**Thriving Plaster Rock**

There have been a number of improvements at Plaster Rock during the past season. Messrs Fraser built ten new houses, and have put up a large addition to one of their hotels—a piece 30x40 feet, three stories high. They found it necessary to do so, not having room enough during the past summer. The Presbyterian church has also been completed with tower and spire. The work on the new Baptist church has prospered so that they were enabled to get the roof shingled and to keep out the weather.

Plaster Rock is getting to be quite a village, and is one of the busiest places in the county. It shows a marked improvement during the last ten years, as farmers have a cash market for their produce, although the last season has been very bad.—Fort Fairfield Review.
