There was a union picnic in Maxwell. There were four schools represented and their teachers were present. Ice cream was sold. The picnic was held in the beautiful grove of Mrs. E. Graham. The teacher in that district, who is Matilda Graham, deserves much credit for the way her pupils carried off their part

visited St. John last week, and to order her millinery for fall.

Wm. P. Stapleford arrived home here to visit his family from Lowell, Mass. on Friday.

Centreville.

Rev. Mr. Francis has moved into the Rectory and a pleasing, homelike appearance has taken the place of the deserted look of a few weeks ago. No parsonage should be vacant.

The roof on the new school building is now nearly done and the workmen will have a much better opportunity to push forward the work which has been so much delayed by the rainy season. The time is already past when the house was to have been finished.

Mrs. Fannie Lunn, widow of the late T. W. Lunn, died here last Thursday, leaving three sons and one daughter to mourn. In her death the church and community will meet with a distinct loss. Her activities in church life have had a widespread influence among her large circle of acquaintances. The funeral which took place on Saturday was largely attended. Rev. Mr. Ferguson preached the sermon. Rev. Mr. Ayer and Rev. Mr. McGill also took part in the services.

Rev. Mr. McGill who had charge of the churches in this circuit during his college holidays last year has been here for the past few days. He occupied the Baptist pulpit last Sunday morning and evening.

Rev. John Perry by announce will preach at Tracey Mills on the morning of the 19th and will also hold services at Knoxford church in the afternoon.

A number have been digging and marketing potatoes. So far the yield promises to be a fair one, but prices are considered too low to give marketing present attention.

Mr. Jackson of the Bridge Inspection service has secured the necessary material and at the first available opportunity will place the railing on the bridge here.

Recent frosts have given the farmers a chance to look among the vines.

Vacation As A Developer.

Do you think a vacation is a loss of time? It is the best kind of an investment—an investment in fresh brains, in vigorous health, in increased vitality.

People who seldom or never take a vacation get into ruts. Their minds get stuffy and clouded; they lose the power of expansion, of growth; they lose freshness of view; the ability to grasp opportunities; and, finally they lose their grip on things and on themselves.

Recreation for those who have been held closely to business for a long time, is like the turning up of hard soil by the plow, letting in the sunlight and stirring up the chemical forces that have been sleeping during the winter. Slumbering germs start when they feel the warm sun, the gentle rain, and the tonic of the dew. There is rejuvenation and growth in recreation in the country. It loosens up the hard soil of prejudice—mental ruts—and refreshes and invigorates the germs of character.—Orison Swett Marden in Success Magazine.

Clothes are only covering after all, but gracious what a difference the style of them makes! The modern man is fastidious and must be in the fashion. The style of his Coat is of even more importance than the material of which it is made. We are specialists in "styling," and present more ideas in dress to our patrons than any other tailoring establishment in town. And our suit-creations are universally admired.

One secret act of self denial, one sacrifice of inclination to duty, is worth all the mere good thoughts, warm feelings, passionate prayers, in which idle people indulge themselves.—J. H. Newman.

"The time when your religious experience will be most appreciated is when the rider of that 'pale horse' hitches his steed to your gate-post and comes in to diagnose your particular case."
