vice were richly spiritual and interesting. The psalm called the Shepperd's song.' seems to take a day's experience in a shepperd's life.

His speech in the evening on the Bible,---What it is and What it does" was a whole souled and elequent one. His soul was soft, his utterance free his faith strong, his illustrations oft and telling his quiotations from Burus, "Tam O, Shanter," and "Cotter's Saturday night from the late Dr. T. DeWitt Taimage, and James Russel Lowell, were fit. ting and impressive. It was an address where memory could linger. Rev. J A Kennedy's address on the S S as an Evangelistic Opportunity was a fine one. Mr Kennedy's manner was dramatic. His belief of the Bible Comprehensive and strong. His idea as to evangelistic opportunity far outreaches the domain of the S School. His treatment of the S S as an Evangelistic opportunity was clear, consecutive, logical. He could see and made us see the field for effort, the open door, the need of entering that door, the child's tendency was downward, its ideals low. He spoke cf the force we had wherewith to enter, the kind of soldiers needed in that force. He showed the principles which ruled the world were our instruments and that these principles incarnated with the personal ties of the teachers were the necessity of our evangelistic work would succeed. The word needs to be anew made flesh in our teachers. In those teachers the S S scholars must see the Christ if they are in our S schools to learn of Him and espouse Him as their Saviour and His cause as their life business. Rev. Mr. Steeves of Victoria Corner led the last devotional service. A unique feature of the convention was the blackboard exercise on the Temperance lesson of June 27th, given by Mrs. Geo. Watson. Mrs. Watson's address was truly an earnest one. Her blackboard work was excellent. She is an adept at that work. The scenes she presented in reference to the liquor evil were telling. Space forbids more explicit reference here. The hospitality of our Hartland friends was spontaneous and most hearty and thanks to them was voiced by the convention. Mrs. Weller and little daughter, Dorothy, spent part of Thursday and Friday at W. W Jewett's and on Friday they and Miss Annie Grey left to visit Mrs. L. Goodwin at Point de Bute.

More children die during the hot weather than at any other time of the year. Diarrhoes, dysentry, cholera infantum, and stomach troubles come without warning, and when a medicine is not at hand to give prompt relief, and delay may prove fatal to the child. Baby's Own Tablets should be kept in every home where there are children during the hot weather months. An occasional dose of the Tablets will prevent deadly summer complaints, or cure them if they come unexpectedly. Mrs. O. Moreau, St. Tite, Que., says: "My baby suffered from a severe attack of cholera infantum, but after give him Baby's Own Tablets the trouble disappeared, and he regained health splendidly." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
