Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else. It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

Brains and Their Uses.

Brains are common to all parts of the country, and traces of them have even been discovered in summer at Murray Bay Muskoka, etc. They are originally used to obtain money, but when money is obtainable by them it usually takes their place.

The quality of brains varies in different localities. Mixed with ginger they become very valuable. With a spine they are a necessity in every household.

At one time they influenced literature, says Thos. Masson, but the discovery was made that literature could do without them. Since then they have been have been almost exclusively devoted to advertising.

Brains are employed in various enterprises. They make bridges, railroads and other systems of transportation. They also create capital, and are used extensively in evading the law. They mix with water and gasoline, but are absorbed by alcohol.

Brains are bought and sold in the open market. They may be traded in on the exchange in Ottawa, Quebec or in other political centres. The best quality, however, are not traded in. Indeed, oftentimes they are not even heard of until long after they have passed away.

The Value of a Cow.

There exists a deeply rooted prejudice among farmers against paying more than fifty dollars for a cow. This is due to the fact that they consider one cow about as good as another, that is if they give any thought whatever to the subject. They do not appreciate the fact that a good cow may return fifty or one hundred per cent, on the investment while the poor cow may return a positive loss. As a man learns the comparative values of cows his prejudice disappears and he figures more upon what profits will come from his investment than upon the price of an individual animal.

Pain can be easily and quickly stopped Pink Pain Tablets—Dr. Shoop's—stop Headache, womanly pains, any pain, any where, in 20 minutes sure. Formula on the 25c. box. Ask your druggist or doctor about this formula—it's fine. Sold by All Dealers.

Dairy Notes.

Low wages and frequent changes of butter makers will ruin any creamery. The crop of roughage is going to be a good one. The good cow with a big capacity will turn the rest of it into money. Every dollar increase in the return from the average cow means \$1,000,000 more for the farmers of the state. It's not a bit too early to think about the county and the state fair. Have you a horse a cow, a sheep or a hog that is promising? Can you walk up to any of your cows while in the pasture and have a friendly visit with them? Do they like to meet you? If so then they are receiving kind treatment.

Dennis was doing his best to speak respectfully of the dead. "Yes," he said, "Mike was a foine mou, Honest, straightforward, hard-workin,' gnerous—"

"Gnerous?" questioned Barney rather doubtfully. "Did ye ever know of his treatin' any one in all his loife?"

"Well, he nearly treated once."

"Nearly treated?"

"Yis. I remember once he dropped into Cassidy's when th' boys were all there. 'Well lads,' he sez, 'what'll we have?'—wid a wave of his hand toward the bar. 'What'll we have?—rain or snow?'"

Rusty Preacher.

A lecturer, who had been both an editor and a minister, consented to preach Sunday morning in a place where he had lectured the night before. A loud, zealous brother engaged in prayer. He touched upon various matters, and invoked the divine blessing upon them, including "the speaker of the morning." For him he prayed very much as follows: "Oh Lord, bless him who is to preach to us this morning; he is a poor, weak man, but make him a power. Bless the message that he shall bring. We know that he is only an editor and that he is rusty; but, O Lord, rub the rust off."

And the lecturer-editor uttered a hearty "Amen."

Edwin Stevens, when he first made up his mind to tackle vaudeville, applied to a very smart manager who had a strong German accent and a great deal of business on hand.

"Vell," he growled, "vat do you want?"

"I would like to get into vaudeville," replied the candidate meekly.

"Vat do you do? Vat is your hae?"

"I am a comedian, sir. I—"

"A komiker, was?" The manager faced him fiercely. "Vell, make me laugh!"

Bishop Goodsell, of the Methodist Episcopal church, weighs over two hundred pounds. It was with mingled emotions, therefore, that he read the following in Zion's Herald some time ago:

"The announcement that our New England bishop, Daniel A. Goodsell, has promised to preach at the Willimantic camp meeting, will give great pleasure to the hosts of Israel who are looking forward to that feast of fat things."

Closed.

"Are you going to the same hotel at Palm Beach this winter?"

"Good Lord, no! I came away last year and forgot to tip the head waiter."—Ole-land Leader.

A STANDARD.—"To prepare us for COMPLETE LIVING is the function which education has to discharge, and the only rational mode of judging of any educational course is to judge in what degree it discharges such a function." Herbert Spencer.

AN OPINION.—"What impressed the writer (in the Educational Review) was the admirable system that prevails in the management and in every department of work; that kindly personality and tact, the influence of which is so grateful to young people; the genial sympathy in the relations between teacher and pupil, and the interest which each one seemed to feel in the work of the day. AN EDUCATION UNDER SUCH CONDITIONS IS INDEED A GREAT ASSET."
