Mrs. Mary McFarlan.

Mrs. Mary McFarlan, widow of the late Ananias McFarlan, locomotive engineer on the C. P. R., died at the residence of her daughter, Mrs. Donald Munro, Woodstock, Sunday morning. Mrs. McFarlan was born at St. George, N. B., 69 years ago and was a daughter of the late Adonirion Gillmor. She is survived by one daughter, Mrs. Donald Munro, and one grandson, Roy McFarlan. The funeral took place on Tuesday afternoon at 2.30 from the residence of Donald Munro, M.P.P. with interment in the Methodist cemetery.

Golf.

Fourteen men from the St. John Golf Club came to Woodstock on Friday last and on Saturday played the annual fall game with the home club, being defeated as usual. The St. John team was weakened by the absence of a few of their best players and they did not look for a victory. A few good individual scores were turned in, and the day was thoroughly enjoyed by the visitors, the weather being perfect for golf. At noon luncheon was served by the ladies on the club house verandah and speeches were made by President Magee and Rev. Mr. Hooper, of the St. John Club, and President A. B. Connell and Hon. W. P. Jones of the Woodstock Club. Following is the score:

Educational Matters.

After the beginning of the school year 1910-11, Hall and Stevens' Geometry shall be used exclusively in all public schools in this province, but during the present school year, it shall be used for beginners and for those pupils who have not an advanced knowledge of the subject.

The Normal School final entrance examinations and the University matriculation examinations shall be based in 1910 upon Hamblin Smith's Geometry, but not thereafter.

All the teachers are requested to use Hall and Stevens' Geometry as a handbook for purposes of reference and comparison, in the work of any grade.

The use of Goggin's Grammar shall begin at once, as all texts in Elementary English Grammar cover substantially the same ground.

Harcourt's Copy Books are to be used exclusively in every school, but any pupil who has not finished the work in his last copy book may complete it.

In standard four of the ungraded course, history is to be taught orally. Hay's History of New Brunswick may be used as a book of reference for the teachers.

It should be borne in mind by all concerned that third class teachers cannot be employed in districts having a property valuation of \$15,000 and upwards. If such consent be not obtained the services of teachers so employed cannot be legally recognized.
