Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else. It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Victor Hugo's Superstition.

An amusing story of Victor Hugo is related in a French contemporary. The poet had accepted an invitation to dine at the house of one of those ardent Republicans who at that time were wittily termed 'les precieuses ridicules.'

The dinner hour had passed some time without any announcement that the dinner was served when one of the company, a friend of Victor Hugo inquired of the hostess the cause of the delay. The latter explained that owing to one of the guests having sent an excuse at the last moment there would be thirteen instead of fourteen at the table, so she had sent to find another to make the fourteen.

A moment later the same individual was conversing with Victor Hugo. "Do you know why we are waiting," asked the poet. "Yes," was the reply; "some umbrella is afraid to sit at table when there are thirteen." Victor Hugo in a solemn and severe tone, replied, "L'Embrasse, c'est tout."

Predicts Severe Winter.

This year's miserable summer, as far as Europe is concerned, is likely to be followed by an exceptionally severe winter. If a Paris meteorologist is to be believed. He finds on consulting ancient chronicles that years ending with a 9 have always had an evil reputation for inclemency of weather.

He recalls the winter of 850 when the northern part of the Adriatic was frozen over, and of 1179, when several feet of snow lay for months over the entire temperate zone. In 1269 the entire width of the Baltic Sea was crossed by sledge. In 1339 a great many persons were frozen to death in England. In 1400 the Danube was frozen up from her source to her estuary in the Black Sea.

In 1469 all vines in France were killed by frost. In 1609 and 1639 the port of Marseilles was frozen over and there was great suffering and distress. In 1709 France was icebound from north to south, the ice extending for miles seaward. Birds and animals fell dead from cold.

The years 1729, 1749, 1769 and 1789 were also noted for severe cold and prolonged frosts, all the central European rivers being frozen up for weeks. Snow lay continuously for forty-five days over central Europe in 1829 and 1839. Long and severe winters were also those of 1879 and 1899.

The old fashioned way of dosing a weak stomach, or stimulating the Heart or Kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments—the weak inside or controlling nerves. It isn't so difficult says Dr. Shoop to strengthen a weak Stomach, Heart or Kidneys if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then those organs must surely falter. These vital truths are leading Druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days and see! Improvement will promptly and surely follow. Sold by all dealers.

Travelling in Central Africa.

How many people are there who realize when they read of some explorer's travels in Central Africa, the method in which those travels are usually conducted? There are hundreds, nay, thousands, of otherwise well-informed persons who think that the middle of Africa is a wilderness of sand, across which the dusty traveler wanders from oasis to oasis on the uncomfortable hump of the dromedary. There are many others who have the equally mistaken idea that, if the Uganda Railway will not take them west of the way across Africa, at all events the Cape to Cairo Railway will see them down within a few minutes' walk of most places on the Dark Continent. Need it be said that neither of these ideas is anywhere near the actual truth? In that part of tropical Africa which lies to the south of the Sahara and is conspicuous by its absence, and the "commissariat came and very soon let his feet wet and die in the swamps. The Uganda Railway—while on the way, is not in Uganda at all—has a distance of less than six hundred miles from the coast, and the Cape to Cairo Railway exists at present chiefly on paper and the imaginations of its promoters.
