PERSONS who have not visited the Cobble-Sexton mine have no idea as to the extent of the operations going on there. The tunnel is now over fifty feet in and close to the main vein which they expect to reach in a week or ten days. It is not only in the tunnel that work has been going on. Some fine looking sample of copper ore has been uncovered in spurs from the main vein, and the outlook is becoming more encouraging as the work proceeds.

WE HAVE it on good authority that negotiations are under way for a performance in our town about November 21st by that pleasing musical organization—the Schubert Symphony Club and Lady Quartette of Chicago. Many of our readers have heard of this popular company and no doubt everyone knows of the high favor in which its 17 years of success has placed it. The great variety and popular character of this company's program has endeared it to the hearts of American music-lovers, until today it stands undoubtedly first in their affections. Their new program is said to be the best they have ever presented, and no doubt their house will be large here if they are secured for an entertainment.
