,
LIMITED,

Clothiers, Furnishers and
High Class Tailors.

Mail orders receive prompt and careful attention.
