Town Council.

The receipts and expenditures for ten months ending October 31st were as follows: receipts \$32421 66 and expenditures \$30600.99. Referred to audit committee.

A. E. Jones was heard in regard to his property on King street. He said the wharfing under the sidewalk in front of his building was pushing his building down towards the creek, and the cross beams were protruding through his building. A discussion took place in regard to the electric pumps recently installed by the McDougall concern. There is yet due the company an amount of money which Coun. Dunbar thought should be paid.

His Worship took a different view of the matter. He said that under the contract the pumps were to have been placed in position ready for operation by the 10th day of April, and it was not until the 27th day of June that they were put in motion, 78 days after the specified time, which held the McDougall concern responsible to the extent of \$10 per day for the delay caused, and he thought they should be held to their contract. The water committee was given until Friday night to settle the matter.

Marvin Smith made application for a beer license, which was refused.

Mr. Belliss, though completely taken by surprise, replied in a feeling manner, Mr Belliss spent a year in Woodstock as curate to Ven. Archdeacon Neales.

Salvation Army Immigration Department Charter Ten Ships for 1907.

The Salvation Army has just closed a very successful year of immigration work, having brought out seventeen thousand settlers to Canada, but seeing that this amount was very far short of the demand for farm help and laborers of various kinds, they have decided to bring out this year, at least twenty-five thousand for agricultural and other purposes.

Small parties will arrive on all regular boats Allan, Dominion and C. P. R. lines from the middle of November up to February, followed by ten chartered steamers carrying fifteen hundred each, and special conducted parties on all regular boats up to the last of April.

Staff-Captain Jennings who represents the work for the maritime provinces, is anxious that all who need help should be supplied while the immigrants are landing at Halifax and St. John, as it is very difficult to get them to come down this way after the boats begin to land at Quebec.

Last year a number of applications were not filled owing to the fact that some farmers delayed the matter until late in the season; those who will need laborers this winter or the coming spring, should apply now, stating the date men will be required. This would prevent them having to wait a long time or being disappointed altogether.

Application forms can be secured at any time by applying to STAFF-CAPTAIN JENNINGS, Box 477, Halifax, N. S.

Cold Settles in Kidneys
Pe-ru-na Restores Health

Catarrh of the Kidneys An Insidious Disease. Many People Have it in Slight Form and Do Not Know It.

Mr. Isaac Rosenzweig, 9 Dumarais street, Montreal, Can., writes: "About three years ago, I suffered with a bad cold. It settled in the bladder and kidneys, causing serious trouble. I tried several advertised remedies, but it was **Peruna** which finally cured me, and I had taken only a few bottles. I feel that it saved me, and it certainly restored me to such perfect health as I had not known in years. I have good reason to give your remedy my highest endorsement. It cleaned out the system, leaving me well and strong and feeling better than I have in years."

CATARRH of the kidneys is a very much neglected disease. It is not until the disease has a firm hold upon the kidneys that the patient begins to realize that there is some derangement of these organs. The slight backaches, the feelings of lassitude, and other warning symptoms of kidney disease are overlooked. They are not serious enough to detain the patient from his regular work.

INTERNAL CATARRH REACHES THE KIDNEYS. Even when he discovers that the kidneys are affected, he does not recognize the difficulty as being caused by catarrh.

Catarrh is sometimes so very gradual in its approach and its earlier symptoms cause such slight discomfort that it is not noticed.

However, when it is once firmly seated in the kidneys it becomes a difficult disease to exterminate.

Indeed, catarrh of the kidneys is more serious than catarrh affecting some of the other organs of the body.

In the kidneys it is liable to terminate in Bright's Disease or diabetes, both of which are recognized as very serious ailments, if not fatal.

The thing to be done, when catarrh of the kidneys is discovered, is to take some internal, systemic catarrh remedy, one that reaches the very source of the catarrh and removes the cause of the difficulty.

Such a remedy has been found in **Peruna**. It reaches catarrh, no matter

where it may be located in the body—whether in the more exposed membranes of the nose and throat, or whether in the remotest part of the kidneys.

That **Peruna** is at once the safest and most reliable remedy for catarrh of the kidneys is proven by the many testimonials written by those who have experienced its benefits. The testimonials given here are only specimens of the many testimonials on our records, pertaining to the relief afforded by **Peruna** in severe cases of kidney trouble.

Kidney Disease of Long Standing. Mr. Samuel A. Paxton, 1118 Troost Ave., Kansas City, Mo., member I. O. O. F., and National Annuity Association, writes: "I am a well man today, thanks to **Peruna**. I was troubled with catarrh and kidney disease of long standing when I first began using **Peruna**."
