People want a Varnish Stain that will stain and varnish furniture and woodwork without covering up or obscuring the grain of the wood. In these days of pigment varnish stains, which are in reality varnish paints, it is worth while to remember that Campbell's Varnish Stains give a beautiful color and varnish effect without obscuring the handsome grain of natural woods. IN our last issue we recorded the death of Julia M. Hartley at Missoula, Mont. The paragraph contained a serious misprint. The name should have read Julius M. Hartley. THE Misses Gallagher's Millinery Opening April 4, 5, 6, promises to excel all previous seasons. This spring's display of headwear is the most complete and most delightful yet exhibited. Some exceedingly fetching styles for 1907. In the first place let it be clearly understood that this year the ladies are going to be treated to an almost complete change in shapes and trimming models. It does not necessarily mean there will be innovations simply for the sake of having something radically new, but each and every model seems to have the merit of comeliness, a really attractive effect, becoming every person upon whom they have been demonstrated.
