They have got their pens all removed to the place and have got together the largest exhibit of poultry ever shown at any exhibition in the Maritime Provinces. The exhibit will be taken to Halifax, Charlottetown and St. John. It will not be shown at Woodstock as the date coincides with the more prominent show in Charlottetown. HOT WEATHER AILMENTS.

A medicine that will keep children well is a great boon to every mother. This is just what Baby's Own Tablets do. An occasional dose keeps the little stomach and bowel right, and prevents sickness. During the hot weather months stomach troubles speedily turn to fatal diarrhoea or cholera infantum and if a medicine like Baby's Own Tablets is not at hand the child may die in a few hours. The wise mother will always keep a box of Tablets in the house and give them to her children occasionally to clear out the stomach and bowels and keep them well. Don't wait until the child is sick—the delay may cost a precious little life. Get the Tablets now and you may feel reasonably safe. Every mother who uses these Tablets praises them and that is the best evidence that there is no other medicine for children so good. And the mother has the guarantee of a government analyst that the Tablets contain no opiate or harmful drug. Dealers sell the Tablets at 25 cents a box or you can get them by mail from The Dr. Williams' Medicine Co., Brockville, Ont.
