resilient Boarders.  
**MISS STEPHENSON, Proprietor.**  
Queen Street, Woodstock, N. B.

**Catarrh**

To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing anti-ptic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety, cream like Petrolatum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc. surely call for Dr. Shoop's Restorative. For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but

**A Dangerous Insect Enemy.**

The brown tail moth, the appearance of which in Nova Scotia has caused much alarm among fruit growers in the maritime provinces, is one of the most destructive of insect enemies. The Year Book of the United States Department of Agriculture for 1905 tells us that it attacks not only fruit trees but ornamental shrubs and even forest trees, a particular fondness having been developed by it for the foliage of the young oak.

The insect made its first appearance on this continent at Somerville, Mass., having been introduced, it is believed, in rose bushes imported from Holland. Since then it has spread over a large part of the state and has caused enormous damage. As the female flies and lays 300 eggs in a season, the rapidity with which infestation occurs will be readily understood, while the work of fighting the pest is rendered difficult by the fact that the ordinary strength of Paris green in the Bordeaux mixture is ineffective as against it. In Massachusetts it was found necessary to put in so much of Paris green that the foliage of the trees were burned, and it was on this account that arsenate of lead came into general use there.

The eggs of the insect are hatched in August, the caterpillars feed on leaves in the autumn and then spin a web in which they hibernate during winter. As soon as spring comes their work of destruction is resumed. It is while the trees are bare of foliage that the insect can most easily be destroyed by burning the winter nests.

The moths are pure white save for a bunch of brown hair at the tip of the abdomen in the female. The full grown larva is about two inches long, reddish brown in color, with a broken white stripe on each side and two red dots on the back near the hind end.

**Every Man His Own Doctor.**

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but \$1.25. For sale by All Dealers.

**Lumbago.**

This distressingly painful affection is muscular rheumatism located in the large muscles of the loin.

The attack usually comes on quite suddenly, sometimes seizing the sufferer in the middle of a walk without the slightest premonition. The pain is intense, and is increased by the slightest motion of the body.

The victim of lumbago or any other form of muscular rheumatism becomes painfully aware of the fact, which perhaps he had not before realized, of the great flexibility of the body, and of the intimate relation between the different parts of the body; for it seems impossible for him to make any motion whatever, of the head or of the arms, without feeling a sharp twinge in the back. He dare not turn in bed, lift his head, or even raise his arms, for every moment seems to be originated and performed by the sore back muscles.

There may be a little swelling of the affected region, but usually there is no external sign of the great well of misery lying just beneath the skin. The pain lasts a few days or a week, and may then disappear as rapidly as it came, although there is often considerable soreness or an occasional twinge for a day or two.

Lumbago may be distinguished from pain in the back due to other causes by the fact that the agony is extreme whenever the

slightest movement is made, and is absent or at least bearable when the patient lies perfectly quiet in bed, and also that the muscles are tender when gently squeezed. The affection is more common in men than in women, and attacks adults chiefly, the muscular rheumatism of children taking the form usually of wryneck. Why this should be so it is difficult to say.

Lumbago occurs more frequently in gouty persons, although that is no explanation, since we do not know why the loins should suffer in gouty individuals more than the muscles of the neck.

In mild cases the drinking of an abundance of water, to which some baking-soda is added, may give a measure of relief. Gentle rubbing of the parts with a cloth dipped in ammonia and hot water will often mitigate the suffering and after the rubbing a cloth wet with this solution may be laid on the parts and covered with a hot-water bottle.

The diet should be light, without meat or highly seasoned food, and especially without beef tea or meat broths of any kind. The bowels should be kept open.

One who is subject to lumbago should be careful to avoid a chill, and should live frugally, avoiding the use of much meat or highly seasoned food in his diet, and drinking only plain water or milk.

Sometimes the attacks are prevented or made less frequent by the wearing of a broad flannel belt over the underclothing.

**Cochineal.**

Cochineal, so much used for coloring table jellies and also given to infants as a domestic remedy for whooping cough, is the whole insect of a class called coccus, but only the females are used. Why? Because the insects are captured by suffocating them with the smoke of fires below the trees on which they live, and as the males have wings, the gentlemen take to flight when the atmosphere becomes unpleasantly warm, leaving their ladies to their fate.

Will stop your pain free. To show you first—before you spend a penny—what my Pink Pain Tablets can do, I will mail you free, a Trial Package of them—Dr. Shoop's Headache Tablets, Neuralgia, Headache, Toothache, Period pains, etc., are due alone to blood congestion. Dr. Shoop's Headache Tablets simply kill pain by cooing away the unnatural blood pressure. That is all. Address Dr. Shoop, Racine, Wis. Sold by All Dealers.

**Needlework for Schoolgirls.**

The ability of a girl to do without teaching anything she is called on to do is pretty generally taken for granted. She imitates the countryman who, being asked if he could play the violin, replied, "I guess so; I never tried!" Thousands of girls marry and set up housekeeping whose experience in cooking consists in making "fudge" and concocting a Welsh rabbit on a chafing-dish—pleasant eating in their place, but inadequate for the daily food of a hard-working husband.

So, also, the girl is supposed to know by instinct how to mend and sew. A certain young wife became on her marriage the step-mother of three small children. The first week's mending basket was a revelation to her of her own helplessness.

"I was tempted to stop the holes with court-plaster," she confessed afterward, "and I dare say it would have been as effective as what I managed to do."

Two generations ago in a famous school for girls in an Eastern city, sewing was an important part of the curriculum. The first task of a new student was the making of a shirt for father or brother. Every stitch in that shirt was set by a thread. If a seam had to be ripped a dozen times, it must be fit for the closest inspection. This zeal on the part of the school was sometimes excelled in the home.

A tradition lingers in one family of a daughter who went to that school when she was six years old. So well did she sew at this age that she was excused from making the shirt, and set at once to a bit of fine needlework—a wide muslin collar, covered with embroidery, as exquisite as lace.

The promise of the six-year-old child was richly fulfilled, and her needle was for a long lifetime a high satisfaction to herself and a joy to her fortunate family and friends. Sewing was never a slavery to her, but always a fascinating creative occupation. The patch on a jacket, the darn of a stocking or the embroidery of a gown or a napkin were alike welcome calls upon her capable fingers. When people spoke of her ability to turn off sewing, she used to say:

"That's because I know how to sew. I know how because I was taught. Skillful hands, even better than many hands, make light work!"

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the RESULT of your ailment, and not the CAUSE. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for samples and free book. Dr. Shoop, Racine, Wis. The Restorative is sold by All Dealers.

**Buggies, Carriages, Road Waggon,**
