# Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.  
It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.  
For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

### Moral Dogmas.

(New York Tribune.)

Many an old-time Methodist is grieved by the action of the New York conference in voting to expunge the iron-clad article in the Methodist Episcopal Book of Discipline forbidding church members to play cards, dance, attend a theatre or watch a horse race. And yet we have no doubt that the conference has expressed the sound judgment of the vast majority of churchmen represented by its delegates. It has simply placed the burden of moral responsibility where it belongs, upon each individual.

As several clergymen have hastened, somewhat needlessly, to point out, the abrogation of the article would not imply the encouragement or even the justification of any of the practices heretofore prohibited. It would merely mean that the general conference recognized the futility of laying down cut and dried rules of conduct for intelligent persons.

The attitude of such a large body of representative churchmen is a fresh indication of the rapidly growing moral sensitiveness of Americans. It is becoming clear that the right and wrong of card playing, dancing and theatre-going can be determined only by a consideration of the attendant circumstances in each particular case. Sweeping dogmatic prohibitions not only fly in the face of reason but fall to control the action of those on whom they are enjoined.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### The Missing Link.

(Boston Post.)

The return of an expedition sent to Java by the Berlin Academy of Sciences two years ago to look up the authenticity of certain fossil remains supposed to supply the missing link between man and the ape, serves to shake if not to destroy the fond hope, which Dr. Dubois inspired nearly a score of years ago, that this line of ancestry was established without a break.

Dr. Dubois unearthed in Java the roof of a skull, a thigh bone, and a molar tooth, in a geological formation which gave a date prior to that of mankind and subsequent to that of the ape. It was the connecting link. It showed a creature which had more brains in its head than the animals preceding and which walked erect on its hind legs. He named it Pithecanthropus Erectus, and labelled it the progenitor of man.

Such it has been accepted until the Berlin expedition returns with the news that it has found the remains of a human fireplace in the very stratum in which the bones of the Pithecanthropus Erectus were discovered. That is to say, that highly developed monkey of Dr. Dubois was not a predecessor of mankind but a contemporary.

### He Knew.

A charming well preserved widow had been successfully courted by a physician. The wedding day was approaching, and she thought it was time the children should know they were to have a new father. Calling one of them to her she said:

"George, I am going to do something before long that I wish to talk about with you."

"What is it, ma?" asked the boy.  
"I am intending to marry Dr. Jones in a few days, and—"

"Bully for you, ma. Does Dr. Jones know it?"

### Soldiers and Cigaretts.

Lieut-Gen. Lord Grenfell, commander-in-chief of the forces of Ireland, has issued an order in which he points out the injury which the increase in cigaret smoking is doing the health of the Army. He appeals to the Irish command to give earnest and early thought to the combating of what has gradually but seriously affected its efficiency.

If it is true that the excessive use of cigaretts is injurious to soldiers, must it not be true also that boys and youths are injured by the perniciousness of this form of tobacco?

Of course the question resolves itself into one of moderate and immoderate use of a luxury. People are justified in enjoying luxuries if they care to pay for them, but there is no reason in permitting boys under their majority to damage their health and character in this way. On our streets every day may be seen small boys with cigaret stubs in their mouths. They do not realize the serious results which this habit brings. The warning of the commander of the Irish forces is significant and should suggest a moral lesson to the young people of Canada.

That languid, lifeless feeling that comes with spring and early summer, can be quickly changed to a feeling of buoyancy and energy by the judicious use of Dr. Shoop's Restorative.

The Restorative is a genuine tonic to tired, run-down nerves, and but a few doses is needed to satisfy the user that Dr. Shoop's Restorative is actually reaching that tired spot. The indoor life of winter nearly always leads to sluggish bowels, and to sluggish circulation in general. The customary lack of exercise and outdoor air ties up the liver, stagnates the kidneys and oftentimes weakens the heart's action. Use Dr. Shoop's Restorative a few weeks and all will be changed. A few days test will tell you that you are using the right remedy. You will easily and surely note the change from day to day. Sold by all dealers.

### Mental Telegraph.

(New York Times.)

If it be true, as reported, that 500,000 women in Illinois are planning to influence the spring elections in favor of prohibition by the exertion of "mental telepathy," it only shows what absurd notions have been spread abroad by the current "new thought" talk and writing. No doubt the number of women who really think of entering into the scheme is a wild exaggeration, but the story presumably has some basis in fact, and it will be interesting to watch the results of the experiment.

It will depend upon the number and the quality of the women and upon their ability to elude the ridiculous and remain impressive. If the voters laugh the experiment will fail; if they take the matter seriously they will be subjected to a strong "suggestion," and suggestions can accomplish lots, though not, of course, as much or in the way its most voluble exploiters have fooled a large part of the public into believing.

They say that already they have brought to confusion and silence would-be orators in favor of license, and done it just by attending their meetings and glaring. It may be. An unsympathetic or antagonistic audience often makes speaking hard and for some might make it impossible, but to call this telepathy is to prove utter ignorance as to the real nature of telepathy—if there be any such thing, which is still a matter of grave doubt.

Adam looked at his helpmate thoughtfully.  
"Well, he said, in his emphatic way, "there's certainly one honor that is indisputably yours, my dear."

"And what is that, Ad?" queried our first mother.

Adam suddenly smiled.  
"Nobody can dispute the claim that you are the first lady in the land," he said.—Philadelphia Telegraph.

### A Doctor's Statement

Baie St. Paul, C.C., Que.  
March 27th, 1907.

"Dr. T. A. Slocum, Limited,  
Toronto, Ont.

Gentlemen:—

My many thanks for Psychine and Oxomulium. I have used them with very great satisfaction both in my own case and in that of my friends. It affords me much pleasure to recommend a remedy which is really good in cases for which it is intended. I am, yours very truly,

DR. ERNEST A. ALLARD.

Doctors recognize that Psychine is one of the very best remedies for all throat, lung and stomach troubles and all run down conditions, from whatever cause. It is the prescription of one of the world's greatest specialists in diseases of the throat, lungs, and stomach, and all wasting diseases. Ask your druggist for it, at 50c and 1.00, or T. A. WOULD-YOU-LIKE-TO-READ-THE-STORY OF-THE FURNACE?

Just write on a post-card, "Send Booklet A," and mail to nearest branch. The rest we'll gladly attend to.

—Just how correct principles say it should be constructed?  
—Just why no other plan of construction will do?  
—Just wherein lies its ability to be easy on fuel, quick in action, simple in operation?

The story is briefly told in a little booklet called "Furnace Facts." It's not an advertisement. No furnace name is mentioned, and you can read the whole story in 5 minutes.

To the party contemplating purchasing a furnace it points out the snags and pitfalls, and shows exactly what to demand of an architect, contractor or dealer, in furnace construction and installation.
