"I had been suffering for over two months with an obstinate cough, as had also my little girl. We tried several remedies common to any drug store without obtaining any apparent relief, in fact we were growing worse. I got a bottle of Coltsfoote Expectorant from my druggist and inside of two days the cough was stopped, and the results so permanent and rapid that we decided to keep it in our home continually.

FARM LABORERS EXCURSION TO THE NORTHWEST

August 11 and September 5 are the dates arranged.

The Canadian Pacific Railway announces Tuesday August 11th, and Saturday, Sept. 5th, as the dates on which the annual farm laborers excursion trains for the wheat fields of Western Canada will this year leave the Maritime Provinces. Second class one way tickets will be issued to Winnipeg with verification certificate. From and to Canadian Pacific Railway stations in New Brunswick the rate will be \$10 going and \$18 returning. From and to Intercolonial Railway stations in New Brunswick and Nova Scotia, but not Cape Breton, and from and to D. A. R. stations in Nova Scotia, the rate will be \$11 going and \$19 returning. From and to Prince Edward Island Railway station in P. E. Island the rate will be \$11.50 going and \$19.50 returning. If laborer has made previous arrangements to work during the harvest and has decided definitely on destination his baggage may be checked through to such destination, or nearest point, although his ticket will read to Winnipeg only. Those who have to engage at Winnipeg regarding work must have their baggage checked to Winnipeg only. Barrels and baskets will not be accepted for checking.

The object of these excursions is to assist the Northwest farmers in harvesting their crops, and incidentally it enables the excursionists to visit the country and at the same time earning enough money to defray the expenses of the trip.

The object of ticketing the laborers to Winnipeg only is to ensure immediate distribution to the points where they are required at once, and thereby avoid congestion at any point. It also ensures the immediate discovery of those who are not willing to work as farm laborers. Artisans and clerks, unless accustomed to manual labor, are not wanted on these excursions, and anyone who is unable or unwilling to work at least a month should not go on these excursions. Complete arrangements have been made by the Northwest governments and the Canadian Pacific Railway for handling the laborers expeditiously and distributing them immediately to points where they are required. Male or female farm laborers from the east can engage to work with Western farmers whom they know, or with whom they have worked in previous years. The fact of the farm laborers being ticketed to Winnipeg with the promise of free distribution to certain territory places them in the best position to obtain work, for Winnipeg is the seat of the Manitoba government and the headquarters of the western lines of the Canadian Pacific Railway.

Second class one way tickets will be issued to Winnipeg with verification certificate. When extension coupon of certificate has been signed at Winnipeg by a farmers showing holder has engaged to work as farm laborer it will be honored prior to Sept. 30th for free ticket to any C. P. R. station in Manitoba or Saskatchewan and including Moosejaw. West of Moosejaw to Calgary, McLeod and Edmonton, tickets will be issued free to Moosejaw and at rate of one cent a mile beyond.

The verification certificate will, if presented on or before Nov. 30th, 1908, and on payment of the returning rates as shown above, entitle the purchaser to second class ticket good to return to Moosejaw and any station east thereof in territory above stated to original starting point, by same route as travelled on the going journey. From stations west of Moosejaw, in territory above stated, tickets will be issued to original starting point on payment of one cent per mile to Moosejaw, plus farm laborers rate from this point to eastern destination, provided holder has deposited certificate with ticket agent on arrival at western destination and worked at least thirty days as a farm laborer.

One hundred and fifty pounds baggage wearing apparel only, will be checked free on each ticket. Above tickets may be sold to females as well as to males, but half tickets will not be sold to children.

It is expected that special passenger trains will be run from Halifax, Mulgrave and Point

du Chene to St. John, also Charlottetown to Summerside, and that the Charlottetown Steam Navigation Company's steamer will make a special trip from Summerside to Point du Chene. Particulars will be announced later. Farm laborers tickets will be sold only for passage via Canadian Pacific all rail main line in both directions.

August Busy Man's.

Appropriately prepared for holiday reading, and possessing a nice balance between the gay and the serious, the August number of Busy Man's Magazine will be found both seasonable and appetizing. It is full of good things from cover to cover. A graphic character sketch of Sir William Macdonald, and what this well-known Canadian millionaire philanthropist is doing for practical education, will be read with interest, as well as other original contributions, including "The Inside vs. the Outside Man," "The Importance of Secondary Education," and "Fitting Young People for Life's Battles." Among the selections from the leading magazines of the world are the following bright and comprehensive contributions: "Great Achievements of Men Over Sixty," "My Voyage in the World's Greatest Airship," "King Edward Entirely Out of Debt," "Why Some Women Never Marry," "Business Man is Country's Best Citizen," "The City Man as a Farmer," "The Most Exclusive Club in the World," "No Sport to Equal Mountaineering," etc. There is also a generous instalment of bright, readable stories in the August issue of Busy Man's, which is admirably illustrated and presents an exceptionally attractive appearance.

A GREAT EXHIBITION FEATURE.

Machinery Hall in the St. John Exhibition to be Part of the Big Show.

The big boilers in the Machinery Hall of the Exhibition building in St. John were tested the other day and found in first class condition. Now that they are sure of plenty of power the applications to show machinery in motion are becoming a feature of the big show.

There is nothing more interesting in an exhibition than a well stocked Machinery Hall, such as St. John will have.

Some splendid amusement features have already been booked, the railways and steamboats are making rates that will induce most everyone to visit St. John Exhibition week, and there the people are making all sorts of plans to make their stay pleasant.

These include just now a decorated city—a competition in decorations having developed within the last week.

Charlemagne's Rose.

(London Globe.)

The most venerable rose tree in existence is said to bloom against the ancient church of Hildesheim, in Germany. Hildesheim has had a most eventful history. Notwithstanding the many parties which at different times have been in the ascendancy, they all seem to have respected and tended the rose tree, which it is said, was planted by Charlemagne. The trunk is now almost as big as a man's body. There are five principal limbs trained against the church, the tree being protected by iron railings inclosing an area of about twenty-six square feet. The rude German soldiers in early ages tended the tree, Catholics and Protestants, in turn masters of the town, drained the ground, the soldiers of Turenne fastened up the branches with clamps, and those of Napoleon a century and a half later erected the railings.

Tea as a Germ Killer.

Tea is now elevated from the position of a social beverage to the dignity of a germ destroyer. Dr. McNaught, the medical investigator, has found that typhoid bacilli placed in cold or lukewarm tea are greatly diminished at the end of four hours and have completely disappeared at the end of 20 hours. The value of this finding is obvious to military surgeons. Sterilized water may become infected after it is placed in the canteen. Canteens which have once been filled with infected water, may retain the infectious germs for some time. In filling the canteens with tea the infection with typhoid would, after a few hours, be almost nil.—Army and Navy Journal.

Dining Late and Long.

(From Tit Bits.)

In Sir Algernon West's early days society dined late and long, and the late Lord Clanwilliam once told him of one occasion when he dined at a friend's villa near Putney and the meal did not begin until 8 o'clock.

When they at last rose from the table and went to their rooms, Lord Clanwilliam flung open his window and saw the haymakers coming into the field. "I wonder," he thought, "what hour they begin work," and on consulting his watch he found it was 8.30. The haymakers were returning to work from their breakfast.

English Idea of it.

Little things frequently illustrate the English view of American geography very picturesquely. An Englishman had taken the Pacific Express at Philadelphia, and, feeling tired, had retired to his berth. Just before he fell asleep he happened to remember that he had forgotten something, so he put his head out between the curtains and called:

"Portah! portah!"

The porter came.

"What is it, sir?" he said.

"Please wake me when we get to San Francisco, you know."—[Philadelphia Public Ledger.]

A school girl was required to write an essay of 250 words. She submitted the following: "My uncle bought an automobile. He was riding in the country when it busted going up hill. I guess this is about fifty words. The other two hundred are what my uncle said when he was walking back to town, but they are not fit for publication."

The Long, Cold, Dark Evenings,

Are coming upon us when the wise father and mother will look about for some means to keep the young people at home.

Nothing will do this more effectually than a musical instrument, a Violin, an Organ, or a Piano. I heartily recommend to your notice the renowned Gourlay Piano. Won't you come and have a talk with me about the matter.
