Mrs. Corbett, Dist. Organizer then took the chair and spoke to the convention of the power of prayer.

Reports were then given from the delegates of auxiliaries. All report progress and a gain financially. Questions were answered by Mrs. Coulthard.

The second session opened at 2.30 p. m. with a Bible reading by Mrs. J. R. Kirkpatrick.

Of the work in Japan he said he did not think there was a better organized work in the world than the W. M. S. work there. She wished to impress in all present, a thought as given in an address of Mrs. Ross, Board Pres.

This work is a living multiplication table wrought out by God. An instance of it was given. One of the little girls first taken to the Jennie Ford Home has grown to womanhood and had at the last hearing from her, a class of eighteen that she is teaching of Christ.

In Canada the workers have increased especially in the cities where so many foreigners congregate.

In closing, Mrs. Coulthard said all would be interested to know how the money left by the late Miss Palmer was appropriated.

The library at Tokio had been neglected, and the money was to be used in fitting it as it should be and in buying religious books, the same to be added from time to time as those in charge desire.

Solos were given by Miss Hattie Pierce and Mrs W Good.

## THE EYES

The eyes are the windows through which the soul looks out upon the world. There is no need of having them darkened or defective. Don't tamper with unknown inexperienced opticians. Vision is too precious, have them scientifically fitted with glasses, DONT DELAY.

For instance.—Mrs Freeman wife of the Rev. Mr. B. L. Freeman, for 7 years pastor of the Centreville Baptist church was troubled by defective sight. Five specialists treated her, one in New York, one in Boston, one in Halifax, one in St. John, one in Woodstock N. B. She could not wear their glasses and her eyes grew worse. Two years ago just before moving to B. C., with her husband she came to me, I treated her by my new discovery and supplied her with glasses. She now writes me as follows, the glasses are a perfect fit. You evidently have the right theory. My eyes are better than for years. Many thanks.

MRS. R. L. FREEMAN, in and let me examine them FREE.

I would also like to call your attention to a new line of Jewelry just in, finer and more beautiful than I have ever carried before, my souvenir goods especially will interest and attract you.

Prices of course are right, that is why my trade grows.

Thanking my former patrons and soliciting a trial from new ones.

I am respectfully yours,
