NEWS FROM THE COUNTY.

WOODSTOCK, N. B., NOV. 20, 1907.

Kirkland.

We are having very cold weather at present. The roads are so rough that there is not much going on them at present.

Mrs. Catherine Slater has returned home from Boston after being absent a number of weeks.

It was reported in the "Press" that John Greer, of Eel River Lake, had been killed by a moose. It was a mistake as the writer saw that gentleman. Mr. Greer made a business trip to town with a span of horses and heavy wagon, a distance of about 28 miles.

Mrs. Andrew Bostard went by train to Houlton en route to visit Mrs. S. T. Milberry of that place.

Mrs. Myrtle Foster has procured a flag for her school in Maxwell Settlement and a number were out to assist in raising it last Saturday.

Robert Greer is very busy threshing in Monument Settlement.

Lavina Kennedy has returned home from a visit to Little River, N. S.

Mrs. John McIntyre, from Caribou, Me., is in this place on a business trip.

Bath.

The cold weather has dried up the mud, and people can get around for their business.

C. J. Callaghan, of St. John, Inspector Atlantic Mutual Fire Insurance Association, has spent several days in town looking after the risks held by the above associations. J. R. H. Simms is the local agent here.

Rev. W. V. Higgins closed his missionary meetings on Thursday last. The same were much enjoyed by the people.

The I. O. G. T. meet now every Monday evening, instead of Tuesday in Tompkins Hall.

Miss Carey, teacher at Beechwood, spent Saturday in town, the guests of Miss Emma A. Smith, Principal of Bath school.

F. C. Squires, B. A., principal of Florenceville School spent Sunday with his parents here.

Ferrying across the River at this point can only be done with a small boat. We are looking for the bridge which will be a great boon.

Jacksonville.

Amasa Turney, who met with a painful accident some time ago, is improving slowly. Last Sunday he was presented by his Sunday school scholars with an address and flowers. Mrs. C. T. Phillips made the presentation in a neat speech. Following is the address:

My Dear Mr. Turney.—The young people of Jacksonville (where you have so recently made your home) would like in some way to express our sincere regret that a few weeks ago you met with a very severe accident, that has occasioned you such pain and suffering. We would like to bring into your room brightness and sunshine. We bring to you these flowers today and hope by their beauty and fragrance they may speak to you of our love and sympathy, and since flowers are God's messengers, may they also speak to you of His Love and Peace.

We are still praying the dear Heavenly Father that you may have a speedy recovery, and that you will soon be among us again, well and strong. We are

Your sincere friends,
WILHELMINA HAYWARD,
EDNA CLARK,
Committee.

In behalf of those who contributed.
The Rev. G. M. Campbell lectured here Tuesday evening under the auspices of the British and Foreign Bible Society on "The Work in Canada Among the Foreigners."

Business at Stickney Brook.

In May of last year Dr. D. W. Ross of Florenceville and W. W. Melville, along with a number of other prominent local men, all comprising the peel Lumber Co., began the erection of a steam sawmill at the mouth of Stickney Brook, midway between Hartland and Florenceville. This mill was constructed on a solid cement and stone basement, the engine house of solid masonry, and equipped in first class style at a cost of something more than \$20,000. The engine is of 225 horse-power with two boilers of 125 horse power each, while there is all the necessary equipment for turning out deal, matched lumber and lath.

The mill began sawing a little over a year ago and since that time 4,000,000 feet of spruce has been cut and about 4,000,000 lath, all of which has gone to the American market. Dr. Ross is the business manager and secretary while W. W. Melville is the general superintendent. The company in the busy season employs thirty-two men although they have at present several times that number getting out next season's cut on the Tobique and Grand River.

A year ago there was but one short railway siding at Stickney; now there are four long ones. Besides the mill several new houses have been built, also a store, while the company have in course of erection a large building to be used as a general store. Next season they will erect half a dozen tenements.

All trains stop on signal at Stickney, the Dominion Express Co. has an office there. Rainsford Campbell has established a wire ferry to connect with the opposite side of the river, and all together there is a flourishing and rapidly developing village where only a year ago were a few scattered farmhouses.

However Stickney's chances for development as a market town are not so good as those villages already established, as there is not the "back-country" on either side of the river that is the making of Hartland, Florenceville, Bristol and Bath. Back of Stickney is Oakland and that region known to fame as "Rogue's Roost."

LINGERING COLD

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all dealers.

Litigation over Saskatchewan Land.

Dr. Allen O. Earle, acting under authority of a commission issued to him out of the Supreme Court of Alberta, was yesterday engaged in taking the evidence of W. H. DeVeber of Woodstock, and F. M. Sclanders of this city. This suit is over the sale of 223 acres of land in the vicinity of Saskatoon, the plaintiff being Wm. D. Bates, and the defendant Wm. Henry Coy.

The plaintiff claims that Coy and he were jointly interested in land, held in Coy's name and that Coy, who sold the 223 acres for \$125 an acre, should account to him on that basis.

The defendant denies that they held the land jointly at the time of the sale but that prior to that date had disposed of his interest to him. Mr. DeVeber is interested through the fact that he bought the land on a deferred payment plan and the whole amount has not yet become due.—St. John Sun.

Butter Paper for sale at this office.

Surprise Party.

One evening recently at the home of Elbridge Good on the Buxton road, a reception which was very much in the nature of a surprise party was tendered to Frank Dunning of Saco, who has recently sold his farm in that city and will start for California next week. Mr. Dunning was given to understand that the party to which he had been invited was a neighborhood social affair at which his assistance was needed.

He was greatly surprised to find that the party was in his honor but soon recovered his equanimity and entered into the spirit of the affair with his usual vim. Refreshments were served and a general good time enjoyed. Just before the hour of adjournment Mr. Elliott Fernald in a very feeling speech expressed the sentiments of the community toward Mr. Dunning and their regret at the prospect of his early departure from Saco. The affair was quite informal and much praise and many thanks are due to the hosts, Mr. and Mrs. Good, for their part in the matter.

Mr. Dunning wishes to express his high appreciation of the good feeling displayed and the sentiments which prompted it. The occasion will be long and pleasantly remembered by him in his new home.—The Bedford Daily Journal.

Elbridge Good was until last year a resident of Centreville, Carleton county.

C. P. R. Likely to Have Motor Cars on Woodstock-Fredericton Branch.

MONTREAL, Nov. 13.—A re-organization of a somewhat extensive character has been effected in the Canadian Pacific engineering department. The office of engineer of maintenance of way has been abolished, and Mr. Hertzberg, who has filled the position for the past two years, has been appointed divisional engineer for the Ontario division, with office in Toronto. The duties of engineer of maintenance of way will be combined with those of the assistant chief engineer, and both functions will be exercised by F. P. Gutelius, the present assistant chief engineer. J. M. R. Fairbairn, who has been associated with the engineering department of the company for several years, has been appointed divisional engineer for the Eastern division, with office in Montreal.

The C. P. R. is likely in the spring to make another experiment with the introduction of the motor car for suburban service, which was tried with only success on the line between Montreal and Vaudeville. This time the experiment is to be on the Gibson branch, which connects Fredericton, the New Brunswick capital, with Woodstock. The matter has been brought under the management by General Superintendent Downie of the Atlantic Division, who has been moved to action by delegations of local residents. The motor cars which have been introduced on the I. C. R. are giving success and the result of their introduction in the neighborhood of St. John has stimulated the Fredericton people to make representations to the C. P. R.

Vroom-Stevens.

On Tuesday afternoon Nov. 12th, at 4 o'clock, Hawthorne Hall was the scene of a very pretty but quiet wedding when Miss Annie Stevens, daughter of the late Judge Stevens, was united in marriage to Edwin G. Vroom, of the firm of Vroom Bros. The ceremony was performed by Rev. Mr. Gibson, pastor of the Presbyterian church. The happy couple left by C. P. R. for Montreal where they will spend a few days.

Owing to the recent death of Judge Stevens no invitations were issued and only the immediate relatives of the bride and groom were present. The bride was attended by her niece, Miss Edith Stevens, and the groom by Edgar R. Lacourte, of Woodland. The bride was married in a travelling dress of grey chiffon broadcloth. The presents, were very many and very choice, including a cut glass pitcher and tumblers from the employes of Vroom Bros., Ltd.

Schubert Symphony Club.

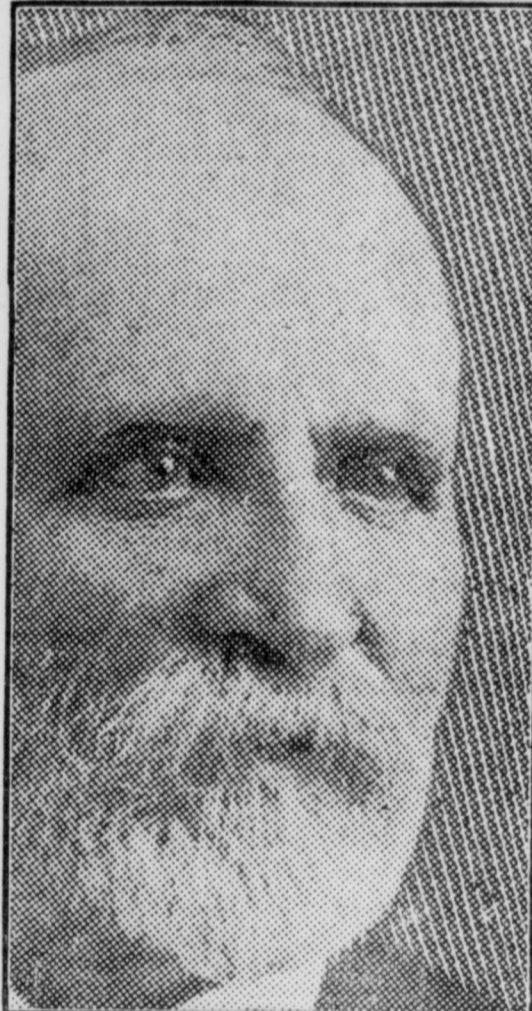

The Schubert Symphony Club and Lady Quartette are an exceptionally strong concert party, every one being a finished artist, both instrumentally and vocally. Their concert in the Y. M. C. A. Hall Saturday evening, was an artistic treat that is but seldom afforded a local audience, and it is to be regretted that it was so sparsely attended. However those who were present were more than rewarded. The ladies forming the quartette are the possessors of sweet and well cultivated voices which blend well together. Their different selections were rendered in splendid style and were most acceptable to the audience. As an elocutionist, Miss Teresa de Grasse ranks high in her profession. This lady possessed strong elocutionary ability and a charming personality, and her different numbers Saturday evening created the utmost enthusiasm. In the various selections by the Symphony Club, with mandolins, guitars and violin the party proved themselves adepts in this particular line. Miss Vera Edith Young has a splendid and carefully trained soprano voice and her solo, "Ring On" well merited the encore which it received, while Lovie Zeadt Purcell, in a strong and well balanced contralto voice, rendered "With You in Eternity," in a manner that drew forth warm praise from her hearers, and she also had to satisfy her audience a second time. As a violinist Mr. Thomas Purcell is in the front rank, and his different numbers were given in a style that showed him a past master of the bow. He is a graceful and charming player and his technique is faultless. It was a pleasure to listen to him. Altogether the evening was a most enjoyable one.—Quebec Daily Telegraph.

The following message was received Monday:

Nov. 19th, 1907, St. John, N. B.
Chas. D. Richards,—
Schubert Company pleased very large audience here last night. Every number encored.
W. J. S. MYLES,
Principal High School.

NASAL CATARRH PRODUCES DEAFNESS RELIEF IN PE-RU-NA.

Mr. R. J. Arless, 401 City Hall Ave., Montreal, Quebec, is an old gentleman of wide acquaintance, having served thirty-eight years in the General Post-office of Montreal, a record which speaks for itself. Concerning his use of Peruna, see letter given below.

MR. R. J. ARLESS.

"I have been afflicted with nasal catarrh to such a degree that it affected my hearing.

"This was contracted some twenty years ago by being exposed to draughts and sudden changes of temperature.

"I have been under the treatment of specialists and have used many drugs recommended as specifics for catarrh in the head and throat—all to no purpose.

"About three years ago I was induced by a confrere in office to try Peruna.

"After some hesitation, as I had doubts as to results after so many failures, I gave Peruna a trial, and am happy to state that after using eight or ten bottles of Peruna I am much improved in hearing, and in breathing through the nostrils."

National Stock Food.

(MADE IN CANADA)

Will give better results than any other: Ask for NATIONAL and don't take any other with a similar name. We make NATIONAL Stock Food after a formula that long investigation has revealed as the best. Read this:

Estey & Curtis Co., Ltd.

Gentlemen,—I have a pair of horses that I have fed NATIONAL Stock Food for about two years. When I began to use NATIONAL Stock Food one of the horses was so bad with heaves that I concluded he would be of no more use. The other had heaves also but not so bad. The horses are 18 and 20 years old and they improved so much after I began to feed NATIONAL Stock Food that I am working them yet and do all my farm work and driving with them. I have fed about five pails in the last two years to this team and I am buying another pail today. I consider it \$3.50 well invested. I am giving this testimonial voluntarily, without promise of remuneration, and you are at liberty to use it as you may wish.

Yours very truly,

A. H. TEDFORD.

NATIONAL Stock Food is put up in packages and pails, and is positively guaranteed. Far superior, it costs no more than other kinds and is for sale by dealers from Fredericton to Quebec. Put up by

The Estey Curtis Co, Limited
