

Lindsay--McCain.

An interesting event will take place at the residence of the bride's parents, Mr. and Mrs. Robert McCain, Burton, Sunbury County, to-day, June 5th, when their daughter Mary Louise will be united in marriage to ex-mayor John A. Lindsay of Woodstock. The ceremony will be performed by the Rev. R. G. Fulton of Woodstock assisted by the Rev. W. J. Kirby. The happy couple will go to St. John, thence to Quebec, whence they will sail for Europe, where they will spend six weeks.

Last Thursday evening Mr. Lindsay was entertained at the Royal Cafe by a number of members of Woodstock Masonic lodge and a beautiful steamer rug was presented to him by Mayor Munro, Secretary of the lodge, on behalf of those present.

On their return from Europe Mr. and Mrs. Lindsay will live in a new residence Mr. Lindsay is erecting on the corner of Broadway and the Houlton road.

A Gold Mine on Your Farm.

Within the next ten years farm practice will be revolutionized. Scientific knowledge is far in advance of the best farm practice. When prof. Millardet of Bordeaux, France, discovered that Sulphate of Copper and Lime in solution was a protection against grape rot, it was common to swish the mixture on with a heather broom. Now, the bright light of science has been turned on, and there is probably no greater field for profitable investigation than in the protection of fruit and crops from the losses occasioned by insects and fungi pests, through the practice of spraying.

The profits are so large and the costs so small, that a bald statement of the facts seems fabulous. Fancy the improvement of a crop of potatoes from total loss to 400 bushels per acre, at a cost of \$1.00 to \$3.00! Of course you doubt it.

That is what every person is likely to do who is not acquainted with the facts.

If it is said that Wild Mustard is killed in the growing grain at the cost of 60c. per acre; That the fruit crop will be improved 80 per cent.;

That the milk and butter yield will be improved one-third during fly-time;

That buildings can be made fire-proof at one-half the former cost, and kept sanitary and free from disease for a little more than nothing;

All with a Spramotor, You will likely take a little firmer grip of your pocket-book, smile in a superior sort of way, and say, "That's impossible."

There never was anything quite so foolish in the world as the man who says, "That's impossible." There is nothing impossible, particularly the size of the profits that will come to intelligent users of a Spramotor.

On two plots of ground of equal size, No. 1 plot, sprayed, produced 84 lbs. of crop and 14 lbs. of mustard; No. 2 plot, unsprayed, produced 16 lbs. of crop and 22 lbs. of mustard.

This tells the story of economy in spraying. The spraying apparatus pays for itself many times over in this one operation, and turns loss into profit. The spraying of the fruit trees, if done with the most economical apparatus, costs from one to three cents per tree, depending upon the size of the tree and the size of the sprayer.

With a power Spramotor, 250 medium trees may be sprayed per hour. It will fill its own tank, stain its own mixture, and all the operator has to do is to hold the pele.

With the Horse-power Spramotor, medium and small trees may be sprayed in passing, as 8 to 10 nozzles are kept going all the time.

Hand machines are today economical in orchards of 500 trees or less. They can be used in any operation, for fruit, potatoes, mustard and painting; therefore, today it is not enough that a sprayer will apply the usual spraying mixtures, it must do all the other work. There are machines of medium price, \$15.00 to \$20.00, that will do all these things.

On 600 apple trees, sprayed, 1,200 barrels of perfect fruit resulted, netting \$2,618.09; while from 600 similar trees, left unsprayed, 300 barrels were picked, 11 per cent. only were firsts, netting \$83.75, or a net gain in favor of the Spramotor of \$2,534.25.

Why seek newer claims to search for earth's treasures, when a gold mine lies at your very door?

It is the difference between what your trees, crops, and stock have yielded, and what they can be induced to yield under the magic influence of the Spramotor.

SPRAMOTOR is a word coined by us for trade purposes. Its presence on the apparatus is a guarantee of reliability. It is a positive sign that in the matter of workmanship and materials it surpasses any machine on the market.

The Canadian Government set its seal of approval on the Spramotor, declaring it to be the best of its kind, in the official test at Grimsby, and since that time have used the Spramotor exclusively.

During the years 1903-4, the Fruit Division has used exclusively the Spramotor Power Machines to demonstrate to the fruit growers in Canada the value of co-operative spraying.

The Spramotor Co. are not makers of iron pumps, but are specialists, manufacturing only Spramotors and accessories.

The award of the Canadian Government Spraying Contest, the Pan-American Gold Medal, the Highest Award at Glasgow, and wherever exhibited, show how competent judges look at it. The more flattering testimony comes from the men in the field, the actual users. Yet its utility is not confined to the farm. As a machine for painting and whitewashing, it earns its cost many times over.

The heads of large manufacturing concerns in the United States and Canada refer to it as indispensable.

W. F. Dibble & Son are sole agents for the Spramotor pumps, and they have just completed fifty Horse Spraying Machines. All fitted with a Spramotor brass pump. Don't purchase a sprayer with an iron pump and iron pipe connections, as the vitrol eats the iron up, and in a short time they are useless.

Walker-Williams.

At the home of Mr. and Mrs. J. C. E. Barker, on Fourth Avenue North, May 24th, occurred the wedding of Miss Bertha E. Williams, a niece of Mrs. Robert Barker, and Mr. Wallace Walker, who holds a position at the smelter in this city. The bride and groom are both from Woodstock, New Brunswick, and they came to Great Falls some months ago.

The wedding was a quiet one but extremely pretty. Only the immediate relatives of the bride were present. The service was performed by Rev. W. P. Law, assistant rector of the Episcopal church, the ring service of that church being used. The couple will make their home in this city and will reside on Sixth Avenue North at the corner of Ninth Street.—Great Falls Daily Tribune.

Miss Williams is a daughter of Mr. and Mrs. Edward Williams.

James Savage.

James Savage of Lakeville, N. B. passed peacefully and suddenly away without an hour's illness on the evening of May 16th. Mr. Savage through the winter months at times had felt a weakness of the heart but no serious thoughts were entertained by his family or friends. He had spent the greater part of the day at the home of his son, E. A. Savage, of Pioneer, and having returned home feeling unusually bright and cheerful had just partaken of the evening meal and was in conversation with his nephew who had dropped in to take tea with him, when he ceased to speak "and was not" for God had sent His messenger and taken him home.

Mr. Savage was born May 1st, 1826 and during the greater part of his life lived in Williamstown until a few years ago when he removed to Lakeville. When a young man he was converted and united with the Methodist church of which he continued by the help of divine grace a loyal and consistent member until death. His clear living testimonies to the saving and keeping power of the Lord Jesus will be long remembered by those who had the privilege of associating with him; and the influence of his Christ-like life and character will continue to live on. To the sorrowing wife and family of five sons and four daughters who are scattered in different parts of the states and our own county we extend our sympathy in the loss of an affectionate husband and father.—Com.

Very Rev. W. F. Chapman, V. G.

Passadena, Cal., News, Friday, May 17.—Pentecost, the feast of the descent of the Holy Spirit upon the Apostles, will be celebrated at St. Andrew's church Sunday. At the high mass at 10.30 a. m. the sermon will be preached by the Very Rev. Wm. F. Chapman, V. G. Monsignor Chapman is vicar-general, or next in authority to the bishop of the diocese of St. John, New Brunswick. He is a native of Canada, a pioneer missionary of his native country and a prominent prelate of the North Atlantic coast.

Carleton County L. O. L.

To the Brethren, Greeting:

The semi-annual meeting of the Loyal Orange jurisdiction of Richmond will be held in the Orange Hall, Richmond, on Tuesday, June 18th. Chair taken at 2 o'clock p. m.

Arrangements will be made for a public meeting in the evening. Lodges should send a good delegation.

By order Co. Lodge,

CHARLIE M. SHAW,
Co. Sec'y.

Good News for the St. John Valley.

Gerold Ruel and Mr. Stewart, representing McKenzie & Mann, were in Woodstock last week and the Hon. W. P. Jones and F. B. Carvell, M. P. drove them to Centreville, giving them glimpses where possible of the location of the Woodstock and Centreville Ry.

It is stated on what purports to be excellent authority that the envoys of McKenzie & Mann were so pleased with what they saw that they "will recommend the firm to at once go ahead with the building of a road from Centreville to St. John, by way of Lakeville, Woodstock, and Fredericton, following the right bank of the river. Centreville will thus be the terminus of the new railway until the line is extended through to Quebec."

AFTER DOCTORS FAILED

Dr. Williams Pink Pills Cured a Severe Case of Anaemia and Weakness.

Anaemia—poor watery blood—is the cause of most of the misery which afflicts mankind. The housewife especially falls an easy prey to it. The long hours and close confinement necessary in performing her household duties sap her strength. They make new blood—lots of it—and pure blood banishes all women's ailments. Mrs. E. St. Germain, wife of a well known farmer of St. John des Chailions, Que., found new strength through Dr. Williams Pink Pills. She says:—"A year ago I was extremely weak. I could not attend to my work. I suffered from dizzy spells; my head ached; my blood was poor; I had a bad cough and the doctors feared I was going into consumption. I followed their treatment for some time but without relief. I grew discouraged and finally gave it up in despair. I was strongly advised to try Dr. Williams Pink Pills so procured six boxes. Before they were all gone I felt relief. The headaches and dizziness became less frequent and I felt a little stronger. I continued the pills for a couple of months at the end of which time I had gained in weight; the pains had left me, my appetite was good and I felt as strong and well as ever I did. I cannot say too much in favor of Dr. Williams Pink Pills for I certainly owe my good health to them."

The woman in the house, the man in the office, the boy or girl in the school will always find a friend in Dr. Williams Pink Pills. These Pills actually make new, rich blood and good blood banishes rheumatism, general debility, kidney troubles and those aches and pains caused by overwork and overstudy; good blood builds up the tired unstrung nerves and makes pale thin cheeks rosy and healthy. The pills are sold at 50 cents a box or six boxes for \$2.50 by all medicine dealers or by mail from The Dr. Williams Medicine Co., Brockville, Ont.

Mr. Crockett Sent up For Trial.

In the case against James H. Crockett, managing editor of the Fredericton Gleaner, who is charged by the Hon. H. R. Emmerson with defamatory libel, Police Magistrate Marsh sent the defendant up for trial. He was admitted to bail in the sum of \$800. The case will be tried before the June session of the York circuit court which will open in Fredericton on the 18th instant. Judge Landry will preside.

Do Not Neglect the Children.

At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by All Dealers.

Mrs. ALEXANDER NEVENS of Hartland died on Tuesday May 28th of paralysis. Among the surviving children are Granville and Mary, on the homestead; Byron, a section man; Albert, of Aroostook county; Fred, of Woodstock, and Mrs. Jarvis, of Fredericton.

Tetter Cured.

A lady customer of ours had suffered with tetter for two or three years. It got so bad on her hands that she could not attend to her household duties. One box of Chamberlain's Salve cured her. Chamberlain's medicines give splendid satisfaction in this community.—M. H. RODNEY & Co., Almond, Ala. Chamberlain's medicines are for sale by All Dealers.

GIRL WANTED.

Girl wanted to take charge of a child for a few hours each day. Apply to MRS. THORNE, Main St. (tf.)

The Methodist Church.

The last services were held in the Methodist church on Sunday and in the evening the sacrament of the Lord's Supper was administered.

On Monday morning Mr. Rolston began with a crew of men to tear it down. The work will occupy about three weeks.

The church was built 49 years ago. Extensive repairs have been made to it three times since then, and on two occasions about \$9,000 were spent on it. It is estimated that it would cost not less than \$9,000 or \$10,000 to put it in repair now.

The United Baptists have placed the Albert Street church at the disposal of the Methodist congregation for the present.
