

Royal Bank of Canada.

Some important changes in the administration and arrangement of this bank have been announced. They were agreed to at the annual meeting, held in Halifax last week. The authorized capital is now \$10,000,000, and the paid capital is to be increased from \$4,000,000 to \$5,000,000 before the end of the year; the head office will be transferred to Montreal before very long. The removal of the head office of the Royal Bank from Halifax to Montreal does not by any means mean that the bank is deserting the Maritime Provinces. The bank is erecting handsome new buildings in St. John, Amherst, Antigonish, Lunenburg and Weymouth, and additions are being made to the Halifax office. The number of directors has been increased to twelve, including Mr. Pease, the general manager. The new board is now as follows: Messrs. T. E. Kenny, president; H. S. Holt, vice-president; T. Ritchie, W. Smith, Hon. D. Mackeen, H. G. Bauld, J. Redmond, F. W. Thompson, E. L. Pease, G. R. Crowe, D. K. Elliott, W. H. Thorne. Of the new directors Mr. Thorne is a well-known St. John merchant, Mr. G. R. Crowe is vice-president of the Northern Elevator Company of Winnipeg, and Mr. D. K. Elliott is of the R. J. Whittle Company, Ltd., Winnipeg. Some changes are also made in the staff. Messrs. C. E. Neill and F. J. Sherman are appointed assistant general managers, the first with headquarters at Montreal, while the second remains in Cuba for six or eight months of the year. Mr. Neill will retain his position as chief inspector. The chief officials of the Royal will therefore, in future, be Mr. E. L. Pease, general manager; Mr. W. B. Torrance, superintendent of branches, and Messrs. C. E. Neill and F. J. Sherman, assistant general managers.—The Monetary Times.

Dr. Oronhyatekha Dead.

A despatch from Savannah, Georgia, announces the death of Dr. Oronhyatekha, of Toronto, head of the Independent Order of Foresters, which took place there on Sunday night March 3rd.

Dr. Oronhyatekha's death was due to a complication of heart disease and diabetes. For some time he had been suffering and six weeks ago left for the southern states, hoping that a change of climate might benefit his health. His body is expected in Toronto on Wednesday. Deceased leaves two children Dr. Acland Oronhyatekha, Toronto, and Mrs. Percy Johnston, of Deseronto.

Dr. Oronhyatekha was born on the reservation of the Six Nations Indians, near Brantford, Ont., on Aug. 10, 1841. He was educated at the Industrial School there and later at the Wesleyan Academy, Wilbraham, Mass. He was noted in both institutions for his studious habits and although for his support he had to work after school hours in the academy, he always stood at the head of his class at examinations.

After teaching among his own people for a year, Oronhyatekha spent three years in Kenyon college, Ohio, and three years in Toronto University. In 1860, when the Prince of Wales visited Canada, he, as representative of the Six Nations, presented an address to his royal highness. The impression that he made on the royal party was such that he was invited to continue his studies at Oxford under Sir Henry Acland, the prince's physician.

He commenced medical practice in Brantford, Ont., but in 1875 he removed to London where he was initiated into the Independent Order of Foresters. In 1881 he was elected supreme chief ranger, an office which he held till the time of his death. In 1889 the executive offices of the Foresters were removed to Toronto and Oronhyatekha took up his residence there.

Not only was he a Forester but he was a Mason, a Good Templar and an Orangeman. He was, in 1873, a member of a deputation sent to Belfast from the Grand Orange Lodge of British America. He was also a member of the first Wimbledon team sent from Ontario in 1871. In 1863 Oronhyatekha married Miss Ellen Hill, a great granddaughter of Captain Joseph Brant, the head chief of the Mohawks. They have one son, who survives—William Acland Heywood Oronhyatekha, who was graduated M. D. from Trinity University, Toronto, in 1892, and who resides in London, Ont., and one daughter, Mrs. Percy Johnston of Deseronto.

Starting Life on the farm.

Caledonia Banner:—Country life has its drawbacks, but it has great advantages which overcome them. True, those who live in the country are "Rubes" and "farmers" and "hayseeds" to the cigarette-smokers in town, but the boast of business men in the world to-day is that they were born on a farm. Take away the surrounding evils that beset the young men or women on the threshold of life's journey in the city, and substitute the helpful influence of nature, and you fortify them for the sterner walks of life. The few things they do not know about table etiquette, and when it is proper to leave two visiting cards and when but one, they will catch onto much quicker than city boys and girls will learn properly to stoke the furnace or make good bread. No boy or girl need be ashamed of living on a farm, for if they have taken advantage of what it has offered they are well fortified for after life.

The Hon. L. J. Tweedie is Governor.

Continued from First page.

Parks, at one time a prominent merchant of St. John. There are two sons.

Hon. Clifford W. Robinson, the new member of the government, was born near Moncton, Sept. 1, 1866, and is 41 years old. He was educated in the county of Westmorland and graduated with the degree of B. A. from the University of Mt. Allison in the class of 1886. For three years after that he was engaged as bookkeeper with a Moncton firm, but gave that up to study with C. A. Steeves and his brother the late A. L. Robinson. He afterwards studied with Hannington & Wilson in St. John and was admitted an attorney in 1892 and barrister the following year. In 1892 he opened law offices in Moncton and in 1895 his fellow citizens showed their appreciation of his abilities by electing him to the town council. He filled the office of councillor for two years and in 1897 he was still further honored by being elected to the mayoralty by acclamation.

In the dominion elections of 1896 he contested the county of Westmorland with H. A. Powell, M. P., but was defeated by 15 votes. In the bye-election for the local house 1897 he was a candidate for the same constituency when he was elected by acclamation. Hon. Mr. Robinson was re-elected in the general elections of 1899 and 1903. He was twice speaker of the house, having been elected to that important position in the third assembly in 1901, and again in 1903.

Hon. Mr. Robinson married on Oct. 2, 1890, Miss Annie M. Hinson, of Borington (Eng.)

Attempts to Deceive the Ladies of Canada.

Attempts have been made by some makers of weak and adulterated package dyes to have the ladies of Canada believe that their common products are as good as the popular DIAMOND DYES for the work of home coloring.

Some agents of the crude and worthless dyes referred to, have made statements that their miserable dyes are made according to the formulas of DIAMOND DYES. All such statements are false and have resulted in loss and trouble in many homes.

The manufacturers of the celebrated DIAMOND DYES would warn the ladies of Canada to beware of such common dyes being substituted when DIAMOND DYES are asked for. All progressive merchants in Canada sell DIAMOND DYES which are the only guaranteed dyes in the world.

BORN.

TOMAS.—At Moncton, Feb. 26th, to Rev. H. E. and Mrs. Thomas, a son.

DIED.

BOHAN.—At Bath, Carleton Co., Feb. 27th, Mrs. John W. Bohan, daughter of the late Chas. Kearney, of Florenceville, leaving a husband and four children.

HOLMES.—At Augusta Me., March 1st, of pneumonia, Blanche Elizabeth, only child of Ward G. Holmes, aged three months.

John Henderson, of Upper Woodstock, left this week for Dawson City to join his father, Colby Henderson, who has been there the past year.

Miss Grace Patterson returned last week from Moncton and St. John, where she has been visiting friends.

WEAK AND WORN OUT.

Dr. Williams' Pink Pills Give New Strength to Overworked Women.

The life of a domestic is a hard one. She toils from early morning till late at night; her work is never done. Often she is too busy to get out of doors for a breath of fresh air. Unless her blood is kept rich and pure this close confinement wears on her health. Her strength will fail; she may lose her appetite, become pale and dyspeptic. In fact she is in danger of a general break-down. Such was the condition of Miss Marie Anne Fleury, of Ste. Anne de la Perade, Que., before she used Dr. Williams' Pink Pills. She says: "For a number of years I have been a servant. Up to a year ago I always enjoyed the best of health, but suddenly I was seized with pains in my side, my appetite left me, I became dyspeptic and lost all strength. I consulted a doctor who told me I was suffering from general debility. I was forced to stop work and for three months I followed the doctor's treatment, but without benefit. I was advised to try Dr. Williams' Pink Pills, and as I had often read of the cases they cured, I decided to do so. I only took eight boxes before I was cured and to-day I am stronger than ever I was. My digestion is good and I can now go about my work without fatigue. I owe a debt of gratitude to Dr. Williams' Pink Pills for what they have done for me and I strongly advise other weak sickly girls to give them a trial."

Miss Fleury's case is one of many that Dr. Williams' Pink Pills have cured after doctors' help had failed. The success of these pills lies in the fact that they strike right at the root of the trouble—the blood. Other medicines simply act on the symptoms of a trouble—and may relieve, but they do not cure. Dr. Williams' Pink Pills make new rich blood—that is why they cure dyspepsia, rheumatism, anaemia, heart palpitation, headache, backache and the ills of women; all these are caused by bad blood—Dr. Williams' Pink Pills cure them all because they make new blood. For sale at druggists or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Tom Thumb's Death.

(London Express, Feb. 9.)

Field-Marshal Tom Thumb Richard Garnsey, has just died at Wellington, the peaceful little market town in Somerset.

Born on April 20, 1832, he created a furore fifty years ago, dense crowds flocking to the Egyptian Hall and various places of amusement throughout the kingdom to see this little man of 3 feet, who was acknowledged to be the most perfectly formed dwarf in the world.

More than once he appeared before the late Queen Victoria, who evinced a great interest in his welfare.

When he left the stage he adopted farming as an occupation, proving himself a keen, busy man. During the last few years he walked with the aid of a crutch, in consequence of an accident in which his leg was broken by one of his bulls. His coffin was scarcely larger than that of a baby.

Miss Ascum—She's a brunette, isn't she?
Miss Wise—I dont know. I haven't seen her for nearly six months.—Philadelphia Press.

Let Me Sell You a Chatham Incubator—On Time

Do you know there is big money in raising poultry? Do you know there is more money in running a good incubator than in almost anything else you can do for the amount of time and trouble it takes? Do you know my incubator will pay you a bigger profit than any other thing you can have on your place?

Well, all these things are true, and I can prove it. Thousands of people all over Canada have proved it every year for the last five years.

I want to quote you a price on my Chatham Incubator—sold ON TIME. I want to send you my Chatham book. This incubator book is free—I'll send it to you for just a postal card. It tells you a lot you ought to know about the Poultry business—it tells you how to make money out of chickens—it tells you how my Chatham Incubator will make you more money than you can make with hens—far more, and with less trouble.

This book tells you how my Incubators are made—why they are the best ever invented—and why I sell them ON TIME and on a 5-Year Guarantee.

My Company has been in business in Canada for over 50 years. We are one of the largest wood-working factories in the country. We also operate a large factory at Detroit, Mich. We have the incubator and Brooder business down to a science.

Chatham Incubators and Brooders will make you money, for a Chatham Incubator will hatch a live, healthy chicken out of every fertile egg put into it, in 21 days.

Will you write for my book today? Do it now while you think of it. Just say on a postal "Please send me your Incubator Book"—that's all. Address me personally.
