## A Popular Insurance Man.

Mr. I. Barton Yourex, 110 Carlton street, Toronto, Canada, widely known throughout Canada as agent for the Equity Fire Insurance Company, Toronto, Canada, and who is also a local preacher and was for over twenty years a successful school teacher, writes an interesting letter to Peruna.

I. BARTON YOUREX.

"It is only fair to give praise where it is due. Some time ago I contracted a cold, which being repeated caused catarrh in my head. I had seen Peruna advertised frequently, and upon inquiry was advised by a friend to try it. The help it gave proved its merit beyond a doubt, very beneficial indeed."—MR. I. BARTON YOUREX.

It may seem a small matter to some people to cure a cold. But experienced physicians not only realize the importance of neglecting a cold, but the difficulty that sometimes attends upon the curing of one.

Colds are the cause of more acute diseases than all disease germs combined.

More people lose their lives as the direct result of catching cold than from all other causes put together.

Hence, the importance of curing a cold. Peruna has been tried under all circumstances, all times of year, and by all classes of people in the civilized world, and found to be a reliable remedy for colds.

There is no time of year when such a remedy should not be kept conveniently at hand, but it is especially necessary during the winter months that Peruna be kept in the house, convenient to meet the first symptoms of colds.
