

SOFT SHIRTS.

Men of taste will appreciate our Handsome Shirts the moment they clap eyes on them.

Made of Beautiful Fabrics, in the Latest Patterns.

These are the days when a man can afford to be a bit extravagant in the matter of shirts. The shirt comes into unusual prominence during the warm weather when a man takes so much liberty with his vest.

If we can't suit your taste in a shirt we do not know where you can go to get suited.

Mrs. R. Welch, A. B. Connell,.....	63
Miss Edith Dalling, Wm. Dibblee,.....	64

Jamieson-Hemphill.

On Wednesday afternoon, July 17th, the home of Mr. and Mrs. William Hemphill, East Knowlesville, was the scene of a very pretty wedding, when their youngest daughter, Maggie May, was united in marriage to Charles S. Jamieson, of Northfield, in the presence of about ninety guests. As Miss Ball, of Argyle, played the wedding march, the bride and groom appeared on the lawn where the nuptial knot was tied by the Rev. G. Ayers, of Centreville, assisted by the Rev. Mr. Greer, of Glassville. The bride, who looked charming, was becomingly attired in a pretty white suit of brilliantine and silk, and wore rosebuds in her hair. After the ceremony the bridal couple and the guests repaired to the dining room where a sumptuous wedding tea was served, after which Mr. and Mrs. Jamieson left for their home in Northfield. That the bride and groom are widely known and popular, was evidenced by the hearty congratulations and good wishes expressed, and also by the numerous and costly gifts. Their many friends wish them a long and happy wedded life.

The Government Buys Railway Lands.

The provincial government has completed the transfer of 50,000 acres of land from the New Brunswick Railway Co. The deed is ready for the government and the title will be taken within a few days. The price which the government is paying for the land is 75 cents per acre and it will be sold out to settlers in 100 acre lots at the original cost plus the cost of survey and interest. The land is situated in Victoria county and is known as the Blue Bell tract. It is well watered by branches of the Tobique river and the Grand Trunk Pacific Railway surveys shows that the road will pass through the northeast end of it.

Captain Porter.

We are very sorry to announce the severe illness of Capt. Porter of the Salvation Army. The captain is suffering from a very severe attack of nervous prostration and is under the care of Doctors Rankin and Grant at the home of the army officers. It is generally understood that the murder trial in Fredericton to which the captain has to appear as a witness was very much against her wishes and affected her nervous system. She is resting a little easier this morning and her many friends are anxiously looking forward to a speedy recovery. She is lovingly cared for by her superior officer, Ensign Martin.—Com.

Opera House To Night.

At the opera house tonight for the benefit of the A. O. H. sick fund, W. Laurence Gallagher presents the great comedy drama in four acts, "Miss, Pet of the Plains." The Woodstock Dramatic Company will assist Mr. Gallagher. After the show there will be a social dance. Ansell's full orchestra will furnish the music. Be sure to come. Get tickets at Graham's.

Evangelistic Meetings.

The Evangelistic Meetings held by the Woodstock Praying Band at the exhibition building Sunday afternoons are steadily increasing in interest. Pastor S. A. Baker preached to a large congregation last Sunday and will preach again next Sunday at 3.45 p. m. All are cordially invited.

Balloon Ascension.

Prof. Laroux and wife, assisted by Carl Smith, will make their double ascension and parachute drop at the races, going up at 4.30 Thursday and Friday. Don't miss it.

The Government Will Help.

A meeting of potato shippers and all others interested will be held in the town council chamber tomorrow evening at eight o'clock to meet the Hon. W. P. Jones Solicitor General and the Hon. L. P. Farris chief commissioner for agriculture who have been appointed a committee of the New Brunswick government for the purpose of considering the question of providing better facilities for the storage and shipment of potatoes from York, Carleton, Victoria and Madawaska Counties. Mr. Kirkpatrick, General Freight Agent, and D. W. Newcomb, superintendent, of the Canadian Pacific Railway will be present. N. S. Dow, dairy commissioner, has been appointed by the government to gather information as to the acreage planted in potatoes this year and the probable yield. It is thought the quantity shipped out of this district last year by the C. P. R. was 1,500,000 bushels and it is estimated that the amount for shipment this year will be 3,000,000.

The serious problem that confronts the farmers is that of taking care of this crop. It cannot be expected that the transportation companies will furnish cars to take care of all these potatoes before the frost sets in, and it will therefore become necessary for someone to provide suitable frost proof store houses to take care of 50 per cent. of the crop. If the railway companies did supply the necessary cars to market all these potatoes before the frost sets in what would be the result? Simply that the potato market would be glutted, prices would fall to nothing and everybody interested in potatoes would lose money. On the other hand if suitable frost proof warehouses are available to protect the potatoes, so that they may be forwarded during the winter months the price of potatoes should be sustained in the various markets and those interested get very much better returns.

Mr. Jones and Mr. Farris wish to get the shippers and the railway people together for the purpose of evolving some plan whereby the potato crop may be marketed to the best advantage. The government is willing to do anything in reason to help out in the matter.

John W. Keech.

The death of John W. Keech occurred early Friday morning of typhoid pneumonia and pleurisy. He was thirty years of age and employed as a miller by J. M. Frupp. Just a week previous he overheated himself while at work on his lawn and caught the cold that had a fatal ending. He was a very popular young man and an efficient member of the 67th Regt. Band. He is survived by his mother, Mrs. James Keech, a wife, formerly Miss Gentle daughter of John Gentle, two small children, two sisters, Mrs. Gavin and Mrs. Feeney, and a brother Hedley Keech. The funeral on Saturday afternoon at 2.30 was very largely attended. Rev. Dr. Kierstead held religious services at the house and grave. The 67th Regt. Band and the Canadian Order of Foresters, of which he was a member, took part in the funeral procession, the latter contributing the following pall bearers: Charles Comben, J. C. Churchill, Harry Stevens, B. B. Dykeman, Harry Dunbar and Dr. McLean. The floral offerings were numerous, a harp from the 67th Regt. Band being one of the most beautiful imaginable.

Files as Disease Bearers.

The United States Department of Agriculture has started a crusade against the common house fly and is carrying on extensive experiments as to the best way of banishing it from the abodes of man. The fly has been found to be not only a nuisance, but a menace to man's health. Its hairy body carries both disease and death. Many epidemics which sweep over communities in the hot season have been traced to the fly. Having its origin in filth, it brings with it the bacteria which breed in filth. And as it moves about, now crawling over refuse, now over the food on the table, flying from the lips of the sick to the lips of the healthy; it is said to be more dangerous to modern society than were the wild beasts to primitive man.

The high mortality among the children in the congested districts of a city, where families are closely crowded together, where refuse accumulates fast, where food is often kept in living rooms, is due to a large degree, so scientists now say, to the fly. Infant diseases chiefly prevail in the hot season, when the flies abound. Dr. J. T. C. Nash, in The Journal of the Royal Sanitary Institute, giving his experience as an English health officer, says that the fly is responsible for the death of many children because of polluting the milk which they drink.

"It is a matter that has been entirely overlooked," said Dr. C. O. Probst, recently, "but we now know that the common house fly is an agent of importance in carrying the germs of typhoid fever. It was formerly believed that the germs were only carried in water, milk or other liquid food. Flies both breed and feed in places where the germs are to be found, and then, flying into our houses, no doubt often carry the germs and deposit them on our food."

The Bath Bridge.

Prof. Perrott of the University of New Brunswick who has been in the employ of the government this summer will come down from Edmundston with a crew of men this week and locate the bridge across the St-John river between Bath and Wicklow. The site will be somewhere between the mouth of the Monquart stream and the C. P. Ry. station, but the exact situation will be that declared by the engineers to be most advantageous. It is the intention of the government to proceed with the construction the moment the plans and specifications can be got ready. Legislation empowering them to issue bonds for this work was brought into force by proclamation last week.

Death of Dr. Dow Coburn.

The death took place last Thursday morning at the residence of his mother, Mrs. E. A. Coburn, Fredericton, of Dr. A. D. Coburn, one of York county's successful physicians. He had been in ill health for a year or more, being a sufferer from tuberculosis. Deceased was 37 years old. He graduated from the Fredericton High School and later attended McGill University, Montreal, where he took his degree of M. D. about twelve years ago, practicing at Canterbury. He is survived by his mother, two sisters, Mrs. Wm. C. Burt, Fredericton, and Miss Hazel, at home. Deceased was a member of the Freemasons Lodge at McAdam Junction. He was also member of Canterbury Lodge of the Orange Order.

Coming to Woodstock.

The Victoria baseball club of this city has about completed arrangements by which they will go to Woodstock on Thursday morning of this week for the summer carnival and horse races to be held there.

Fraser Lynn, formerly of this city, has closed with the Vics to play two exhibition games with the Woodstock of which he is a member.

One of the games will be played on Thursday evening and the other on Friday morning.

The Vics will likely have about all of their own players on hand for the game, although it may be that they will have to take one or two local players not members of the club.

The Victorias are the leaders of the local intermediate baseball league, and they can be depended upon to make a good showing against any intermediate players in the province. They will go to Woodstock on the excursion on the Gibson branch of the C. P. R. being run by 71st Regiment Band.—Fredericton Gleaner.

The St. John Telegraph Changes Hands.

John Y. McKane, the Newcastle millionaire has bought the St. John Telegraph and Times, and they will hereafter be conducted in the interest of the conservative party. The price paid is variously estimated at from \$110,000 to \$180,000.

Haywood Acquitted.

William D. Haywood, secretary and treasurer of the Western Federation of Miners, on trial at Boise, Idaho, for the murder of the late Governor Steunenberg, was on Saturday found not guilty.

Card of Thanks.

Mr. and Mrs. George H. Sharkey, Wakefield Centre, wish to tender their sincere thanks to their many kind friends and relatives for their assistance and sympathy during the illness and death of their daughter, Mariana.
