There is talk of forming a company to start a feed store here. The difficulty of securing feed at certain seasons has become so great that the general public call for a change and there is no reason why a sufficient supply should not be accessible at all seasons and at prices satisfactory to the buyer and seller.

Another opportunity for the citizens to exercise their right of franchise is just upon us, and it is wondrous strange how men contradict their own words by their actions. The party grip is squeezing the best of life out of many of us and making of us what we would not be. If we but had will power to throw the monster off we could have clearer vision and brighter conceptions of our own interests.

"Comfort Bags Wanted."

A sailor's going-to-sea outfit is never complete without a comfort bag. Hundreds of these are needed annually for the sailors. They contain needles and thread, and darning yarn, scissors, sticking plaster, bandage cotton, pins, a small Bible, tracts, a friendly letter, socks and towels, or anything else the maker thinks necessary to put in. The bag is made of bright Cretonne from 16 to 18 inches wide, drawn in at the top.

Mrs. Seymour, Supt. of Work among sailors in St. John, writes to our Union, the need of help in the annual treat given the sailors between Xmas and New Years, also they will need 400 Comfort Bags.

We would invite the women of the Missionary Societies or and sister interested in our town and county to help in this excellent work and know many will be glad of this opportunity to help those who "go down to the sea in ships."

Yours for "God and home and every land"

MRS. G. W. SLIPP,
 Pres. Woodstock Union
