MUST BE SOLD AT ONCE.

C. HUMPHREY TAYLOR, Prop.

#### Ira Stanley Segee.

Many friends were grieved to learn of the death of Ira S. Segee, which occurred early Wednesday morning, February 13th, at the Massachusetts Homeopathic hospital, Boston. Mr. Segee had been ill only a short time, having been removed to the hospital the day before, and the news of his death comes as a very sad surprise to all who knew him. At the time of his death he was in the employ of A. M. Robbins, the well known hardware dealer, and was well and favorably known. Besides a host of relatives and friends he is survived by his parents, he being the only child.

The cause of Mr. Segee's death was diagnosed as purpura hemorrhagica (purples), a rare disease, being the first case ever treated at the Homeopathic hospital. It began with inflammatory rheumatism. Mr. Segee was a native of Woodstock, N. B., and was in his twenty-second year. He had lived in Cambridge nearly 20 years, graduating from Webster school in 1902. He was a member of Ernest lodge, Good Templars, of Arlington, and was the first chief templar of University lodge of this city. He was a member of the Y. M. C. A., and librarian of Grace M. E. Sunday school.—Cambridge Chronicle.

[Mr. Segee's father is William Segee and his mother's maiden name was Miss Tilley Chalmers.]

#### Chinese Famine Fund.

An effort is being made among the churches in Woodstock to raise money for the famine sufferers in China.

The Christian Herald of New York is responsible for the statement that "from 40,000 to 60,000 square miles of territory in China is affected by a famine. The population which is more or less affected by the total or partial failure of crops is estimated at something like 10,000,000. At the same time it is not presumed that anything like this number will be actually starving or will require outside relief; nevertheless it is certain a very large number will require regular relief continued for months if they are to be kept alive."

The same paper quotes the following from a missionary in the stricken district: "One case was of a woman travelling with her baby a year old. Weakened by her long journey and lack of food she fell an easy prey to the fever and died by the side of the road, clasping tightly her little child. For two days the little living child was left in its dead mother's arms. Who on that road, with hunger and fever driving them on, could stop to heed even the cry of a helpless baby."

It is to relieve this condition of affairs that the ladies of the Woodstock churches will solicit subscriptions which will be given to the mayor to be forwarded to the scene of the famine. The purpose to collect funds was announced in some of the churches on Sunday and already \$105 has been subscribed.

#### Fleming, Smith, Munro.

At a conservative convention held in the opera house on Saturday afternoon J. K. Fleming, M. P. P., B. Frank Smith, M. P. P., and Donald Munro, Mayor of Woodstock, were nominated as candidates for the legislature in the coming election.

George E. Balmain was elected chairman and John P. Malaney, secretary.

Addresses were made by the candidates and Messrs. J. D. Hazen, Grimmer, Morrissey, Morrison, A. B. Connell, J. R. Tompkins and others.

#### SAVED BABY'S LIFE.

There are many mothers throughout Canada who do not hesitate to say that Baby's Own Tablets have saved the lives of their little ones. One of these is Mrs. John Shortill, Georgetown, Ont, who says:—"I have no hesitation in saying that I believe that Baby's Own Tablets saved my little girl's life. From the time my little girl was three months old she cried all the time with indigestion. She was frail and puny; her food did her no good, and I was literally worn out taking care of her. The doctor treated her for some time, and finally told us he could do no more for her, and we did not expect she would get better. It was then I learned of Baby's Own Tablets and decided to try them. Before I had given her a box of the Tablets there was a great improvement. Her digestion was much improved, and her bowels, which had been terribly constipated, moved regularly. From that time she began to thrive splendidly, and is now as healthy a child as you could wish to see. We are now never without a box of the tablets in the house. Baby's Own Tablets will promptly cure all the minor ailments of babies and young children, and the mother has the guarantee of a Government analyst that this medicine contains no opiate or harmful drug. Sold by all medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

#### Governor Snowball Drops Dead.

The Hon. Jabez Bunting Snowball, Lieutenant-Governor of the province, dropped dead at 6.55 on Sunday evening in Fredericton while on his way from the Queen Hotel to the Cathedral to attend service.

His honor had not been in the best of health for some time past, but up to the last he was able to attend to his official and social duties. During the week he attended the forestry convention, and at each and every session was a prominent participant. At the reception on Thursday evening Governor Snowball, with the members of the government, received the guests at the parliament building and had a happy greeting for every one. Saturday evening his honor gave the usual weekly state dinner at the Queen Hotel, and those who were present speak of the governor as being in the best of spirits and a most genial host. He seemed apparently in excellent health. Sunday morning he rose at the usual hour and after breakfast walked to the morning service at the Methodist church. In the afternoon he rested quietly in his room at the Queen Hotel. About a quarter to seven in the evening, accompanied by his faithful attendant, Fred McKenzie, he started from the hotel to the cathedral, walking down Queen street, and as was his custom, at a brisk walk. When he had just reached Dibbles corner, the corner just above the cathedral, he turned and said that he thought he had walked too rapidly and was not feeling very well and that he had better return home.

He did not live to reach the hotel but died by the road before Dr. Atherton, who had been summoned, reached him.

Governor Snowball was sworn into office on the fifth of February, 1902, so his term had expired this month. He is the fourth governor who has died in office since confederation, the others being Chandler, Boyd and Fraser. A brother of the governor, Judge Snowball, died a little over a year ago, and a sister, Mrs. F. P. Thompson, wife of Senator Thompson, only a few months ago. Of the governor's three sons, two are in Chatham, while the third McDougall, resides in Pasadena, Cal., where Miss Laura Snowball, the governor's daughter, is now on a visit. Mrs. J. L. Black, of Sackville, is the only surviving sister of the deceased.

Hon. J. B. Snowball was born in Lunenburg, N. S., on Sept. 25th, 1837, his father being the Rev. John Snowball, Methodist minister. When quite young his family moved to Newfoundland, where they remained for eleven years. J. B. Snowball was educated at Mt. Allison, where he graduated, and in the meantime his father was transferred to Chatham. He commenced his career in business in the fifties, entering into partnership with John McDougall, of Chatham, in a general store business which the firm continued, adding a lumber business, which assumed most important proportions. This grew so that J. B. Snowball was known as one of the largest lumber operators in New Brunswick, second only to Alex. Gibson. Some four years ago this business was formed into a joint stock company composed of J. B. Snowball and his sons. In addition to the lumber Mr. Snowball was engaged largely in railway enterprises and built the Chatham branch of the I. C. R. In 1874 he entered politics when he was defeated by Hon. Peter Mitchell. In 1878 he turned the tables, defeating Mr. Mitchell and sat in the Commons from that date to 1882, when he retired. In May 1891, Mr. Snowball was called to the Senate and remained in that chamber until appointed Governor in 1902.

The deceased was twice married, his first wife being the daughter of John McDougall, of Chatham, and his second, who survives, Maggie Ellen, daughter of Rev. Robert Archibald, of Scotland. By his first wife deceased had two sons, William B. of Chatham, and McDougall, of Pasadena. By the second wife one son, Archibald, of Chatham, and four daughters, Frances, Laura, Lillian and Annie, the youngest daughter dying last year. The remains were taken to Chatham for burial.

#### MARRIED.

CURRIE-WILLIAMS.—At the residence of Wm. V. Benn, Elmwood, Debec, February 26th, by Rev. H. Harrison, Robert E. Currie, of Richmond Corner, to Grace B. Williams, of Elmwood.

CLUFF.—At Bloomfield, on the 14th instant, Miss Sidney Cluff, aged 89 years.

Butter Paper for sale at this office.

#### Forestry Convention.

The New Brunswick Forestry Convention called by Premier Tweedie was held in the Assembly Chamber of the parliament buildings Fredericton, last Wednesday and Thursday. The Premier who occupied the chair read a paper in which he gave a brief and interesting history of the lumber trade in New Brunswick. About two hundred years ago he said timber for ship spars were exported from this province to France. The next trade developed was in pine timber, great quantities of which in the early part of the last century was exported to Great Britain. He quoted figures to show the extent of this trade, and pointed out that the quantity exported from the Miramichi in the early days was greater than that exported from St. John. The great fire which devastated the Miramichi in 1825 caused a decline in the trade.

The premier also gave a brief history of the spruce deal trade, which he was able to show had steadily increased year by year, while the trade in the pine timber had practically been wiped out. He showed that New Brunswick now has 27,177 square miles of forest lands, from which the revenue last year was \$240,000 exclusive of the returns from the sale of game and fish licenses. Careless cutting had destroyed the pine timber trade, and the premier hoped that no such mistake would be made by lumbermen of the present day in regard to spruce and hemlock.

The premier continuing, referred to the public domain act of last session, and hoped that it would be freely discussed at the convention. So far, the act had not been the subject of very much criticism and he entertained great hopes that it would result in lasting benefit to the province.

Mr. J. D. Hazen, M. P. P. made a forceful address in which he heartily concurred in the object of the convention and the efforts of the Government to preserve and improve the public domain.

Among those present were Elihu Stewart of Ottawa, President of the Canadian Forestry Convention; H. M. Price of Quebec, Vice-Pres. of the Canadian Forestry Association, Prof. Carey of Harvard University; the late Gov. Snowball, Ex-Gov. McClellan, members of the Government, speaker Robinson and a large representation of the lumbermen of New Brunswick.

As a result of the Convention a New Brunswick Forestry Association will be formed. A committee was appointed to draft a constitution and by laws.

Resolutions were passed urging the civic and municipal authorities of the province to adopt a systematic policy of planting ornamental trees.

Urging the government to encourage the planting of shade trees along the different roads throughout the province according to directions given by the public works department. The movement of planting trees on school grounds, which has been in force for many years, but has produced but few results was strongly sanctioned by the Convention as a means calculated to secure the interest of the people.

Urging the passing of legislation compelling all railroads to have their lines that run through forest lands to have such lines patrolled twice a day in the dry season.

Urging the appointment of one or more officials with the title of Inspector of Scalers to visit the scene of all lumbering operations on crown lands to see that the scalers are doing their duty and to report if the method of cutting is wasteful or not.

Urging the setting apart by the government of a part of the public domain as a forest reservation.

The following resolution moved by W. B. Snowball was carried unanimously:

Whereas there is not at present any institution in our province providing a forestry course, and

Whereas practical men are required, trained in theoretical and practical knowledge, to conserve our forest wealth.

Therefore resolved that this convention recommend the government to assist the university of New Brunswick to provide such a course as outlined by Chancellor Jones, and also that the government provide forestry instructors to give short courses throughout the province of say 90 days in each district, on the same principle as the dairy school instructors.

The following resolution was carried by a vote of 28 to 4.

Inasmuch as this convention is called to devise methods of conserving our forest for posterity, so as to be a source of income for all time to come, and whereas at the present time large quantities of logs and pulpwood are being exported to foreign countries for manufacture there instead of within the province, which practice is destructive to the forest, and without due compensation to the population.

Therefore resolved that in the opinion of this convention the export of saw logs and pulpwood should be prohibited.

Bitter Oranges for Marmalade at H. G. NOBLE'S.
