Very little, if any, lumbering will be carried on this season in the territory drained by the Presque Isle stream. Much of the timber land reached by this stream has passed into the hands of pulp mill companies, which will practically result in an abandonment of the local industry of cutting and manufacturing lumber heretofore carried on. The Aroostook Lumber company is making no plans to stock its mill. In past seasons this company has employed directly and indirectly a large number of laborers who will have to seek other employment this winter.—Exchange.

NATIONAL STOCK FOOD

Is really the superior of the imported article that is advertised in such glowing colors. We advertise National Stock Food modestly, but we prefer to put more money into the goods than in gay colored pamphlets. That National Stock Food is better than any other kind is not an idle boast. We weigh the words carefully before we announce our claim. We have testimonials from people who have used most of the other kinds, and they support our claim to having the BEST. We make it right here; the goods are not only "made in Canada" but put up "right here." We give a cast iron guarantee that backs the goods up.

For sale by dealers from Fredericton north to the St. Lawrence river. Don't take another kind when you can get the best at your own store-keeper's. Ask him for it.
