

NEWS FROM THE COUNTY.

It seems a great pity that some one does not invest his capital in some kind of an industry where there are such good privileges in water and railroad facilities, all idle. This might be called the village of Brotherly love. All live in unity. There are four churches all well attended, good school, every thing but some kind of work, yet several men have amazed fortunes here somehow. Several are still making money. D. W. Oits kept things hustling last winter. May he do so this winter as well.

Lumber Operations Will be Curtailed.

Lumbermen unite in the opinion that there will be not more than sixty or seventy-five per cent of the lumber cut on the St. John River this coming winter that there was last season. There have been few if any men sent to the woods yet to prepare for the opening of operations. The first men from the upper St. John left last Thursday, when John A. Morrison sent in a crew. On Monday, Harry Burns who operates for Randolph & Baker, left for the upper St. John with a crew of men who will be employed at building dams and other work until operations are commenced. Wages will not be as large this year as they were last year, and it is expected that \$30 will be the wages paid.

The stringency of the money market is one of the reasons for the present doubtful outlook of the lumbering business. Lumbermen find that they have to pay larger interest on loans. Then presidential year in the United States is as a rule a poor year for lumbering, and lumbermen will watch with interest the result of the election in the republic to the south. Then, again, the cut this year has been a heavy one, and market is felt to be glutted, and will be more so at the end of the present sawing season.

A despatch from Cleveland, Ohio states that according to reports submitted to the Catholic Total Abstinence Union of America, the union now has 1,000 branches and over 1,000,000 members. A lecture bureau will be established by the convention and the doctrine of temperance spread among Catholics throughout America.

MRS. C. KRAMER
**THE RIGHT MEDICINE
FOR PELVIC TROUBLES
FOUND IN PE-RU-NA.**

MRS. CAROLINE KRAMER, Fort Collins, Col., writes:

"The majority of women who are suffering from disordered periods and other pelvic troubles, have such strong faith in doctors that they allow them to experiment on them for kidney, liver or stomach troubles until they become completely discouraged and their money is gone.

"This was my unfortunate experience for nearly two years when my attention was called to Peruna.

"I hardly dared believe that at last I had found the right medicine, but as I kept on using it and was finally cured, I could only thank God and take courage.

"I have had most satisfying results from the use of your medicine and have advised dozens of women who were suffering with woman's ills to use Peruna and let the doctors alone.

"Those who followed my advice are better today and many are fully restored to health."

Mrs. Wilda Mooers, R. F. D., No. 1, Lents, Ore., writes:

"For the past four years I was a wretched woman, suffering with severe backaches and other pains, leaving me so weak and weary that it was only with difficulty that I was able to attend to my household duties.

"I used different remedies, but found no relief until I had tried Peruna.

"Within two weeks there was a change for the better and in less than three months I was a well and happy woman.

"All the praise is due to Peruna."
