### Ravages of Consumption

#### The White Plague on the Increase

The remarkable increase in deaths from consumption (tuberculosis) within the last few years is now attracting the attention and earnest consideration and study of the leading medical authorities of Europe, America

Clothes are only covering after all, but gracious what a difference the style of them makes! The modern man is fastidious and must be in the fashion. The style of his Coat is of even more importance than the material of which it is made. We are specialists in "styling," and present more ideas in dress to our patrons than any other tailoring establishment in town. And our suit creations are universally admired.

and Canada, and the most strenuous efforts are being made to check its further developments. Many eminent men suppose that Consumption cannot be cured, but not so, with the Dr. T. A. Slocum, Limited, proprietors of Dr. Slocum's PSYCHINE, who asserts that this terrible malady has never been thoroughly studied in its various bearings; and says the consumptives are constantly being sent to Sanatoriums with the hope of prolonging life for a short time rather than for the purpose of effecting a cure. Dr. Slocum made a life-long study of Consumption, and by the use of Slocum's PSYCHINE life can be prolonged and a complete cure can be effected even in the last stages. PSYCHINE is not an experimental remedy, but is the result of laborious study and practice, each ingredient in its composition having been selected for a special and powerful bearing upon the cause of this dreadful disease. If Dr. Slocum's remedy, PSYCHINE, is persisted in for a reasonable time a perfect and permanent cure can be effected.

If the reader is a consumptive, or has lung or throat trouble, general debility, bronchial trouble or decline, do not despair, but send your name and post office address to the Dr. Slocum, Limited, Slocum Buildings, Toronto, and a sample bottle of PSYCHINE will be sent you absolutely free. Do not delay until it is too late, but send at once and be convinced to the efficacy of this great remedy. When writing for this sample please mention this paper.
