

**Not a Miracle
But Medical Science**

Dr. T. A. Slocum, Limited,
Toronto, Ont.
Gentlemen:—
"Some time ago I began to lose flesh and failed every day until I had to quit work. My physicians and all my friends said I had contracted consumption. I failed from 165 pounds down to 119. I was advised to go to the Rockies or to the coast. I went to both places under heavy expense. I continued to fail, and was advised by the doctors to come home as nothing more could be done for me. Hope seemed to have left me.
"I tried Psychine and since starting its use I have gained from 119 to 141 pounds. I have used \$10.00 worth of the medicine. I am a well man and I cannot say too much in praise of Psychine. The strongest recommendation would be weak in view of the fact that I believe it has saved my life. It is without doubt the best remedy for run-down conditions and weak lungs.
"I sincerely hope and trust that you will continue your good work of saving run down people and consumptive from the grave. Wishing you and Psychine continued success, I remain, one of Psychine's best friends."
ALEX. McCABE,
Sault Ste. Marie, Ont.
Almost every mail brings us letters like the above. Psychine will repeat this record in every case. It is the greatest medicine known. At all drug-gists, 50c and \$1.00, or Dr. T. A. Slo-cum, Limited, Toronto.

Cards Spiritualized.

The sergeant commanded the soldiers at the church, and when the parson had made the prayer he took the text. Those who had a Bible took it out; but this soldier had neither Bible nor Common Prayer Book, but pulling out a pack of cards, he spread them out before him. He first looked at one card and then at another.
The sergeant of the company saw him and said:
"Richard, put up those cards; this is no place for them."
"Never mind that," said Richard.
When the service was over the constable took Richard a prisoner and brought him before the mayor.
"Well," said the mayor, "What have you brought the soldier here for?"
"For playing cards in church."
"Well soldier, what have you to say for yourself?"
"Much, sir, I hope."
"Very good; if not, I will punish you more than ever man was punished."
"I have been," said the soldier, "about six weeks on the march, I have neither Bible nor Common Prayer Book. I have nothing but a pack of cards and I hope to satisfy your worship of the purity of my intentions."
Then spreading the cards before the mayor, he began with the ace.
"When I see the ace, it reminds me that there is but one God."
"When I see the deuce, it reminds me of the Father and Son."
"When I see the tray, it reminds me of the Father, Son and Holy Ghost."
"When I see the four, it reminds me of the Four Evangelists that preached—Matthew, Mark, Luke and John."
"When I see the five, it reminds me of the Five wise Virgins who trimmed their lamps—there were ten, but five were wise and five were foolish, and were shut out."
"When I see the six, it reminds me that in six days the Lord made Heaven and Earth."
"When I see the seven, it reminds me that on the seventh day God rested from the great work He had made, and hallowed it."
"When I see the eight, it reminds me of the Eight Righteous Persons that were saved when God destroyed the world, viz., Noah and his wife, his three sons and their wives."
"When I see the nine, it reminds me of the Nine Lepers which were cleansed by our Saviour—there were nine out of ten who never returned thanks."
"When I see the ten, it reminds me of the Ten Commandments which God handed down to Moses on the tables of stone."
"When I see the King, it reminds me of the Great King of Heaven, which is God Almighty."
"When I see the queen, it reminds me of the Queen of Sheba, who visited Solomon, for she was as wise a woman as he was a man. She brought with her fifty boys and girls all dressed in boys' apparel, for King Solomon to tell which were boys and which were girls. King Solomon sent for water for them to wash. The girls washed to the elbows, and the boys to the wrists, so Solomon told by that."
"Well," said the mayor, "you have given a description of all the cards in the pack except one."
"What is that?"
"The knave," said the mayor.
"I will give your honor a description of that, too, if you will not be angry."
"I will not," said the mayor, "if you do not term me to be the knave."
"Well," said the soldier, "the greatest knave I know of is the constable that brought me here."

"I do not know," said the mayor, "if he is the greatest knave, but I know he is the greatest fool."
"When I count the spots in a pack of cards, I find 365—the number of days in a year."
"When I count the cards in a pack, I find there are 52—the number of weeks in a year."
"I find four suits—the number of weeks in a month."
"I find there are 12 picture cards in a pack—representing the number of months in a year."
"I find on counting the tricks that there are thirteen—the number of weeks in a quarter."
"So you see, sir, a pack of cards serves for a Bible, a Common Prayer Book and an Almanac."

Darwin's Modesty.

(From Morley's Life of Gladstone.)
On Sunday afternoon Sir John Lubbock, our host, took us all up to the hilltop whence in his quiet Kentish village Darwin was shaking the world. The illustrious pair, born in the same year, had never met before. Mr. Gladstone, as soon as seated, took Darwin's interest in lessons of massacre for granted and launched forth his thunderbolts with unexhausted zest. His great, wise, simple and truth-loving listener, then, I think, busy on digestive powers of the drosera in his green house, was intensely delighted. When we broke up, watching Mr. Gladstone's erect, alert figure as he walked away, Darwin, shading his eyes with his hand against the evening rays, said to me in unaffected satisfaction, "What an honor that such a great man should come to visit me!"

**THE GOVERNMENT
AND ZAM-BUK.**
Survey out from Fort William Takes This Wonderful Balm.

Zam-Buk the favorite household balm is now adopted as "The Doctor" by leading parties in surveying various parts of the Dominion lands.
Mr. Henry Hall writing from Fort William says:—"Having proved how beneficial Zam-Buk is in cases of cuts, skin injuries and diseases, I determined to keep a supply handy. Being engaged to go on a Survey I thought it would be a most useful thing to take along. I obtained a supply in Fort William, and very well it was I did so. I may say that pretty nearly every day it was called into requisition by one or other of the party for cuts, bruises, burns, or some injury or other. It is wonderful how quickly Zam-Buk takes the soreness out of cuts, burns, bruises and injuries, and on our survey it earned golden opinions from all who had occasion to try it. I have found it very fine for skin disease, and I can strongly recommend it as a household balm."
Mr. Lascelles Scott one of the leading Government analysts says:—"I have no hesitation in certifying the entire purity of Zam-Buk which in my opinion is excellently adapted for skin injuries and diseases."
Zam-Buk cures cuts, scalds, burns, bruises, eczema, scap sores, ringworm, ulcers, abscesses, chapped hands, cold sores, blood poisoning, chronic abscesses, etc. As an embrocation it relieves rheumatism, neuralgia, and sciatica. All Druggists and Stores sell at 50 cents a box, or from Zam-Buk Co., Toronto, for price, 3 boxes for \$1.25. Send 1 cent stamp for dainty sample box.

Off His Mind.

"Do you know that I' feeling a heap easier in my mind than I was a week ago?" said the Long Island farmer.
"Got the mortgage on your farm paid off?" was asked in reply.
"Noap, Haven't got any mortgage to pay off. I was in town last week with some stuff and heard two men talking about the Panama Canal. I'd read something about it, but wasn't posted, and when they said it was to cost \$300,000,000 my hair stood up."
"Yes, that's the estimated cost said the grocer.
"I went home and told the old woman and my son, Sam. I says to them, says I; 'Git ready for the poorhouse! Git ready for starvation! Git ready for paupers' graves! That Panama Canal is to cost \$300,000,000, and it will take the last pig's tail on our farm to pay for our share!'"
"And their hair stood up?" queried the grocer.
The old woman fainted dead away, but Sam he took it as cool as ice. He hunted around for a piece of chalk, and then went out to figger on the barn door. After an hour he came in, with a grin on his face, and said:
"Dad, I've got it down plumb fine, and there's no occasion to be skeered. Our share of that \$300,000,000 is only levan cents."
"You can't beat Sam on figgers. He'd gone over it a dozen times, and it was allus 'leven cents. I gave one yell for joy, and then I writ a letter to the President, enclosing our share, and rode three miles to mail it, and the blame thing was off my mind forever. Yes, sir, I'm feelin' fine as silk, and not a care on my mind, and afore I go home, I'm going to look around a bit and buy Sam the best dollar jack-knife in this hull town."

Food and Glimat.

The Arab can maintain his vigor on a diet chiefly plucked from trees. Henry M. Stanley and his white companions subsisted almost entirely on banana flour for two years in the African jungle. Their freedom from disease was in part attributed to the wholesome-ness of this diet. The dried banana contains 20 per cent. of proteid, about double that of ordinary wheat flour.
At the opening of the mango season in Jamaica many of the natives practically live on this fruit for two or three weeks. They fairly revel in it. An Englishman who was familiar with the science of diet could not understand how they could not only maintain their health on this fare, but actually grow sleek and fat. He knew that an effort to live on the fruits of his native country would result in weakness, sickness and eventual death. Chemical analysis showed, however, that the mango contained enough proteid to supply the bodily needs.
If nature has been thus kind in adapting food to man's uses, she has been equally so in adapting man to his food. You may have wondered why people can eat bread at every meal without tiring of it. The difficulty of eating one quail a day for thirty days is well known. Even such delicacies as asparagus and strawberries cause an aversion when served too frequently. Nature sends men a never-failing appetite for cereals because they are altogether the most valuable of foods. They contain a considerable amount of proteid, their salts are of importance to the organism, they are readily digested when properly cooked, and they furnish a great deal of nourishment in small bulk.
Stomach troubles would more quickly disappear if the idea of treating the cause rather than the effect, would come into practice. A tiny, inside, hidden nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also goes to the Heart, and one to the Kidneys. When these "inside nerves" fail then the organs must falter. Dr. Shoop's Restorative is directed specifically to these failing nerves. Within 48 hours after starting the Restorative treatment patients say they realize a gain. Sold by all dealers.

Landor's Gentle Character.

One of the lectures in which the late Bishop Potter was most entertaining illustrated the eccentricities of the artistic temperament and contained his anecdote of Landor, the poet. Landor, he said, was at the same time the most violent and brutal and most delicate and sensitive of men. He adored flowers. The gardens of his beautiful villa at Florence were full of flowers, and the poet walked among them daily, never plucking them, only bending over them reverently to admire their loveliness and their perfume. His cook one day served him a wretched dinner, and in his rage the poet threw the man out of the window into a bed of splendid roses. As the cook writhed with a broken leg below, Landor from his window exclaimed in a horror-stricken voice: "Good gracious I forgot the roses!"—The Argonaut.
