A Help to Economy

Steam or Hot Water Heating will prove economical after the pipes are in. The fittings cost a little more than stoves or a furnace, but the advantage is greater. You operate a hot water system for almost nothing—it is almost no bother—it is the most perfect method.

Let us take measurements and tell you the cost.

THE GOURLAY

What Mrs. Adney thinks of the Gourlay:

"I have at various times used nearly every make of piano, and I unhesitatingly pronounce the **Gourlay** to be the best that is made today in Canada. Indeed I regard the **Gourlay** as superior in its tone and mechanism to the similar piano of the three most famous American makes."
