IF RUMOR is to be relied on any farmer on the New Brunswick border who has ever made it a practice to smuggle potatoes had better watch out. It is reported that two detectives of the Treasury Department have been working along the border ascertaining the amount of potatoes each farmer hauls to market. It is said a record will be kept and tabs will be kept on the amount each farmer hauls to market. Should it turn out that he hauls in any considerable quantity over and above the crop he raised the Government may ask for explanations. ## You Want to Sell Your Property !!

## I WANT TO HELP YOU!

I have made a careful study of the problem of bringing the man who desires to buy into communication with the man who desires to sell, and I accomplish results through an extensive advertising system. If you want to sell I can find the man who wants to buy. I make this my business. If you have the confidence in your property, and if it is worth the value you place upon it, I can get the price for you, and I can do it much quicker and cheaper than you can.
