Saturday Night's Storm.

The storm which struck Carleton county a "blow" on Saturday night was a terror and the majority of DISPATCH readers need not to have it described. This storm, occurring on Feb. 1st, was equalled only by one other, which occurred on Feb. 2nd, six years ago. At that time about 80 barns were blown down, one woman and several cattle were killed. On this occasion there was no damage to life and a less number of buildings went down, probably because the former storm carried away most of the flailer structures.

At East Florenceville the storm wrecked vengeance on A. C. Smith & Co's warehouse and totally destroyed it. The building was erected three or four years ago and was the

largest produce house in the province, its dimensions being 60 x 210 feet. It was a fine building, covered entirely with metal roofing and siding. There was a comparatively small amount of hay in the structure at the time of its demolition. If it had been full, as it usually had been at this time of the year, B. F. Smith says the damage would not have been so great. The contents which included a comparatively small quantity of hay and oats was saved with but little loss.

Mr. Smith will find the loss most severely in handling produce during the remainder of the season as it will not be possible to rebuild for this winter's trade. However he has secured temporary accommodations in near by building and, despite his loss, is still paying top notch prices for all kinds of farm products.

DON'T SUFFER ALL WINTER.

Read This Evidence and Begin To-day
to Cure Yourself With Dr. Williams' Pink Pills.

Sciatica is neuralgia of the sciatic nerve. Its origin is generally rheumatism and is the direct result of taking cold. For this reason the disease is commonly known as "sciatic rheumatism."

There is only one thing more painful than sciatica and that is the treatment of it, as practiced. The sickening burning of the flesh is only one of the forms of cruelty employed by the old school doctors, and all too often this is entirely vain for the relief gained is but temporary.

It is a scientific fact that the majority of sciatica cases result from exposure to cold when the patient is in an anaemic or bloodless condition, in which the nerve is literally starved. It needs no argument to show any reasonable person that a starved nerve cannot be fed by the application of a hot iron to the outer flesh. It may deaden the sciatic pain for a time but it will not cure sciatica.

Absolute rest is the best aid to proper medical treatment. Rest and Dr. Williams' Pink Pills, which actually make new blood and thus feed the starved nerve, will cure most cases.

Mr. H. W. Awalt is one of the leading merchants of Hemford, N. S. A few years ago he was a great sufferer from this excruciating trouble. He says:—"The attack was so severe that I had been off work for some time. The cords of my legs were all drawn up and I could only limp along with the aid of a stick. The pain I suffered was terrible. I was in misery both day and night. Every movement caused me such pain as only those who have been tortured with sciatica know. I was treated by several doctors, but they did not help me a bit. In fact I almost began to think my condition was hopeless, when Dr. Williams' Pink Pills were brought to my notice. I got a half a dozen boxes. I had used the entire quantity before I found any benefit. But I was encouraged and got a second half dozen boxes and before these were all gone every vestige of the trouble had disappeared. Not only this, but I was improved in health in every way, as it will be readily understood that the long siege of pain I had suffered had left me badly run down. I can't speak too highly of Dr. Williams' Pink Pills. I can't recommend them too strongly to other sufferers."

Sciatica is stubborn in resisting treatment and the patient often suffers for years. Dr. Williams' Pink Pills do not simply relieve the pain. They cure the disease caused by poor watery blood. They actually make new blood and have therefore a direct and powerful curative effect on such diseases as rheumatism, anaemia general debility and after effects of the grip. As the nerves depend upon the blood for nourishment. Dr. Williams' Pink Pills are unequalled for the treatment of even the most severe nervous disorders, such as neuralgia, partial paralysis, St. Vitas dance and locomotor ataxia. As a tonic for the blood and nerves they are used everywhere with the greatest success, building up wasted bodies and bringing the glow of health to pale and sallow cheeks. Sold by all medicine dealers or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

COME HERE FIRST.

The other day a lady came into my store and said, "Oh, Mr. Taylor, I've been all over town and cannot find the Footwear I want. Perhaps YOU have it?"

Of course she got the goods she wanted in the twinkling of an eye. Had she come here first she would not have had to go all round town for nothing.

There's a moral in this that makes further words unnecessary.
